What Workers Say Richard B. Freeman, Peter Boxall, Peter Haynes, 2018-09-05 This book brings together research in the United States, Canada, the United Kingdom, Ireland, Australia and New Zealand to answer a series of key questions: What opportunities do employees in Anglo-American workplaces have to voice their concerns and what do they seek? To what extent and in what contexts do workers want greater union representation? How do workers feel about employer-initiated channels of influence? What styles of engagement do they want with employers? What institutional models are more successful in giving workers the voice they seek at workplaces? What can unions, employers and public policy makers learn from these studies of representation and influence? The research is based largely on surveys that were conducted as a follow-up to the influential Worker Representation and Participation Survey (WRPS) reported in *What Workers Want*, co-authored by Richard B. Freeman and Joel Rogers in 1999 and updated in 2006. Taken together, these studies authoritatively outline workers' attitudes toward and opportunities for representation and influence in the Anglo-American workplace. They also enhance industrial relations theory and suggest strategies for unions, employers and public policy.

Voters' Veto Jack Vowles, Peter Aimer, 2013-11-01 Tracking New Zealand's transition from the first-past-the-post electoral system as used in Britain to the mixed-member proportional system as used in Germany, this analysis examines New Zealand's pivotal 2002 election through a campaign study, a post-election study and a mid-election panel. Based on surveys of more than 5,000 voters and information from candidates, the data included profiles of the campaign candidates, media issues, leaders, electoral systems and social and political context of this key election. Essays from New Zealanders and Americans analyze central issues including the outcome of the election for the National Party, Labour Party, New Zealand First Party and the United Future Party and the political importance of indigenous Maori voters.

Voters' Victory Jack Vowles, 2013-11-01 Completes a triad of studies charting New Zealand's shift to a new MMP electoral system. This volume is the story of the first MMP election in 1996 and asks the question: is MMP beginning to deliver what its advocates hoped? The research for the text used two different multi-stage panels and featured a post-election postal survey of over 2,000 electors and a similar survey of election candidates from those parties securing parliamentary representation, a study based on daily telephone interviews throughout the 1996 election campaign and post-election re-interviews.

Left Turn Jonathan Boston, 2000 This book looks at the campaign for the 1999 election: how people voted and

why and the formation of the minority centre left coalition It highlights key election issues and the leadership contest between Jenny Shipley and Helen Clark as well as the referenda on the size of Parliament and on the justice system

Political Handbook of the World 2015 Tom Lansford, 2015-03-24 The Political Handbook of the World provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2015 edition will continue to be the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup Compiling in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system It also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies And this annual update includes coverage of current events issues crises and controversies from the course of this year John Key: Portrait of a Prime Minister John Roughan, 2017-01-30 New Zealand's most popular modern day Prime Minister John Key shocked many with his decision to step down from office less than a year out from a general election Rather than doing what most expected and seeking an historic fourth term Key opted to quit while his approval rating was still high and before voters tired of him I always thought leaders overstay their welcome They just start grating with people All the things people liked about them they start not to like Key tells journalist John Roughan in this updated edition of John Key Portrait of a Prime Minister A fascinating insight into Key's early life personality and motivations Roughan's account of John Key's rise and rise examines how the twin ambitions of a boy in a state house to make a million dollars and be Prime Minister were realised beyond his dreams As popular as ever after eight years as Prime Minister Key chose to leave the job he loved and the voters who seemed certain to return him to office But as Roughan concludes it's perhaps not surprising that the instincts that served him so well as a currency trader and which also informed his approach to politics ultimately fuelled Key's unprecedented decision to retire at the height of his power New Parties in Old Party Systems Nicole Bolleyer, 2013-09 New Parties in Old Party Systems addresses a pertinent yet neglected issue in comparative party research why are some new parties that enter national parliament able to defend a niche on the national level while others fail to do so Unlike most existing studies which strongly focus on electoral short term success or particular party families this book examines the conditions for the organizational persistence and electoral sustainability of the 140 organizationally new parties that entered their national parliaments in seventeen democracies from 1968 to 2011 The book presents a new theoretical perspective on party institutionalization which considers the role of both structural and agential factors driving party evolution It thereby fills some important lacunae in current cross national research First it theorizes the interplay between structural pre conditions for party building and the choices of party founders and leaders whose interplay shapes parties institutionalization patterns crucial for their evolution before and after entering national parliament Second this approach is substantiated empirically by

advanced statistical methods assessing the role of party origin for new party persistence and sustainability These analyses are combined with a wide range of in depth case studies capturing how intra organizational dynamics shape party success and failure By accounting for new parties longer term performance the study sheds light on the conditions under which the spectacular rise of new parties in advanced democracies is likely to substantively change old party systems Comparative Politics is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu

Natural Causes James R. O'Connor, 1998-01-01 This work shows how the policies and imperatives of business and government influence and are influenced by environment and social change It examines the power of ecological Marxist analysis for grounding economic behaviour in the real world and for formulating political strategies
