## **Matter Materiality And Modern Culture:**

**Matter, Materiality, and Modern Culture** Paul Graves-Brown, 2000 This collection of essays offers a new approach to the study of contemporary objects The authors are from a diverse range of disciplines and each offer their own perspective on what material culture is and how objects affect human life *Teaching Collection (Anthropology)*, 2000 *The Oxford Handbook of the Archaeology of the Contemporary World* Paul Graves-Brown, Rodney Harrison, Angela Piccini, 2013-10 This Handbook is the first comprehensive survey of a rapidly expanding sub field in archaeology the study of the present and recent past It seeks to explore the boundaries of this emerging area to develop a tool kit of concepts and methods which are applicable to this new sub field and to suggest important future trajectories for research **Conserving health in early modern culture** Sandra Cavallo, Tessa Storey, 2017-07-21 Did early modern people care about their health And what did it mean to lead a healthy life in Italy and England Through a range of textual evidence images and material artefacts *Conserving health in early modern culture* documents the profound impact which ideas about healthy living had on daily practices as well as on intellectual life and the material world in this period In both countries staying healthy was understood as depending on the careful management of the six Non Naturals the air one breathed food and drink excretions sleep exercise and repose and the passions of the soul To a close scrutiny however models of prevention differed considerably in Italy and England reflecting country specific cultural political and medical contexts and different confessional backgrounds The following two chapters are available open access on a CC BY NC ND license here <http://www.oapen.org/search/identifier/633180> 3 Ordering the infant caring for newborns in early modern England Leah Astbury 4 She sleeps well and eats an egg convalescent care in early modern England Hannah Newton *Ritual Matters* Claudia Moser, Jennifer Knust, 2017-11-14 An international cross disciplinary investigation of ancient religious practices and their material remains yields fresh insights and poses new questions **Conceptual Joining** Lukas Allner, Christoph Kaltenbrunner, Daniela Kröhnert, Philipp Reinsberg, Institute of Architecture at the University of Applied Arts Vienna, Institute of Art Sciences and Art Education at the University of Applied Arts Vienna, 2021-11-22 This book explores experimental approaches to the design and construction of wooden structures in architecture while presenting the results of an artistic research project Through the use of digital tools the anatomy of wood becomes a design determining principle for spatial structures The architects and artists also explore the potential of traditional craftsmanship and derive from this a material oriented practice Structures are not designed here for a specific use but rather open up various usage possibilities due to their unique spatial and geometric properties The documentation provides insight into an open ended research process Guest contributions reflect on the underlying concepts and thus the future relevance of wood as a building material *Dissimilar Similitudes* Caroline Walker Bynum, 2020-09-29 From an acclaimed historian a mesmerizing account of how medieval European Christians envisioned the paradoxical nature of holy objects Between the twelfth and the sixteenth centuries European Christians used a plethora of objects in worship not

only prayer books statues and paintings but also pieces of natural materials such as stones and earth considered to carry holiness dolls representing Jesus and Mary and even bits of consecrated bread and wine thought to be miraculously preserved flesh and blood Theologians and ordinary worshippers alike explained utilized justified and warned against some of these objects which could carry with them both anti Semitic charges and the glorious promise of heaven Their proliferation and the reaction against them form a crucial background to the European wide movements we know today as reformations both Protestant and Catholic In a set of independent but interrelated essays Caroline Bynum considers some examples of such holy things among them beds for the baby Jesus the headdresses of medieval nuns and the footprints of Christ carried home from the Holy Land by pilgrims in patterns cut to their shape or their measurement in lengths of string Building on and going beyond her well received work on the history of materiality Bynum makes two arguments one substantive the other methodological First she demonstrates that the objects themselves communicate a paradox of dissimilar similitude that is that in their very details they both image the glory of heaven and make clear that that heaven is beyond any representation in earthly things Second she uses the theme of likeness and unlikeness to interrogate current practices of comparative history Suggesting that contemporary students of religion art and culture should avoid comparing things that merely look alike she proposes that humanists turn instead to comparing across cultures the disparate and perhaps visually dissimilar objects in which worshippers as well as theorists locate the other that gives religion enduring power

encompasses the end of the Cold War and the beginning of the internet age a period which sits firmly within what we would recognize to be a period of lived and living memory Rodney Harrison and John Schofield explore how archaeology can inform the study of this time period and the study of our own society through detailed case studies and an in depth summary of the existing literature Their book draws together cross disciplinary perspectives on contemporary material culture studies and develops a new agenda for the study of the materiality of late modern societies
