Electoral Process and the Prospects for Democracy Consolidation Korwa Gombe Adar, Abdalla Hamdok, Joram Rukambe, 2008 Any study of Africa's multiparty elections reveals inherent institutional and systemic difficulties that raise questions about the electoral outcomes in the emerging democracies. An assessment of electoral processes in Africa poses methodological, conceptual and theoretical challenges to scholars and practitioners. The chapters of this volume address these issues through an assessment of the electoral processes and an examination of democratisation trends in Africa with special focus on case studies. The chapters on Algeria, Cameroon, Ghana, Malawi, Mozambique and South Africa analyse these complexities holistically. They examine the potency and independence of electoral institutions, adherence to electoral laws by those charged with the statutory powers as well as the participants in the elections, the role of the media, election monitors and observers, civil society and political parties. The authors also assess whether or not elections were conducted in a free and fair environment conducive for multiparty electoral practice and consolidation.
