Patrick D. Miller

Midrash On Psalms Judaica Series No 13:

The Study of Ancient Judaism: Mishnah, Midrash, Siddur Jacob Neusner, 1981 *The Retelling of Chronicles in Jewish Tradition and Literature* Isaac Kalimi, 2009-06-30 Isaac Kalimi reveals the history of the book of Chronicles from Hellenistic times to the beginning of critical biblical scholarship at the dawn of the 17th century This comprehensive examination focuses first and foremost on the use of Chronicles in Jewish societies through the generations and highlights the attitudes and biases of writers translators historians artists exegetes theologians and philosophers toward the book The reader is made aware of what the biblical text has meant and what it has accomplished in the many contexts in which it has been presented Throughout the volume Kalimi strives to describe the journey of Chronicles not only along the route of Jewish history and interpretation but also in relation to the book's non Jewish heritage namely Christianity demonstrating the differences and distinctiveness of the former In contrast the majority of commentaries on Chronicles written from the mid 19th century to the present day have contained little or nothing about the application interpretation and reception history of Chronicles by Jews and Christians for hundreds of years

Midrash in Context Jacob Neusner, 1988 **Jesus and the Kingdom of God** George Raymond Beasley-Murray, 1986 **The Oxford Dictionary of the Christian Church** Andrew Louth, 2022-02-17 Uniquely authoritative and wide ranging in its scope The Oxford Dictionary of the Christian Church is the indispensable reference work on all aspects of the Christian Church It contains over 6 500 cross referenced A Z entries and offers unrivalled coverage of all aspects of this vast and often complex subject from theology churches and denominations patristic scholarship and the bible to the church calendar and its organization popes archbishops other church leaders saints and mystics In this new edition great efforts have been made to increase and strengthen coverage of non Anglican denominations for example non Western European Christianity as well as broadening the focus on Christianity and the history of churches in areas beyond Western Europe In particular there have been extensive additions with regards to the Christian Church in Asia Africa Latin America North America and Australasia Significant updates have also been included on topics such as liturgy Canon Law recent international developments non Anglican missionary activity and the increasingly important area of moral and pastoral theology among many others Since its first appearance in 1957 the ODCC has established itself as an essential resource for ordinands clergy and members of religious orders and an invaluable tool for academics teachers and students of church history and theology as well as for the general reader

Characterization in Midrash and Medieval Jewish Bible Commentaries Sivan Nir, 2024-12-13 Sivan Nir meticulously examines the reimaginings of the biblical figures Balaam Jeremiah and Esther in a wide range of Jewish texts from second century rabbinic sources to medieval Jewish biblical commentaries Nir's unique approach analyzes the continuity or lack thereof that emerges when characterization is viewed in relation to and in contrast with its cross cultural context including the contemporary conventions found in Hellenistic rhetoric and novels Byzantine Christian literature Islamic adab and Mu tazila literature and

more Such an approach reveals a transition from typological depictions to richer more lifelike portrayals a transformation shaped by rival notions of literature and history Nir translates the sources into accessible English for students and scholars of not only Jewish exegesis but also those in Christian theology Islamic studies and world literature The Book of Psalms Nancy deClaiss-Walford, Rolf A. Jacobson, Beth LaNeel Tanner, 2014-12-12 Reflecting the combined insights and strengths of three superior biblical scholars this book is the most complete and detailed one volume commentary available on the Psalms Nancy deClaiss-Walford Rolf Jacobson and Beth LaNeel Tanner offer a succinct introduction to the Psalter a new translation of all the psalms that takes special account of the Dead Sea Scrolls and individual entries on each psalm unit Throughout their commentary they drew on state of the art research on the canonical shape and shaping of the Psalter and give nuanced attention to the poetic nature of the psalms *The Way of the Lord* Patrick D. Miller, 2007-02 The Way of the Lord contains twenty one of respected biblical scholar Patrick Miller's best essays on Old Testament theology In this work Miller focuses on the Commandments and the Psalms but also discusses what other parts of the Old Testament have to say to our theology today In the first section Miller portrays the rich complexities of the Ten Commandments and asserts that aspects of them appear in expanded form throughout Scripture His second section shifts to the Psalms revealing them to be as much a book of theology as a book of poetry and song pointing to a way of faith and life The final section expands to consider more wide ranging topics on theology and anthropology contemplating the character of God and the nature of human beings *God's Word for Our World, Vol. 2* Deborah L. Ellens, J. Harold Ellens, Isaac Kalimi, Rolf Knierim, 2004-03-01 This two volume work in biblical studies is a commemorative presentation to Simon John DeVries noted Old Testament Scholar Volume two encompasses the worldviews of the Bible for Jews and Christians the Holiness of God Psalms in LXX similarities in ancient Near Eastern narrative and Hebrew Bible the Bible in the cultural settings of ancient Rome Middle Ages Oriental theologies and contemporary cultural imperatives and the function of biblical metaphors **Fortress Commentary on the Bible** Matthew J. M. Coomber, Hugh R. Page Jr., Gale A. Yee, 2015-04-01 The Fortress Commentary on the Bible Old Testament and Apocrypha presents a balanced synthesis of current scholarship enabling readers to interpret Scripture for a complex and pluralistic world The contributors bring a rich diversity of perspectives to the task of connecting solid historical critical analysis of the Scripture with sensitivity to theological cultural and interpretive issues arising in our encounter with the text The contributors represent a broad array of theological commitment Protestants Catholics Jews and others The introductory articles and section introductions in the volume discuss the dramatic challenges that have shaped contemporary interpretation of the Old Testament and Apocrypha Individual book articles provide an introduction and commentary on key sense units that are explored through the lenses of three critical questions The text in its ancient context What did the text probably mean in its original historical and cultural context The text in the interpretive tradition How have centuries of reading and interpreting shaped our understanding of the text The text in contemporary discussion What are the unique

challenges and interpretive questions that arise for readers and hearers of the text today The result is a commentary that is comprehensive and useful for preaching teaching and research
