The Modernizers Ardath W. Burks, 2019-09-10 This volume of essays by Japanese and Western scholars sheds light on the process of modernization in nineteenth century Japan focusing on two significant aspects of Japan's transition to a modern society the decision to live for a time with the necessary evil of relying on the skill and advice of foreign employees oyatio gaikokujin and the decision to dispatch Japanese students overseas Pyugakusei The essays make clear that the success of both these programs went beyond aiding Japan's modernization goals their indirect effects often extended much further than planned influencing even today the fields of education science and history and affecting other countries knowledge about Japan **Bulletin** Michigan State Library, 1896 The Canadian Methodist Magazine, 1880 Columbia University Studies in the Social Sciences Lynn Thorndike, 1905 **The International Position of Japan as a Great Power** Seiji
