Don Taylor

Modern Historians:

Modern Historians and the Study of History Frederick Maurice Powicke, 1955
History Frederick Maurice Powicke, 1956 *The Oxford Handbook of Modern British Political History, 1800-2000* David Brown, Robert Crowcroft, Gordon Pentland, 2018-03-29 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought provoking long view for those interested in current political challenges

The Jesus Legend Paul Rhodes Eddy, Gregory A. Boyd, 2007-08-01 Christianity Today 2008 Book Award Biblical Studies Even mature Christians have trouble defending the person and divinity of Christ The Jesus Legend builds a convincing interdisciplinary case for the unique and plausible position of Jesus in human history He was real and his presence on the planet has been well documented The authors of the New Testament didn't plant evidence though each writer did tell the truth from a unique perspective This book carefully investigates the Gospel portraits of Jesus particularly the Synoptic Gospels assessing what is reliable history and fictional legend The authors contend that a cumulative case for the general reliability of the Synoptic Gospels can be made and boldly challenge those who question the veracity of the Jesus found there

A Textbook of Historiography, 500 B.C. to A.D. 2000 E. Sreedharan, 2004 This book traces the development of historiography from the days of Herodotus to those of postmodernism It covers the ancient medieval and the modern aspects of the subject and offers easy comprehension clear and precise guidance and immediate utility The author provides a balanced view of competing ideas and leads the reader into the vast arena of the subject Two thousand five hundred years of historiography including Indian historiography and the poststructuralist critique of history constitutes this clear analytical work

The Invention of Ancient Israel Keith W. Whitelam, 1996 Shows how ancient Israel has been invented by scholars in the image of a European nation state influenced by the Israeli state created in 1948 Biblical scholars have contributed to dispossessing the Palestinians of their land and their past

Modern Historians and the Study of History F. M. Powicke, 2003-01-01 *Encyclopedia of Medieval Literature* Robert Thomas Lambdin, Laura Lambdin, 2000-07-30 Often misleadingly called the Dark Ages the period between the fall of Rome and the Renaissance was a

time of great creativity The Middle Ages gave rise to some of the world's most enduring and influential literary works including Dante's *Commedia* Chaucer's *The Canterbury Tales* and a large body of Arthurian lore and legend This reference is a comprehensive guide to literature written between 500 and 1500 While the volume is primarily devoted to the early literature of England it also includes entries for historical persons and subjects of cultural relevance which would have been discussed in literary works or which might have affected their creation Multicultural in scope the book also covers Islamic Hispanic Celtic Mongolian Germanic Italian and Russian literature and culture of the Middle Ages Longer entries provide thorough coverage of major English authors such as Chaucer and Malory and of entire genres such as drama lyric ballad debate saga chronicle and hagiography Shorter entries examine particular literary works significant kings artists explorers and religious leaders important themes such as courtly love and chivalry and major historical events such as the Crusades The entries are written by scholars and each entry concludes with a brief bibliography The volume closes with a list of the most valuable general works for further reading

Magna Carta and its Modern Legacy Robert Hazell, James Melton, 2015-04-30 In this book top scholars analyse the historic and contemporary influence of Magna Carta challenging its common myths

Revolutions and Continuity in Greek Mathematics Michalis Sialaros, 2018-04-23 This volume brings together a number of leading scholars working in the field of ancient Greek mathematics to present their latest research In their respective area of specialization all contributors offer stimulating approaches to questions of historical and historiographical revolutions and continuity Taken together they provide a powerful lens for evaluating the applicability of Thomas Kuhn's ideas on scientific revolutions to the discipline of ancient Greek mathematics Besides the latest historiographical studies on geometrical algebra and premodern algebra the reader will find here some papers which offer new insights into the controversial relationship between Greek and pre-Hellenic mathematical practices Some other contributions place emphasis on the other edge of the historical spectrum by exploring historical lines of continuity between ancient Greek Byzantine and post-Hellenic mathematics The terminology employed by Greek mathematicians along with various non-textual and material elements is another topic which some of the essays in the volume explore Finally the last three articles focus on a traditionally rich source on ancient Greek mathematics namely the works of Plato and Aristotle

Allegorizing History Timothy J Furry, 2014-05-29 What is history and how does it impact upon biblical interpretation and theology *Allegorizing History* seeks to answer this question by arguing that conceptions of the past and the purposes of history impact upon biblical interpretation and vice versa Invoking Constantin Fasolt's notion of history as a knowledge of the past as well as the technique by which such knowledge is produced and re-fashioning Erich Auerbach's historical enterprise in *Figura* 1938 Furry contends that the understanding and practice of historical writing is inevitably affected by philosophy and theology thereby rendering all history as figural or allegorical Famous for his *Ecclesiastical History of the Anglo-Saxon People* and biblical commentaries the Venerable Bede is studied in dialogue with Augustine contemporary theology and

historical theory to make this interdisciplinary argument

Authenticating Criteria in Jesus Research and Beyond

Kevin B. Burr, 2023-10-16 Are the criteria of authenticity of Jesus research idiosyncratic to New Testament studies vehicles of subjectivity and fundamentally flawed vestiges of form criticism as some claim today If so why do opponents of the criteria approach still use them Or are the criteria the tools of general historiography as others assert If true none have adequately demonstrated where and how principles such as multiple attestation general and historical coherence dissimilarity and embarrassment feature in general historiographic method until now This study analyzes the methods of general historians and Jesus researchers who favor or oppose the criteria and demonstrates that regardless of sub discipline authenticating criteria are inherent to the practice of historiography Roman Historical Texts and Their Influence Pasquale De

Marco, 2025-03-09 Journey through the annals of ancient Rome and discover the enduring power of historical storytelling From the rise of the Republic to the fall of the Empire Roman historians crafted compelling narratives that shaped their culture politics and worldview In this captivating book we delve into the rich tapestry of Roman historical writing exploring the works of renowned authors such as Livy Tacitus Suetonius and Ammianus Marcellinus We examine their methods their biases and their profound impact on Western civilization Discover how Roman historical texts were used to promote political agendas legitimize imperial power and educate the Roman people about their history and traditions Learn how these texts entertained and inspired readers offering glimpses into the lives of great leaders the rise and fall of empires and the enduring struggles of humanity Beyond their historical value Roman historical texts offer a window into the Roman mindset their values and their aspirations They provide insights into the challenges and opportunities they faced and the lessons they learned along the way Through their writings we can gain a deeper understanding of the ancient world and its enduring legacy This book is an essential resource for students of ancient history classics and literature It is also a fascinating read for anyone interested in the power of storytelling and the shaping of historical narratives Immerse yourself in the world of Roman historical writing and uncover the secrets of a civilization that continues to captivate and inspire us today If you like this book write a review *Norman Campaigns in the Balkans, 1081-1108* Georgios Theotokis, 2014 First full length analysis

of Norman military organisation in the Balkans events strategy and tactics The Norman expansion in eleventh century Europe was a movement of enormous historical importance which saw men and women from the duchy of Normandy settling in England Italy Sicily and the Middle East The Norman establishment in the South is particularly interesting because it represents the story of a few hundred mercenaries who managed to establish a principality in the Mediterranean that would later develop in to the Kingdom of Sicily In this book the author examines the clash of two different military cultures the Normans and the Byzantines in one theatre of war the Balkans It is the first study to date of the military organization of the Norman and Byzantine states in the Mediterranean and of their overall strategies and their military tactics in the battlefield It is also the first to examine the way in which each military culture reacted and adapted to the strategies and tactics of its

enemies in Italy and the Balkans The author closely follows the campaigns conducted by the Normans in the Byzantine provinces of Illyria and Macedonia and their battles against Imperial armies commanded by the Byzantine Emperor He also examines the ways in which the Italian Norman and Byzantine military systems differed and their relative efficiencies Dr GEORGIOS THEOTOKIS is Assistant Professor of European History at Fatih University Istanbul *The New Cambridge Medieval History: Volume 1, C.500-c.700* Paul Fouracre, Rosamond McKitterick, David Abulafia, 1995 Sample Text Did Moses Speak Attic? Lester L. Grabbe, 2001-03-01 Is the Bible a Hellenistic book The essays in this volume respond to that challenging question formulated by Niels Peter Lemche and offer everything from qualified agreement to vociferous opposition In so doing they debate and illuminate the many features of Jewish writing in the Second Temple period including not only the scriptures themselves and their own history but the non canonized literature of the late Second Temple period As with all the volumes in this pioneering series the editor Lester Grabbe introduces and reflects upon the discussion and its implications for one of the most controversial topics in current biblical studies **Historical Judgement** Jonathan Gorman, 2014-11-27 The historical profession is not noted for examining its own methodologies Indeed most historians are averse to historical theory In *Historical Judgement* Jonathan Gorman's response to this state of affairs is to argue that if we want to characterize a discipline we need to look to persons who successfully occupy the role of being practitioners of that discipline So to model historiography we must do so from the views of historians Gorman begins by showing what it is to model a discipline by using recent philosophy of law and philosophy of science There are different models at work whose rivalry and resolution are to be historically understood With this approach in place he is able to develop the history of historiography and explore the character of historiography as presented by historians He reveals that historians conform to various norms that historians now and in the past have agreed and disagreed about the same set of interrelated matters truth telling moral judgement and the synthesis of facts and it is this internal understanding that we need to recover if we are to arrive at a correct characterization of the discipline of historiography Demonstrating how the practice of historiography requires choices and therefore the exercise of judgement Gorman is able to show that in their making of judgements historians enjoy the immense benefit of hindsight He shows how in reflecting on their own discipline historians have typically failed to attend adequately to the history of historiography neglecting to situate previous historians within their historical contexts or to pay adequate attention to the fact that present historians too are within a context that will change In addition Gorman's approach which emphasizes the power and necessity of choice and which rests on the pragmatic holistic empiricism of Quine shows postmodernism not to be the threat that some historians feel it to be indeed it is shown to be a radical form of empiricism Gorman shows how the historical enterprise may be established in our factual and moral understanding in the light of our choices and commitments to a shared world *Historical Judgement* is an original and important contribution to the philosophy of history By bringing together the ideas of historians and philosophers Gorman

presents a much more practitioner focused examination of the discipline of history one that will hopefully encourage historians to think more about the nature of what they do

Roman Empire at War Don Taylor, 2020-01-31 This valuable summary of every significant battle from Augustus to Justinian I is an indispensable reference guide for any student of the Roman military The NYMAS Review In a single volume Roman Empire at War catalogues and offers a brief description of every significant battle fought by the Roman Empire from Augustus to Justinian I and most of the minor ones too In lists arranged both alphabetically and chronologically the information in each entry is drawn exclusively from Ancient Late Antique and Early Medieval texts in order to offer a brief description of each battle based solely on the information provided by the earliest surviving sources that chronicle the event This approach provides a concise foundation of information to which you can then confidently apply later scholarly interpretation presented in secondary sources in order to achieve a more accurate understanding of the most likely battlefield scenario In writing the battle descriptions the author has not sought to extensively analyze the evidence contained in the surviving accounts nor embellish them beyond what was necessary to provide clarity to the modern reader He allows the original writers to speak for themselves presenting a succinct version of what the ancient chroniclers tell us of these dramatic events It is an excellent first stop reference to the many battles of the Roman Empire

Science and Technology in World History William E. Burns, 2020-02-07 This encyclopedia offers an interdisciplinary approach to studying science and technology within the context of world history With balanced coverage a logical organization and in depth entries readers of all inclinations will find useful and interesting information in its contents Science and Technology in World History takes a truly global approach to the subjects of science and technology and spans the entirety of recorded human history Topical articles and entries on the subjects are arranged under thematic categories which are divided further into chronological periods This format along with the encyclopedia's integrative approach offers an array of perspectives that collectively contribute to the understanding of numerous fields across the world and over eras of development Entries cover discussions of scientific and technological innovations and theories historical vignettes and important texts and individuals throughout the world From the discovery of fire and the innovation of agricultural methods in China to the establishment of surgical practices in France and the invention of Quantum Theory this encyclopedia offers comprehensive coverage of fascinating topics in science and technology through a straightforward historical lens

The Canaanites and Their Land Niels Peter Lemche, 1991-03-01 It is an interesting consequence of the new reconstructions of the early history of Israel that the Israelites must originally have been Canaanites Nevertheless an outspoken hatred against Canaanites permeates the Old Testament Lemche presents a new way of explaining the anti Canaanite sentiments of the Old Testament historians while at the same time disclosing some of the aims and ideas which governed Old Testament history writing

Thank you for reading **Modern Historians**. As you may know, people have look numerous times for their chosen readings like this Modern Historians, but end up in infectious downloads.

Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some infectious virus inside their desktop computer.

Modern Historians is available in our digital library an online access to it is set as public so you can get it instantly.

Our book servers saves in multiple locations, allowing you to get the most less latency time to download any of our books like this one.

Kindly say, the Modern Historians is universally compatible with any devices to read
