Nude With A View:

Naked Krista K. Thomason, 2018-01-04 We know shame can be a morally valuable emotion that helps us to realize when we fail to be the kinds of people we aspire to be We feel shame when we fail to live up to the norms standards and ideals that we value as part of a virtuous life But the lived reality of shame is far more complex and far darker than this the gut level experience of shame that has little to do with failing to reach our ideals We feel shame viscerally about nudity sex our bodies and weaknesses or flaws that we can't control Shame can cause self destructive and violent behavior and chronic shame can cause painful psychological damage Is shame a valuable moral emotion or would we be better off without it In *Naked* Krista K. Thomason takes a hard look at the reality of shame The experience of it she argues involves a tension between identity and self conception namely what causes me shame both overshadows me my self conception and yet is me my identity We are liable to feelings of shame because we are not always who we take ourselves to be Thomason extends her thought provoking analysis to our current social and political landscape shaming has increased dramatically because of the proliferation of social media platforms And although these online shaming practices can be used in harmful ways they can also root out those who express racist and sexist views and enable marginalized groups to confront oppression Is more and continued shaming therefore better and is there moral promise in using shame in this way Thomason grapples with these and numerous other questions Her account of shame makes sense of its good and bad features its numerous gradations and complexity and ultimately of its essential place in our moral lives

Online Evaluation of Creativity and the Arts Hiesun Cecilia Suhr, 2014-08-21 Social media have dramatically popularized practices of evaluation especially of cultural products and artistic expressions The practices of liking and rating any shared contents such as music to blogs film videos photographs to artwork and performances are ubiquitous in today's digital environments As a result creative producers are increasingly developing reputations and careers through a complex blend of online social reputation management and distribution platforms and more longstanding forms of marketing channels and professional evaluation In this context Online Evaluation of Creativity and the Arts seeks to examine the newly emerging forms of evaluation such as contests competitions ranking commenting liking and rating which are taking place in digital environments In doing so this book investigates the criteria and assessment practices tied to the evaluation of creativity and artistic works and further questions what is at stake when digital environments heighten the role of amateur and peer criticism to the level of expert critiques While exploring potential informal learning opportunities and offering incisive critiques on the emerging norms and standards of evaluation the essays in this book cover a wide range of artistic and creative practices

Rembrandt and the Female Nude Eric Jan Sluijter, Rembrandt Harmenszoon van Rijn, 2006 Rembrandt's extraordinary paintings of female nudes Andromeda Susanna Diana and her Nymphs Dana Bathsheba as well as his etchings of nude women have fascinated many generations of art lovers and art historians But they also elicited vehement criticism when first shown described as against the grain anticlassical even ugly and unpleasant However Rembrandt chose conventional subjects kept close to time honored pictorial schemes and was well aware of the high prestige accorded to the depiction of the naked female body Why then do these works deviate so radically from the depictions of nude women by other artists To answer this question Eric Jan Sluijter in Rembrandt and the Female Nude examines Rembrandt's paintings and etchings against the background of established pictorial traditions in the Netherlands and Italy Exploring Rembrandt's intense dialogue with the works of predecessors and peers Sluijter demonstrates that more than any other artist Rembrandt set out to incite the greatest possible empathy in the viewer an approach that had far reaching consequences for the moral and erotic implications of the subjects Rembrandt chose to depict In this richly illustrated study Sluijter presents an innovative approach to Rembrandt's views on the art of painting his attitude towards antiquity and Italian art of the Renaissance his sustained rivalry with the works of other artists

his handling of the moral and erotic issues inherent in subjects with female nudes and the nature of his artistic choices

Modern Japanese Art and the Meiji State Dōshin Satō, 2011 This is an insightful and intelligent re thinking of Japanese art history its Western influences This broad ranging and profoundly influential analysis describes how Western art institutions and vocabulary were transplanted to Japan in the late nineteenth century In the 1870 80s artists and government administrators in Japan encountered the Western system of the arts for the first time Under pressure to exhibit and sell its artistic products abroad Japan s new Meiji government came face to face with the need to create European style art schools and museums and even to establish Japanese words for art painting artist and sculpture Modern Japanese Art is a full re conceptualization of the field of Japanese art history exposing the politics through which the words categories and values that structure our understanding of the field came to be while revealing the historicity of Western and non Western art history

Library of Congress. Copyright Office, 1902 Master of the Two Left Feet Richard Meyer, 2022-09-13 An account of the life and work of a once famous self taught American artist of the 1940s and a study of how artists go missing from public memory The exhibition Morris Hirshfield Rediscovered at the American Folk Art Museum in New York City curated by the author and developed as an extension of the book is on view from September 22 2022 to January 27 2023 A garment worker and slipper manufacturer with no training in art Morris Hirshfield was never expected to make history Against all odds his wildly stylized paintings of female figures often nude animals and landscapes became internationally known in the 1940s Admired by Pablo Picasso Piet Mondrian and the French surrealists his peak moment of visibility occurred in 1943 when the Museum of Modern Art mounted a one man show of his work The exhibition was widely reviewed though mostly reviled by the press who jeeringly crowned Hirshfield Master of the Two Left Feet for his tendency to display the female body in that unorthodox fashion After the artist s death in 1946 his work was largely forgotten but in Master of the Two Left Feet art historian Richard Meyer rediscovers Hirshfield for twenty first century audiences offering full color reproductions that capture the vibrant imagination and sheer visual pleasure of Hirshfield s paintings The book also features a catalog of works compiled by curator Susan Davidson which provides the most comprehensive documentation of the artist s work ever assembled Ten years in the making Master of the Two Left Feet presents Hirshfield s unlikely career as a painter

not only as a missing episode in the history of twentieth century art but as a case study of the ways in which artists go missing from historical knowledge and public memory By looking closely at Hirshfield and his milieu in 1940s Brooklyn Meyer demonstrates how much we have yet to learn and to see of the visual past Provocative Bodies Jim Supangkat,2005 Discussion of the later works of Indonesian painter Mochtar Apin 1923 1994 **Eugenics, 'Aristogenics', Photography** Kris Belden-Adams,2020-06-08 This is the first study to explore the connections between late 19th century university college composite class portraits and the field of eugenics which first took hold in the United States at Harvard University Eugenics Aristogenics Photography takes a closer look at how composite portraiture documented an idealized reality of the New England social caste experience and explains how when positioned in relation to the individual stories and portraits of members of the class the portraits reveal points of non conformity and rebellion with their own rhetoric
