Antología personal Roberto Fernández Retamar, 2007 El autor dirige desde 1965 la revista Casa de las Américas. Su obra poética y ensayística es enorme y en todos los géneros ha alcanzado una posición sobresaliente en la cultura latinoamericana contemporánea. Ha sido traducido a casi todas las lenguas europeas y su ensayo "Calibán" ha dado la vuelta al mundo planteando con extraordinaria agudeza los problemas centrales de Nuestra América. Ha recibido numerosos premios y distinciones nacionales e internacionales y es sin duda un verdadero embajador itinerante de la cultura cubana y latinoamericana, así como un rico y divulgador brillante de la perspectiva revolucionaria tercermundista. En esta Antología personal se pone de manifiesto su poderosa originalidad, el vigor de su riqueza verbal, la agudeza de su talento y el despliegue de su emoción. Roberto Fernández Retamar es una de las figuras serenas de la poesía actual en nuestra lengua.

Antología personal Juan Rulfo, 1988 Las voces de los seres que habitan como apariciones la obra de Juan Rulfo son voces que sin saberlo conocemos desde siempre. Son los murmullos, son las imprecaciones, el dolor, las esperanzas, las preguntas del México profundo. Así nos han dado esta tierra. Y en este comal acalorado quieren que sembremos semillas de algo para ver si algo retoña y se levanta. Pero nada se levanta de aquí. Ni zopilotes. Uno los ve allá, cada vez y cuando muy arriba volando a la carrera tratando de salir lo más pronto posible de este blanco terrenal endurecido donde nada se mueve y por donde uno camina reculando. Melitón dice: Esta es la tierra que nos han dado. La prosa más parca y más desolada de la literatura mexicana es también la más hermosa, la más poética. Cada lector recuerda pasajes y personajes inolvidables de la obra rulfiana, pero lo que encontrar en este volumen es la selección que hizo Juan Rulfo de las páginas que a él mismo más de su obra ya clásica: cuentos de "El llano en llamas", fragmentos de "Pedro Páramo" y dos relatos que no se recogieron en estos libros: "Un pedazo de noche" y "La vida no es muy seria en sus cosas". Publisher's description. *Art of the Landscape* Raffaele Milani, 2009-04-01

The Hospitable Canon Virgil Nemoianu, Robert Royal, 1991-06-21 The papers in this book respond to the public debate over literary canons in the United States and elsewhere by placing the political ideological aspects of the conflict inside perspectives derived from comparative literature Canons are seen by most of the contributors as based on democratic and communal intentions or choices inevitable filtered through and colored by historical experiences and social biases An examination of the canonical process over many centuries reveals both the impressive durability of its elements and the amazing flexibility of its outlines The careful individual analyses as well as the thought provoking general contributions in this volume agree that the democracy of play is one of the strongest bonds uniting the human race Canons or canons the contributors argue are based on it and reflect the intimate interdependence of cultural and intellectual matters with the workings of society as a whole Contributors Charles Altieri Lilian R Furst Michael G Cooke Robert Royal Roger Shattuck Rosa E M D Penna Glen M Johnson Yves Chevrel Raymond A Prier Peter Walker Christopher Clausen Virgil Nemoianu

Jorge Luis Borges: The Last Interview Jorge Luis Borges, 2013-06-25 Believe me the benefits of blindness have been greatly exaggerated If I could see I would never leave the house I d stay indoors reading the many books that surround me Jorge Luis Borges Days before his death Borges gave an intimate interview to his friend the Argentine journalist Gloria Lopez Lecube That interview is translated for the first time here giving English language readers a new insight into his life loves and thoughts about his work and country at the end of his life Accompanying that interview are a selection of the fascinating interviews he gave throughout his career Highlights include his celebrated conversations with Richard Burgin during Borges s time as a lecturer at Harvard University in which he gives rich new insights into his own works and the literature of others as well as discussing his now oft overlooked political views The pieces combine to give a new and revealing window on one of the most celebrated cultural figures of the past century *The Oxford Handbook of Jorge Luis Borges* Oxford Handbooks, 2024 The Oxford Handbook of Jorge Luis

Borges contextualizes the Argentine writer Jorge Luis Borges's work for a new generation of twenty first century readers and critics. Most known for his creative fictions that tackle literary questions of authorship as well as more philosophical notions such as multiverse theory, Borges has captivated scholars from a variety of disciplines since his emergence on the international scene. This volume shifts the emphasis to Borges's working life, his writing processes, his collaborations and networks, and the political and cultural background of his production. It also evaluates his impact on a variety of other fields ranging from political science and philosophy to media studies and mathematics.

Inventing the Universe Alister E McGrath, 2015-10-08. We just can't stop talking about the big questions around science and faith. They haven't gone away as some predicted they might; in fact, we seem to talk about them more than ever. Far from being a spent force, religion continues to grow around the world. Meanwhile, Richard Dawkins and the New Atheists argue that religion is at war with science and that we have to choose between them. It's time to consider a different way of looking at these two great cultural forces. What if science and faith might enrich each other? What if they can together give us a deep and satisfying understanding of life? Alister McGrath, one of the world's leading authorities on science and religion, engages with the big questions that Dawkins and others have raised, including origins, the burden of proof, the meaning of life, the existence of God, and our place in the universe. Informed by the best and latest scholarship, *Inventing the Universe* is a groundbreaking new primer for the complex yet fascinating relationship between science and faith.

[The Big Question](#) Alister McGrath, 2024-03-26. McGrath calls for a full-bodied humanism invigorated by both scientific reasoning and religious devotion. Profound engagement with life-defining issues. Booklist. Richard Dawkins's groundbreaking book *The God Delusion* created an explosion of interest in the relation of science and faith. This often troubled relationship between science and religion was seemingly damaged by the rise of the New Atheism, which insisted that science had essentially disproved not just God but also the value of religion. There is increasing skepticism towards its often glib and superficial answers, and the big questions about faith, God, and science haven't gone away. In fact, we seem to talk about them more than ever. Alister McGrath's *The Big Question* is an accessible, engaging account of how science relates to faith, exploring how the working methods and assumptions of the natural sciences can be theologically useful. McGrath uses stories and analogies as well as personal accounts in order to help readers understand the scientific and theological points he makes and grasp their deeper significance. An extremely accomplished scientist and scholar, McGrath criticizes the evangelism of the New Atheists and paves a logical, well-argued road to the compatibility between science and faith. Some of his main discussion points include: There is much more convergence between science and faith than is usually appreciated; How the three great models of scientific explanation can be adapted to religious belief; Belief in God provides a big picture of reality, making sense of science's successes. Another deeply felt entry on two divergent yet ultimately compatible ways of engaging the world and understanding reality. Kirkus Reviews.
