

Functional grammar of Nunggubuyu

Jeffrey Heath

Functional grammar of Nunggubuyu is a detailed study of the grammar of a small Australian language. The book is written in a clear and accessible style, and is suitable for students of linguistics and for those interested in the grammar of Australian languages. The book is divided into two main parts. The first part, 'The grammar of Nunggubuyu', describes the grammar of the language in terms of its functional components. The second part, 'The grammar of Nunggubuyu in context', discusses the language in relation to its social and cultural context. The book is a valuable contribution to the study of Australian languages and to the theory of functional grammar.

Dixon, Barry J. Blake, 1983-12-31 This handbook makes available short grammatical sketches of Australian languages Each grammar is written in a standard format following guidelines provided by the editors and includes a sample text and vocabulary text The contributions to this volume are salvage studies giving all the information that is available on four languages which are on the point of extinction and an assessment of what linguistic impressions can be inferred from the scant material that is available on the extinct languages of Tasmania The Oxford Guide to Australian Languages Claire Bowern, 2023 This book is a wide ranging reference work covering the more than 550 Indigenous languages of Australia The chapters in the book explore typology and classification linguistic structures sociolinguistics and language variation and language in the community The final part offers sketches of a selection of languages sub groups and families **The Language of Hunter-Gatherers** Tom Güldemann, Patrick McConvell, Richard A. McGregor, 2013-06-10 This book deals with systems of verb classification in Australian Aboriginal languages with particular focus on languages of the north west It proposes a typology of the systems according to their main formal and semantic characteristics It also makes some proposals concerning the historical origins and grammaticisation of these systems and suggestions regarding the grammatical relations involved In addition an attempt is made to situate the phenomenon of verb classification within the context of related verbal phenomena such as serial verb constructions nominal incorporation and complex predicates *The Dynamics of Nominal Classification* Ruth Singer, 2016-02-22 The use of grammatical gender in the Australian language Mawng calls into question prevailing ideas about the functions of nominal classification systems Mawng s gender system has a strong semantic basis and plays an important role in the construction of meaning in discourse Gender agreement in verbs is frequently lexicalized creating idioms called lexicalised agreement verbs that are structurally similar to noun verb idioms This book will be of interest to anyone interested in nominal classification or cross linguistic approaches to idioms **Australian Aboriginal Grammar (RLE Linguistics F: World Linguistics)** Barry Blake, 2014-01-10 This study covers a number of topics that are prominent in the grammars of Australian Aboriginal languages especially ergativity and manifestations of the hierarchy that runs from the speech act participants down to inanimates This hierarchy shows up in case marking number marking and agreement advancement and cross referencing Chapter 1 provides an overall picture of Australian languages Chapters 2 3 and 4 deal with case systems including voice alternations and other advancements Chapter 5 deals with the distribution of case marking within the noun phrase Chapter 6 deals with systems that allow the cross referencing of bound pronouns

Chapter 7 deals with clauses which appear to have more than one verb Chapter 8 deals with compound and complex sentences Chapter 9 deals with word order and emphasises a theme introduced in Chapter 5 namely the widespread use of discontinuous phrases Chapter 10 draws together ergativity and various manifestations of the hierarchy and attempts to interpret their distribution The final section provides an interesting hypothesis about the evolution of core grammar in Australia

The Lexical Typology of Semantic Shifts Päivi Juvonen, Maria Koptjevskaja-Tamm, 2016-08-08 The volume focuses on semantic shifts and motivation patterns in the lexicon Its key feature is its lexico typological orientation i e a heavy emphasis on systematic cross linguistic comparison The book presents current theoretical and methodological trends in the study of semantic shifts and motivational patterns based on an abundance of empirical findings across genetically areally and typologically diverse languages

Catching Language Felix K. Ameka, Alan Dench, Nicholas Evans, 2008-08-22 Descriptive grammars are our main vehicle for documenting and analysing the linguistic structure of the world's 6 000 languages They bring together in one place a coherent treatment of how the whole language works and therefore form the primary source of information on a given language consulted by a wide range of users areal specialists typologists theoreticians of any part of language syntax morphology phonology historical linguistics etc and members of the speech communities concerned The writing of a descriptive grammar is a major intellectual challenge that calls on the grammarian to balance a respect for the language's distinctive genius with an awareness of how other languages work to combine rigour with readability to depict structural regularities while respecting a corpus of real material and to represent something of the native speaker's competence while recognising the variation inherent in any speech community Despite a recent surge of awareness of the need to document little known languages there is no book that focusses on the manifold issues that face the author of a descriptive grammar This volume brings together contributors who approach the problem from a range of angles Most have written descriptive grammars themselves but others represent different types of reader Among the topics they address are overall issues of grammar design the complementary roles of outsider and native speaker grammarians the balance between grammar and lexicon cross linguistic comparability the role of explanation in grammatical description the interplay of theory and a range of fieldwork methods in language description the challenges of describing languages in their cultural and historical context and the tensions between linguistic particularity established practice of particular schools of linguistic description and the need for a universally commensurable analytic framework This book will renew the field of grammaticography addressing a multiple readership of descriptive linguists typologists and formal linguists by bringing together a range of distinguished practitioners from around the world to address these questions

Nominal Classification in Aboriginal Australia Mark Harvey, Nicholas Reid, 1997-09-02 This volume aims to extend both the range of analyses and the database on nominal classification systems Previous analyses of nominal classification systems have focussed on two areas the semantics of the classification system and the role of the system in discourse In many nominal classification systems there appear to be a significant percentage of nominals with an arbitrary classification There is a considerable body of literature aimed at elucidating the semantic bases of classification in such systems thereby reducing the degree of apparent arbitrariness Contributors to this volume continue this line of enquiry but also propose that arbitrariness in itself has a role from a wider socio cultural perspective Previous analyses of the discourse role of classification systems posit that they play a significant role in referential tracking For the languages surveyed in this volume contributors propose that reference instantiation is an equally significant function and indeed that reference instantiation and tracking cannot be properly divided from one another This volume provides detailed information on classification in a number of northern Australian languages whose systems are otherwise poorly known

Drawn from the Ground Jennifer Green, 2014-05-08 Provides a multimodal analysis of women's sand stories from Central Australia showing how speech sign gesture and drawing work together

An Ethnography of Stress V. Burbank, 2011-01-31 Health inequality is a

global issue This book examines the problem through an in depth look at a remote Australian Aboriginal community characterized by a degree of premature morbidity and mortality similar to that in other disadvantaged populations Its synthesis of cognitive anthropology with frameworks drawn from epidemiology evolutionary theory and social psychological and biological sciences illuminates the actions emotions and stresses of daily life While this analysis implicates structures and processes of inequality in the genesis of ill health its focus remains on the people who suffer grieve and live with the dilemmas of an intercultural life Nunggubuyu Dictionary Michael R. Hore,1990 **Oceania Linguistic Monographs**,1971 Fighting Women Victoria Katherine Burbank,2024-07-26 Fighting is common among contemporary Aboriginal women in Mangrove Australia Women fight with men and with other women often with the other woman Victoria Burbank's depiction of these women offers a powerful new perspective that can be applied to domestic violence in Western settings Noting that Aboriginal women not only talk without shame about their angry emotions but also express them in acts of aggression and defense Burbank emphasizes the positive social and cultural implications of women's refusal to be victims She explores questions of hierarchy and the expression of emotions as well as women's roles in domestic violence Human aggression can be experienced and expressed in different ways she says and is not necessarily always wrong Fighting Women is relevant to discussions of aggression and gender relations in addition to debates on the victimization of women and children everywhere This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1994 Focality and Extension in Kinship Warren Shapiro,2018-04-20 When we think of kinship we usually think of ties between people based upon blood or marriage But we also have other ways nowadays called performative of establishing kinship or hinting at kinship many Christians have in addition to parents godparents members of a trade union may refer to each other as brother or sister Similar performative ties are even more common among the so called tribal peoples that anthropologists have studied and especially in recent years they have received considerable attention from scholars in this field However these scholars tend to argue that performative kinship in the Tribal World is semantically on a par with kinship established through procreation and marriage Harold Scheffler long time Professor of Anthropology at Yale University has argued by contrast that procreative ties are everywhere semantically central i.e. focal that they provide bases from which other kinship ties are extended Most of the essays in this volume illustrate the validity of Scheffler's position though two contest it and one exemplifies the soundness of a similarly universalistic stance in gender behaviour This book will be of interest to everyone concerned with current controversy in kinship and gender studies as well as those who would know what anthropologists have to say about human nature The study of kinship once ruled the discipline of anthropology and Hal Scheffler was one of its magisterial figures This volume reminds

us why Scheffler's powerful analyses of kinship systems often conflicted with the views of his more relativist contemporaries. He cut through the fog of theory to emphasise the human essentials namely the importance of the social bonds rooted in motherhood and fatherhood. Anthropology in its decades long retreat from the serious study of kinship has lost a great deal. This volume points the way to a restoration. Peter Wood, National Association of Scholars. **Romantic Passion** William Jankowiak, William R. Jankowiak, 1997-02-13. Observers from the West the book contends have incorrectly projected rigid ethnocentric notions of love and marriage onto cultures around the world. Contributors look beyond each society's official institutions to explore expressions of love offering new perspectives on arranged marriages and polygamy and reexamining as well the other side of the equation rejection and grief.
