**Rituality and Social (Dis)Order** Alessandro Testa,2020-11-29 Carnival has been described as one of the foundational elements of European culture bearing an emblematic and iconic status as the festive phenomenon par excellence Its origins are partly obscure but its stratified and complex history rich symbolic diversity and sundry social configurations make it an exceptional object of cultural analysis The product of more than 12 years of research this book is the first comparative historical anthropology of popular European Carnival in the English language with a focus on its symbolic religious and political dimensions and transformations throughout the centuries It builds on a variety of theories of social change and social structures questioning existing assumptions about what folklore is and how cultural gaps and differences take shape and reproduce through ritual forms of collective action It also challenges recent interpretations about the performative and political dimension of European festive culture especially in its carnivalesque declension While presenting and exploring the most important features and characteristics of European pre modern Carnival and discussing its origins and developments this thorough study offers fresh evidence and up to date analyses about its transversal and long lasting significance in European societies     *Exorcising our Demons: Magic, Witchcraft and Visual Culture in Early Modern Europe* Charles Zika,2021-10-11 This collection of sixteen essays deals with the role of magic religion and witchcraft in European culture 1450 1650 and the critical role of the visual in that culture It covers the relationship of humanism and magic the intersection of religious ritual orthodoxy and power the discursive links between the visual language of witchcraft and contemporary anxieties about sexuality and savagery The introductory chapter urges us to exorcise our tendency to reduce historical experiences of the demonic to forms of unreason created in a distant past Only then can we understand the role of the demonic in our historical definition of the self and the other Richly illustrated with 112 images the book will interest historians and art historians     **The Nuremberg Schembart Carnival, by Samuel L. **Mock Kings in Medieval Society and Renaissance Drama** Sandra Billington, 1991 King led outlaw defiance riotous lords of misrule proud midsummer mock kings and stately Inns of Court princes in diverse ways all were reflections of the dominant social order in the Medieval and Tudor periods and as this book shows all influenced the writings of Shakespeare and his contemporaries Mock Kings considers kingship in the light of contemporary accounts of elected kings in outlaw and rebel groups and compares them with the phenomenon of festive mock kings The result is a complex picture of interrelation between festive and more serious opposition to the dominant order as well as the discovery of a midsummer mock king play tradition The second part of the book considers the professional theatre from the late 1580s to the mid Jacobean period and demonstrates that mock king patterns found in less literary contexts form the structure of many scripted plays The popularity of some of the minor dramas is understood for the first time when their festive patterns are identified and by contrast Shakespeare's genius in transforming inherited structures into complex works of art is thrown into relief The book shows that serious reflection on the nature of kingship was maintained throughout Renaissance drama

**Albrecht D rer in the Collection of the National Gallery of Victoria** Albrecht D rer, National Gallery of Victoria, 1994 Albrecht Durer epitomizes the Northern Renaissance and is one of the most celebrated artists of all time But despite our substantial knowledge about him he remains elusive Beginning in 1891 the National Gallery of Victoria started making acquisitions sufficiently significant to make its collections of Durer one of the most important in the world Over 150 b w plates a four page fold out color plate and essays on the artist's life 15th century life in Nuremberg during one of the great transforming periods of European history and on the book arts make this an invaluable addition to Durer literature National Gallery of Victoria

**Urban Carnival** Anu M nd, 2005 This is a significant new study of the festival culture of northern Europe in the later Middle Ages more specifically of the German speaking communities of the great cities of the eastern Baltic littoral in what was then called Livonia corresponding roughly to the territories of present day Estonia and Latvia While subject to a degree of Scandinavian

influence the festival culture of Livonian cities such as Riga Reval Tallinn and Dorpat Tartu which were members of the Hanseatic League substantially overlapped with that of other German speaking areas not least the Hanseatic cities of northern Germany The major part of the book is devoted to the main annual festivals of the merchants guilds Christmas Carnival the popinjay shoot and the May Count celebrations There follows an analysis of specific aspects of the festivals spatial contexts finances food and drink entertainments dances jousts games customs and rituals There is also a concluding glance at changes in festival culture after the Reformation The study combines close scrutiny of local customs made possible by the almost miraculous survival of uniquely detailed documentation contextualization within the wider comparative context of festival culture in late medieval Europe and an alternance to significant recent scholarship in both English and German
