Nurnberg Tribunal Der Sieger:

Democracy, Nazi Trials and Transitional Justice in Germany, 1945-1950 Devin O. Pendas, 2020-09-24 Revising our understanding about how transitional justice works this study analyses and compares Nazi trials in post war East and West Germany from 1945 to 1950 to challenge assumptions about the political outcomes of prosecuting mass atrocities *The Frankfurt Auschwitz Trial, 1963-1965* Devin O. Pendas, 2006 Drawing on a wide range of archival sources this book provides a comprehensive history of the Frankfurt Auschwitz trial *Truth Claims* Mark Bradley, Patrice Petro, 2002 Exhibiting Terror Lindsay French Genocide on Trial Donald Bloxham, 2001 When the Allies decided to try German war criminals at the end of World War II they were attempting not only to punish the guilty but also to create a record of what had happened in Europe This ground breaking new study shows how Britain and the United States went about inscribing the history of Nazi Germany and the effect their trial and occupation policies had on both long and short term memory in Germany and Britain Donald Bloxham here examines the actions and trials of German soldiers and policemen the use of legal evidence the refractory functions of the courtroom and Allied political and cultural preconceptions of both Germanism and of German criminality His evidence shows conclusively that the trials were a failure the greatest of all crimes against humanity the final solution of the Jewish question was largely written out of history in the post war era and the trials failed to transmit the breadth of German criminality Finally with reference to the historiography of the Holocaust Genocide on Trial illuminates the function of the trials in perpetuating misleading generalizations about the course of the Holocaust and the nature of Nazism

The Execution of Illegal Orders and International Criminal Responsibility Hiromi Sato, 2011-02-16 The legal consequence of the superior orders defense has long been debated as one of the major problems in international criminal law Several controversial issues such as the immunity of the state the absolute character of military discipline and immunity on the grounds of mistake of law and or coercion have been complexly interwoven in the debates *The Execution of Illegal Orders and International Criminal Responsibility* provides a comprehensive portrait of the relevant debates at the international level up to the present analyzes the conflicting views and shows the significance of the development of international rules for the superior orders defense as well as the implication of the fact that issues concerning some detailed or related rules have been left unresolved This study presents to present a new standpoint not only on dealing with the problem of the superior orders defense but also on reconsidering the international stipulation of rulemaking with regard to criminal matters Barbarossa 1941 Frank Ellis, 2018-03-15 Operation Barbarossa Hitler s plan for invading the Soviet Union has by now become a familiar tale of overreach with the Germans blinded to their coming defeat by their initial victory and the Soviet Union pushing back from the brink of destruction with courageous exploits both reckless and relentless And while much of this version of the story is true Frank Ellis tells us in *Barbarossa 1941* it also obscures several important historical truths that alter our understanding of the campaign In this new and intensive investigation of Operation Barbarossa Ellis draws on a wealth of

documents declassified over the past twenty years to challenge the conventional treatment of a critical chapter in the history of World War II Ellis's close reading of an exceptionally wide range of German and Russian sources leads to a reevaluation of Soviet intelligence assessments of Hitler's intentions Stalin's complicity in his nation's slippage into existential slaughter and the influence of the Stalinist regime's reputation for brutality and a fear of Stalin's expansionist inclinations on the launching and execution of Operation Barbarossa Ellis revisits two major controversies relating to Barbarossa the Soviet pre-emptive strike thesis put forward in Viktor Suvorov's book *Icebreaker* and the view of the infamous Commissar Order dictating the execution of a large group of Soviet POWs as a unique piece of Nazi malevolence Ellis also analyzes the treatment of Barbarossa in the work of three Soviet Russian writers Vasilii Grossman Alexander Bek and Konstantin Simonov and in the first ever translation of the diary kept by a German soldier in 20th Panzer Division brings the campaign back to the daily realities of dangers and frustrations encountered by German troops

Reassessing the Nuremberg Military Tribunals

Kim C. Priemel, Alexa Stiller, 2012-08-01 For decades the history of the US Military Tribunals at Nuremberg NMT has been eclipsed by the first Nuremberg trial the International Military Tribunal or IMT The dominant interpretation neatly summarized in the ubiquitous formula of Subsequent Trials ignores the unique historical and legal character of the NMT trials which differed significantly from that of their predecessor The NMT trials marked a decisive shift both in terms of analysis of the Third Reich and conceptualization of international criminal law This volume is the first comprehensive examination of the NMT and brings together diverse perspectives from the fields of law history and political science exploring the genesis impact and legacy of the twelve Military Tribunals held at Nuremberg between 1946 and 1949

Field Marshal Von Manstein Marcel Stein, 2007-02 Most military historians are in agreement that Feldmarschall Erich von Manstein was the most outstanding German high commander of the Second World War Many view him as the foremost exponent of large scale mobile operations in any of the Second World War armies Surprisingly no biography of him has yet been written To this day his family refuses to release the papers of his estate to the German military archives at Freiburg Furthermore the contradictions in the personality of von Manstein make it difficult to generate a synthesis On one side there is an extraordinary military talent on the other many political and moral aspects His military achievements stand in sharp contrast to his inhumane policy of occupation in Russia his active participation in the slaughter of Jews in Southern Ukraine and the Crimea and his ambivalent attitude to the military resistance movement These contradictions have led the author to describe Manstein as the Janushead the term chosen for the title of the book He has not written a traditional biography but a portrait A complete account of all phases of Manstein's career is given in one chapter seven more chapters deal extensively with milestones in Manstein's career his successful plan for the battle of France which led to the defeat of the French Army in less than one month his dereliction of duty during the battle for Stalingrad his hubris which led to the disaster of the battle for Kursk his refusal to take part in the military resistance movement his compliance with the Commissar order and his

involvement in the Holocaust the author has widened the subject well beyond the personality of its central figure It shows how the Nazi system step by step succeeded in perverting the centuries old traditions of the Prussian and German officer corps

Himmler's Diary 1945: A Calendar of Events Leading to Suicide Stephen Tyas, Peter Witte, 2014-03-24 Himmler's Diary 1945 A Calendar of Events Leading to Suicide is an exceptional work with unpublished diary entries made by Himmler that shows in detail how The Third Reich fell to ruin in its final bloody year Reichsfuhrer SS Heinrich Himmler was instigator of the largest programme of racial mass murder in history 1 January 1945 saw Heinrich Himmler at his peak in Nazi Germany controlling the entire German police force including the Gestapo all SS organisations and Nazi Minister of the Interior His powers extended into the German Army and included Commander of the Replacement Army and two Army Groups Two field commands revealed his limitations and failure as army commander Between January and May 1945 Heinrich Himmler vacillated showing a lack of vision action and decision At least he was able to gain control of V 2 rocket production and their launch against Britain He ordered all concentration camp inmates be shot before rescinding the order When his SS generals asked for instructions Himmler ordered them to show backbone as their commands had few bounds The Swedes and Swiss negotiated with Himmler who allowed over 10 000 concentration camp prisoners taken to safety before Hitler intervened Himmler conducted peace feelers via the Swedes before the German surrender in May 1945 while trying to make contact with British Field Marshal Montgomery These contacts went unanswered Himmler was captured by the British and then committed suicide on 23 May 1945

The Reparation System of the International Criminal Court Eva Dwertmann, 2010-03-02 When the Rome Statute for the International Criminal Court was adopted in 1998 one of its great innovations was that victims were granted an active role in the proceedings In its early jurisprudence on victims rights the International Criminal Court stated that the success of the Court is to some extent linked to the success of its reparation system This book is among the first to focus on the International Criminal Court's power to order reparations to victims It provides a comprehensive analysis of the legal framework of the reparation system taking into account relevant Court decisions Possibilities for its implementation are drawn up providing potential solutions for its multiple challenges including the distinct asymmetry between the individualized responsibility to provide reparations and the collective nature of the crimes and its consequences With its practical approach this book is particularly valuable for practitioners but also for students and researchers

Victors' Justice Danilo Zolo, 2020-01-28 Victors' Justice is a potent and articulate polemic against the manipulation of international penal law by the West combining historical detail juridical precision and philosophical analysis Zolo's key thesis is that contemporary international law functions as a two track system a made to measure law for the hegemony and their allies on the one hand and a punitive regime for the losers and the disadvantaged on the other Though it constantly advertised its impartiality and universalism international law served to bolster and legitimize ever since the Tokyo and Nuremberg trials a fundamentally unilateral and unequal international order

Steinke, 2012-05-25 To anyone setting out to explore the entanglement of international criminal justice with the interests of States Germany is a particularly curious exemplary case Although a liberal democracy since 1949 its political position has altered radically in the last 60 years Starting from a position of harsh scepticism in the years following the Nuremberg Trials and opening up to the rationales of international criminal justice only slowly and then mainly in the context of domestic trials against functionaries of the former East German regime after 1990 Germany is today one of the most active supporters of the International Criminal Court The climax of this is its campaigning to make the ICC independent of the UN Security Council a debate in which Germany took a position in stark contrast to the United States This book offers new insight into the debates leading up to such policy shifts Drawing on government documents and interviews with policymakers it enriches a broader debate on the politics of international criminal justice which has to date often been focused primarily on the United States

The Origins of Simultaneous Interpretation Francesca Gaiba, 1998 This book offers the first complete analysis of the emergence of simultaneous interpretation at the Nuremberg Trail and the individuals who made the process possible Francesca Gaiba offers new insight into this monumental event based on extensive archival research and interviews with interpreters who worked at the trial This work provides an overview of the specific linguistic needs of the trial and examines the recruiting of interpreters and the technical support available to them Published in English Speer Martin

Kitchen,2015-10-28 Sets the record straight on Albert Speer s assertions of ignorance of the Final Solution and claims to being the good Nazi Kirkus Reviews In his bestselling autobiography Albert Speer Minister of Armaments and chief architect of Nazi Germany repeatedly insisted he knew nothing of the genocidal crimes of Hitler s Third Reich In this revealing new biography author Martin Kitchen disputes Speer s lifelong assertions of ignorance and innocence portraying a far darker figure who was deeply implicated in the appalling crimes committed by the regime he served so well Kitchen reconstructs Speer s life with what we now know including information from valuable new sources that have come to light only in recent years The result is the first truly serious accounting of the man his beliefs and his actions during one of the darkest epochs in modern history not only countering Speer s claims of non culpability but also disputing the commonly held misconception that it was his unique genius alone that kept the German military armed and fighting long after its defeat was inevitable A devastating portrait of an empty narcissistic and compulsively ambitious personality The Wall Street Journal Kitchen s exhaustively researched detailed book nails one by one the lies of the man who provided a thick coat of whitewash to millions of old Nazis Its fascinating account of how the moral degradation of the chaotic Nazi regime corrupted an entire nation is a timely warning for today Daily Mail Book of the Month An excellent new biography Kitchen has taken a wrecking ball to Speer s mendacious and meticulously created self image And about time too History Today *After the Reich* Giles

MacDonogh,2009-02-24 The shocking history of the brutal occupation of Germany after the Second World War When the Third Reich collapsed in 1945 Germany was a nation in tatters in many places literally flattened by bombs In the ensuing occupation hundreds of thousands of women were raped Hundreds of thousands of Germans and German speakers died in the course of brutal deportations from Eastern Europe By the end of the year denied access to any foreign aid Germany was literally starving to death An astonishing 2 5 million ordinary Germans were killed in the post Reich era A shocking account of a massive and brutal military occupation After the Reich draws on an array of contemporary first person accounts of the period to offer a bold reframing of the history of World War II and its aftermath *Trials* Martha Merrill

Umphrey,2017-11-30 This volume gathers a collection of the most seminal essays written by leading experts in the fields of law and cultural studies which address the cultural dimension of trials Taken together these essays conceive of trials as sites of legal performance and as critical public spaces in which the law both encounters and interacts dialogically with the culture in which it is embedded Inquiring into the contours of that dialogic relation these essays trace the paths of cultural stories as they circulate in and through trial settings examine how trials emerge out of particular social and historical contexts and suggest ways in which trials themselves as both singular events and generic forms circulate and signify in culture
