collection of classic nursery rhymes songs games and finger plays illustrated with the works of Picasso Van Gogh Renoir and others      Storytelling Janice M. Del Negro,2021-06-24 This book serves as both a textbook and reference for faculty and students in LIS courses on storytelling and a professional guide for practicing librarians particularly youth services librarians in public and school libraries Storytelling Art and Technique serves professors students and practitioners alike as a textbook reference and professional guide It provides practical instruction and concrete examples of how to use the power of story to build literacy and presentation skills as well as to create community in those same educational spaces This text illustrates the value of storytelling covers the history of storytelling in libraries and offers valuable guidance for bringing stories to contemporary listeners with detailed instructions on the selection preparation and presentation of stories It also provides guidance around the planning and administration of a storytelling program Topics include digital storytelling open mics and slams and the neuroscience of storytelling An extensive and helpful section of resources for the storyteller is included in an expanded Part V of this edition      Making Sense of Neuroscience in the Early Years Sally Featherstone,2017-11-16

Translating research about child neuroscience into practice in education is a daunting prospect for most practitioners In fact many see it as fraught with difficulties and risky However the importance of this research has never been more important The context of the early years in the UK has seen considerable changes within recent years with a raft of government regulation and guidance and a national move to free childcare entitlement at increasingly earlier ages Combined with a mounting pressure for accountability in Closing the Gap between disadvantaged children and those more fortunate these pressures make it fundamental that those working with young children understand what neuroscience is telling us and more important what it is not Practitioners teachers managers and governors in settings and schools will not only be called to account for the attainment of their children as measured in tests but in the way children are prepared for lifelong learning which will support them for the rest of their school lives and beyond This book is a comprehensive position statement for practitioners that highlights where we are now what we know what we don't know what research developments mean for practitioners and setting and how this fits in with the government expectations within the EYFS framework Sally Featherstone covers the current thinking in educational research and neuroscience how some of this has been misinterpreted by early adopters or over enthusiastic promoters and how new information can help practitioners to be more effective in their

work with young children      *Mary Sheridan's From Birth to Five Years* Ajay Sharma, Helen Cockerill, 2014-02-03 *From Birth to Five Years* based on the pioneering work of Mary Sheridan is widely regarded as the go to reference for health education and social care professionals or anyone concerned with the developmental progress of pre school children In this new fourth edition the text has been developed to further align it with current child development philosophies and practices and to support the wider group of professionals that are now required to take steps for promoting children s development as part of their assessment and management plans This book aims to improve the clinical management of children with developmental disorders through providing the full range of developmental attainments methods of observation and advice about when to seek help Features of this completely revised edition include For students and tutors information on theoretical aspects of development with further reading suggestions and references including the most recent international studies in the field A new section on the development of attention and self regulation Contemporary case studies with guidance on when to raise concerns for students and teachers Discussion points to stimulate class debate To complement this book a new companion volume *From Birth to Five Years Practical Developmental Examination* offers a step by step how to guide including guidance on enquiry and observation how to chart typical and atypical patterns and red flags for recognising significant delay or abnormality To consolidate and expand on the practical and theoretical information across both books a new companion website is available at [www.routledge.com/cw/sharma](http://www.routledge.com/cw/sharma) which includes the following additional learning material An interactive timeline of the key developmental domains Introductions to theory with links to further reading Research summaries Video clips demonstrating practical assessment skills      **Games and Songs of American Children** William W.
