Nurses At War:

And If I Perish Evelyn Monahan, Rosemary Neidel-Greenlee, 2004-11-09 In World War II 59 000 women voluntarily risked their lives for their country as U S Army nurses When the war began some of them had so little idea of what to expect that they packed party dresses but the reality of service quickly caught up with them whether they waded through the water in the historic landings on North African and Normandy beaches or worked around the clock in hospital tents on the Italian front as bombs fell all around them For more than half a century these women s experiences remained untold almost without reference in books historical societies or military archives After years of reasearch and hundreds of hours of interviews Evelyn M Monahan and Rosemary Neidel Greenlee have created a dramatic narrative that at last brings to light the critical role that women played throughout the war From the North African and Italian Campaigns to the Liberation of France and the Conquest of Germany U S Army nurses rose to the demands of war on the frontlines with grit humor and great heroism A long overdue work of history **And If I Perish** is also a powerful tribute to these women and their inspiring legacy **Nurses**

A topical presentation of firsthand accounts from some of the thousands of army and navy nurses who served both stateside and overseas during World War II this book tells the stories of the brave women who used any and all resources to save as many lives as possible Although military nurses could have made more money as civilians thousands chose to leave the warmth and security of home to care for the young men who went off to war They were not saints but vibrant women whose performance changed the face of both military and civilian nursing Jackson s account follows both army and navy nurses

from the time they joined the military through their active service to their lives today The jobs done by military nurses were valuable and varied Some worked in clean stateside hospitals Some found themselves nursing in tents or bombed out buildings Others entered hospitals so recently occupied by Axis forces that Nazi propaganda still covered the walls While often treating ordinary accidents and illnesses they were responsible for men with wounds so disfiguring that it took all of their willpower to maintain the hopeful attitude that the men so desperately required From the humorous account of a nurse in her forties who joined the war effort despite the smirks of those much younger to the sorrow shared when men and women were separated and became prisoners of war these are the stories of women who lived under extraordinary circumstances in an amazing time women who even today bear emotional scars along with their lasting pride **Women at War** Elizabeth Norman,2010-08-03 Norman tells the dramatic story of fifty women members of the Army Navy and Air Force Nurse Corps who went to war working in military hospitals aboard ships and with air evacuation squadrons during the Vietnam War Here in a moving narrative the women talk about why they went to war the experiences they had while they were there and how war affected them physically emotionally and spiritually **Gulf War Nurses** Patricia Rushton,2014-01-10 Since the pioneering work of nineteenth century nurses such as Florence Nightingale Dorothea Dix and Clara Barton professional nurses have been involved in caring for the sick and wounded in combat situations This book contains the accounts of 14 nurses who served in the U S military nurse corps during the Persian Gulf and Iraq wars These men and women describe how they found themselves serving during wartime the soldiers they cared for the professionals they worked with and the impact they made in their patients lives These varied accounts attest to the tremendous impact this profession has on the lives of individual soldiers and the health of armies at large G.I.
