Classification Elaine K. Cook,University of Iowa. College of Nursing,2012 In 2009 the Government Accountability Office reported that 15% of federal nursing home NH recertification surveys nationwide and 25% of surveys in nine states underscored serious deficiencies in nursing care provided to 1 5 million residents residing in NHs The state nursing home survey agencies surveyors attributed the Centers for Medicare and Medicaid Services CMS administrative rules and the documents in the surveyor guidance manual as too complex and ambiguous to correctly assign deficiency severity scores In review of nursing literature it was noted that standardized nursing language can increase the clarity of complex systems The premise of this exploratory study was to determine if the standardized language of the Nursing Outcomes Classification NOC

could provide a cross linkage of the CMS rules indicators of substandard nursing care and the full guidance manual used to assign deficiency severity scores
