Nursing Its Hidden Agendas:

Nursing Moya Jolley, 1993 **Nursing** Maya Jolley, 2020-09-29 This book uncovers some of the hidden agendas which have inhibited nursing and nurses from making their full potential contribution to health care and stimulates new and positive initiatives It explores nurses behaviour patterns employing psychological educational and political perspectives

Evidence-Based Practice Liz Trinder, 2008-04-30 Evidence based practice is an idea whose time has come Few concepts can have achieved the status of unchallengeable common sense in such a short space of time and across such a broad range of professional activity As yet there have been few opportunities to take stock and reflect on the evidence for evidence based practice or the implications of its adoption How effective or feasible is it in medicine Is it really different What are the consequences of not basing practice on research Can evidence based practice be used in non clinical settings where practitioners must deal with the complexity of multi problem individuals families and organizations This text introduces the key concept of Evidence Based Practice and accounts for its emergence and rapid expansion within and beyond medicine It then goes on to describe how evidence based practice is being translated in key areas medicine nursing mental health education and social welfare while critically appraising the strengths and weaknesses of evidence based practice as it applies in a range of fields of professional practice **Power and Conflict Between Doctors and Nurses** Maureen A.

Coombs, 2004-02-24 Through observations in three intensive care units this book draws on the reality of practice to explore how nurses and doctors work in intensive care settings It examines the power held by the competing knowledge bases the roles of the different professions the decision making process the sources of conflict the need for change Drawing together sociological theories and clinical practice *Power and Conflict Between Doctors and Nurses* explores the role of nurses in delivering contemporary health care It makes a strong case for interdisciplinary working and is particularly timely when health care policy is challenging work boundaries in health care *Birthing in the Pacific* Vicki Lukere, Margaret

Jolly, 2001-11-30 This collection explores birthing in the Pacific against the background of debates about tradition and modernity A wide ranging introduction and conclusion together with case studies from Papua New Guinea New Caledonia Vanuatu Fiji and Tonga show how simple contrasts between traditional and modern practices technocratic and organic models of childbirth indigenous and foreign approaches and notions of before and after can be potent but problematic The difficulties entailed confront public health programs concerned with practical issues of infant and maternal survival in developing countries as well as scholarly analyses of birthing in cross cultural contexts The introduction analyzes central concepts and themes questions of survival safety and well being the significance of postures practices and sites the role of midwives traditional birth attendants and nurses and the role of men in birthing and reproduction Contributors four anthropologists a historian and a community health worker offer insights into the ways mothers midwives and nurses relate the traditional and the modern and how ideas of tradition and modernity have shaped representations of Pacific childbirth

The conclusion provides researchers with a guide to relevant literature from several disciplines As a whole the collection warns against either a celebration of emancipation through biomedicine or a recuperative romance about women s past powers in reproduction Contributors Ruta Fiti Sinclair Margaret Jolly Vicki Lukere Shelley Mallett Helen Morton Christine Salomon

Extending the Boundaries of Care Tamara Kohn,Rosemary McKechnie,2020-05-12 How is the concept of patient care adapting in response to rapid changes in healthcare delivery and advances in medical technology How are questions of ethical responsibility and social diversity shaping the definitions of healthcare In this topical study scholars in anthropology nursing theory law and ethics explore questions involving the changing relationship between patient care and medical ethics Contributors address issues that challenge the boundaries of patient care such as HIV related care and research the impact of new reproductive technologies preventative healthcare technological breakthroughs that are changing personal caring relationships Chapters range from a consideration of the practicalities of nursing and family healthcare to a debate about universal human needs and patients rights This book is a provocative exploration of the ways in which healthcare models are socially constructed It will be of interest to policy makers medical practitioners and administrators as well as students of sociology anthropology and social policy

La enseñanza de la enfermería** ,2006-01-18 El curr culum universitario de Enfermer a adem s de transmitir los conocimientos y habilidades necesarias para el inicio de la pr ctica profesional construye inadvertidamente una subjetividad

en las estudiantes que las lleva a aceptar las relaciones jerárquicas y de poder que subsisten hoy día en la asistencia sanitaria. Relaciones que inmovilizan a la enfermera profesional y la sitúan en un papel subordinado y disuelven y ocultan sus saberes disciplinares en la lógica hegemónica. Este es un libro de análisis y también de metodología de investigación cualitativa en el que se ofrecen las claves para el estudio etnográfico. Permite profundizar en los límites y posibilidades que la investigación etnográfica ofrece como un saber más respetuoso con la complejidad real de los procesos sociales de enseñanza y aprendizaje de la enfermería sin distorsionarlos mediante su simplificación o fragmentación y aporta orientaciones básicas a las personas interesadas en realizar investigaciones bajo este enfoque.

Core Skills for Nurse Practitioners Diane Palmer, Surrinder Kaur, 2008-04-21 In addition to clinical knowledge every senior nurse should be comfortable with the professional issues that are part of the senior nurse's role. This handbook addresses these issues in a clear and concise manner. It discusses leadership, change management and risk assessment and looks at evidence based care. The book also considers the legal and ethical implications of advanced practice and examines clinical supervision, psychological support and portfolio development.

The Newly Qualified Nurse's Handbook E-Book Bethann Siviter, 2008-02-14 This book has been prepared by professionals working in the UK. It is not a primer on clinical skills but an indispensable handbook and resource for the new nurses who are about to embark on their first job and need to develop nursing judgment and the ability to organise and deliver care. It is about learning how to think like a nurse, developing the judgment and behaviour that is essential in competent practice. With an immensely readable style, this book uses a friendly conversational manner with realistic hints, tips and examples from real life to encourage nurses in the early days of their careers. Issues such as assertiveness, delegation, CVs and interviews, leadership, developing nursing intuition are covered, as well as discussion about evidence based and reflective practice, direct entry into the community and developing confidence in practice. This book will help nurses and students develop into competent and confident practitioners. Written for newly qualified nurses by a nurse, therefore authentic. Case studies and quotes from nurses show readers that their thoughts and feelings are shared by others; this validation will reduce stress and uncertainty and give credibility. Humour and cartoons will make the text readable and fun to use. Hints, tips and practical advice will encourage the anxious graduate. Attractive 2 colour design will make the text more easily accessible.

La pedagogía del cuidado José Luis Medina Moya, 2022-07-20 El libro presenta una panorámica sobre los desarrollos históricos y recientes en la construcción de conocimiento acerca de la Pedagogía del Cuidado y del Cuidado de la Salud. Se hace una revisión teórica de los temas centrales asociados al área pedagógica y de enfermería a fin de comprender los fundamentos, las claves teóricas y prácticas de las diversas opciones relacionadas con la enseñanza universitaria de la Enfermería contemporánea evidenciando tensiones existentes y analizando sus repercusiones en los procesos de construcción de una posible Teoría Pedagógica del Cuidado. Para alcanzar ese propósito se ha descompuesto el discurso pedagógico en torno a la formación de profesionales de enfermería en tres grandes dimensiones. En primer lugar se analizan las estructuras

de racionalidad científica y pedagógica además de los supuestos que sustentan legitiman y otorgan sentido a la práctica de la enseñanza de la Enfermería Posteriormente se centra la atención en el proceso de producción selección transmisión y asimilación de competencias mediante el cual se justifica una determinada manera de entender la práctica de la Enfermería Por último se analiza la relación existente entre el discurso pedagógico y las comprensiones subjetivas de las y los estudiantes de enfermería y futuras/os profesionales En resumen contiene una serie de ideas y argumentos que pueden contribuir a un mejor conocimiento de las prácticas educativas y las relaciones establecidas entre profesoras profesionales y estudiantes que se desarrollan en las Facultades y Escuelas de Enfermería abriendo posibilidades de mejora de la formación inicial y permanente de los profesionales de enfermería
