Verny translates this research into practical advice for parents and parents to be Pre Parenting explains how even the most ordinary events can evoke a cascade of biological changes in a baby not only in the brain but also in the immune system and throughout the body Every experience from a baby s trip down the birth canal to the way she is held or spoken to can shape her health and personality An internationally recognized expert in early human development Dr Verny shows parents how to use this new information to create an ideal environment for their babies enhance their babies intelligence and social skills and become better parents through conscious parenting Insightful and encouraging Pre Parenting is an invaluable guide for parents who want to help actualize their child s full potential beginning with conception

The Birth of Hope Jeane Rhodes,2009-11-03 The Birth of Hope is the story of a baby named Hope from her conception through her birth as the child of teen parents who are in foster care at the time of her conception Hope s story is one of coming into this world through parents who in spite of their age and other challenges are very attuned to their baby throughout her gestation This story inspires new awareness of the importance of the prenatal and birth stages of life You will come to love Hope and her teen parents as you experience the momentous events of her gestation Her coming changes not only her parents but the supportive community that forms around them

Promising Practices for Family Involvement in Schools Diana Hiatt-Michael,2001-11-01 This volume will address major frameworks for understanding family involvement and government support of family involvement projects in the initial chapters The following six chapters present a theoretical base for understanding school family and community partnerships and research supporting promising practices Included within each chapter are examples of research in action focusing on specific interactive activities or programs designed to bring families and schools together Such promising practices are organized into chapters dealing with two way home school communication family literacy projects school site parent centers parent school collaborative governance and family school education programs spanning infancy through young adulthood The monograph concludes with a chapter on teacher preparation for work with family school and community partnership issues Besides their research expertise each author brings a unique background as classroom teacher parent and community social advocate to their writing Individually most of us have spent our early professional years within the classroom acquiring the value of connecting home with school for the benefit of the children As parents and grandparents we have advocated for parental interests within the school As community advocates we strive for collaborative communication across groups who serve children and their families We invite you to share our passion for working with families and community groups within our schools

Windows to the Womb David Chamberlain,2013-01-15 A pioneering birth psychologist combines a lifetime s worth of research with new findings to provide a fascinating look inside the minds of unborn children In the past the invisible physical processes of fetal development were mysterious and largely unexplainable But thanks to breakthroughs in embryology interuterine photography ultrasound and other sensitive instruments of measurement we can now make systematic observations inside the womb and can see that

fetuses are fully sentient aware beings In this new climate of appreciation for the surprising dimensions of fetal behavior sensitivity and intelligence Windows to the Womb brings a host of new information to light about the transformative journey each one of us undergoes in the womb Birth psychologist Dr David Chamberlain describes the amazing construction of our physical bodies the ultimate architecture and draws parallels with the expansion of our minds as our brains and senses develop and grow He also details new discoveries in embryonic and fetal research that support his own findings on the impact of the mother s emotional and physical state during pregnancy the importance of bonding at the earliest stages and the steps that expectant parents can take to ensure the most nurturing start in life for their children **It's Your Birth . . .**
