Bourne, 1989-12-12 Nutrient Requirements of Swine Subcommittee on Swine Nutrition, Committee on Animal Nutrition, National Research Council, 1998-04-03 The tenth edition of this essential reference presents new knowledge about the nutritional needs of swine that consider such factors as growth rate carcass leanness gender health environment and repartitioning agents New sections are presented on requirements for amino acids and other nutrients In addition an original modeling approach to arriving at energy and amino acid needs for given animals is incorporated in this revision The book comes with a CD ROM that allows users to create tables of nutrient requirements for swine of a specific body weight and level of productivity Nutrient Requirements of Swine covers Biological concepts that underlie nutrient needs for growth and function New data on amino acid and energy requirements and the factors that shape them New findings on lysine and the bioavailability of amino acids New research results on minerals and vitamins Nutrient composition of an expanded list of feedstuffs The role of water in swine physiology including factors that affect the quality of drinking water Expanded tables of feed ingredients and their nutrient composition provide bioavailability estimates fatty acid composition of fats typically used in swine diets and important information on estimating the amino acid content of crude protein **Modelling Nutrient Digestion and Utilisation in Farm Animals** D. Sauvant, J. van Milgen, P. Faverdin, N. Friggens, 2011-05-02 For more than 30 years modelling has been an important method for integrating in a flexible comprehensive and widely applicable way basic knowledge and biological concepts on digestion and metabolism in farm animals The purpose of this book is to present the state of art in this area The chapters are written by leading teams and researchers in this field of study mainly from Europe North America and Australasia Considerable progress has been

made in topics dealing with modelling methods feeding behaviour digestion and metabolic processes in ruminants and monogastric animals This progress is clearly illustrated by the emergence of a new paradigm in animal nutrition which has moved from the aim to cover the requirements of the animal to explaining and predicting the responses of the animals to diets e g productivity and efficiency impact on quality of products environmental aspects health and well being In this book several chapters illustrate that through empirical models meta analysis is an efficient tool to synthesize information gathered over recent decades In addition compared with other books on modelling farm animal nutrition two new aspects received particular attention expanding knowledge of the individual animal to understanding the functioning and management of herds and the consideration of the environmental impact of animal production This book is a valuable source of information for researchers nutritionists advisors and graduate students who want to have up to date and concise information on mathematical modelling applied to farm animals

Nutrient Requirements of Fish and Shrimp National Research Council, Division on Earth and Life Studies, Board on Agriculture and Natural Resources, Committee on the Nutrient Requirements of Fish and Shrimp, 2011-05-25 Aquaculture now supplies half of the seafood and fisheries products consumed worldwide and is gaining international significance as a source of food and income Future demands for seafood and fisheries products can only be met by expanded aquaculture production Such production will likely become more intensive and will depend increasingly on nutritious and efficient aquaculture feeds containing ingredients from sustainable sources To meet this challenge Nutrient Requirements of Fish and Shrimp provides a comprehensive summary of current knowledge about nutrient requirements of fish and shrimp and supporting nutritional science This edition incorporates new material and significant updates to information in the 1993 edition It also examines the practical aspects of feeding of fish and shrimp Nutrient Requirements of Fish and Shrimp will be a key resource for everyone involved in aquaculture and for others responsible for the feeding and care of fish and shrimp It will also aid scientists in developing new and improved approaches to satisfy the demands of the growing aquaculture industry

Nutrient Requirements of Beef Cattle Subcommittee on Beef Cattle Nutrition, Committee on Animal Nutrition, Board on Agriculture, National Research Council, 2000-05-16 As members of the public become more conscious of the food they consume and its content higher standards are expected in the preparation of such food The updated seventh edition of Nutrient Requirements of Beef Cattle explores the impact of cattle's biological production and environmental diversities as well as variations on nutrient utilization and requirements More enhanced than previous editions this edition expands on the descriptions of cattle and their nutritional requirements taking management and environmental conditions into consideration The book clearly communicates the current state of beef cattle nutrient requirements and animal variation by visually presenting related data via computer generated models Nutrient Requirements of Beef Cattle expounds on the effects of beef cattle body condition on the state of compensatory growth takes an in depth look at the variations in cattle type and documents the important effects of the environment and stress on food

intake This volume also uses new data on the development of a fetus during pregnancy to prescribe nutrient requirements of gestating cattle more precisely By focusing on factors such as product quality and environmental awareness Nutrient Requirements of Beef Cattle presents standards and advisements for acceptable nutrients in a complete and conventional manner that promotes a more practical understanding and application Feeding Ecology in Apes and Other Primates Gottfried Hohmann,Martha M. Robbins,Christophe Boesch,2006 This book presents an evolutionary perspective on feeding behaviour in human and non human primates *Physiology of Marine Mammals* Michael Castellini,Jo-Ann Mellish,2023-07-05 Suppose you were designing a marine mammal What would they need to live in the ocean How would you keep them warm What design features would allow them to dive for very long periods to extreme depths Do they need water to drink How would they minimize the cost of swimming and how would they find their prey in the deep and dark These questions and more are examined in detail throughout Marine Mammal Physiology which explores how marine mammals live in the sea from a physiological point of view This undergraduate textbook considers the essential aspects of what makes a marine mammal different from terrestrial mammals beyond just their environment It focuses on the physiological and biochemical traits that have allowed this group of mammals to effectively exploit the marine environment that is so hostile to humans The content of this book is organised around common student questions taking the undergraduate s point of view as the starting point Each chapter provides a set of PowerPoint slides for instructors to use in teaching and students to use as study guides New Study Questions and Critical Thinking Points conclude each chapter which are each motivated by a Driving Question such as How do mammals stay warm in a cold ocean or How do mammals survive the crushing pressures of the deep sea Full colour images and comprehensive accessible content make this the definitive textbook for marine mammal physiology **Introduction to Animal Science** Wilson G. Ruminant Nitrogen Usage National Research Council, Board on Agriculture, Committee on Animal Nutrition, Subcommittee on Nitrogen Usage in Ruminants, 1985-01-01 This book brings together the latest research on protein absorption by ruminants and takes a look at the calculation of optimum nutrient requirements including bacterial digestion in the calculations It also describes the parameters of nitrogen conversion in the ruminant and examines the different kinds of protein found in animal feedstuffs Animal Feed Science and Technology calls it essential for all scientists and teachers actively working in ruminant nutrition research and instruction

The Ruminant Animal D. C. Church, 1993-07-09 Excellent for its quality and in depth coverage This volume represents a compilation of important information on major topics related to nutrient requirements and nutrient metabolism among ruminants This outstanding collection facilitates the dissemination of this ever growing body of knowledge and is a valuable tool for achieving a more complete understanding of the subject An abundance of photographs diagrams and tables illustrate and reinforce the text serving to enhance student comprehension

Indirect calorimetry Walter Gerrits, Etienne Labussière, 2023-08-07 The use of indirect calorimetry to measure the heat production of men and animals has increased rapidly since the pioneering work of Lavoisier Measurement of the consumption of oxygen and production of carbon dioxide are the basis for the measurement of heat production Today applications of indirect calorimetry are available in many species Combining these measurements with accurate climate control recording of physical activity and feed intake use of stable isotopes and sophisticated modelling techniques allow scientists to make progress in various research areas This book provides a scientific basis for indirect calorimetry dealing with smart ways to design calorimeters gas measurements and computational techniques to deal with complex data Novel techniques allow the connection between short term changes in energy expenditure protein turnover and substrate oxidation e g using stable isotopes Various applications of indirect

calorimetry are addressed including heat production measurements in growing animals hatching eggs companion animals and in animals housed under heat stress conditions In addition various ways of measuring methane emissions are discussed This book is intended for scientists working or interested in calorimetry or metabolism research or people designing calorimetry systems opening their eyes for applications they did not yet think of
