Nuts And Bolts A Practical Guide To Teaching College Composition:

Nuts and Bolts Thomas Newkirk, 1993 An unabashedly practical book Nuts Bolts will be the single most useful book a college writing teacher could own Writing Groups Inside and Outside the Classroom Beverly J. Moss, Nels P. Highberg, Melissa Nicolas, 2014-04-04 This unique collection considers the nature of writing groups inside and outside the academic environment Exploring writing groups as contextual literacy events editors Beverly J Moss Nels P Highberg and Melissa Nicolas bring together contributors to document and reflect on the various types of collaborations that occur in writing groups in a wide range of settings both within and outside the academy The chapters in this volume respond to a variety of questions about writing groups including What is the impact of gender race and socioeconomic class on power dynamics in writing groups When is a writing group a community and are all writing groups communities How does the local community of a writing group impact the participation of group members in other local or global communities How does the local community of a writing group impact the participation of group members in other local or global communities What actions contribute to a strong community of writers and what actions contribute to the breakdown of community When and for whom are writing groups ineffective What is it about belonging to a community of writers that makes writing groups appealing to so many within and beyond the academy Each chapter highlights how writing groups whether or not they are labeled as such function in various spaces and locations and how collaboration works when writers from a variety of backgrounds with diverse interests come together Writing Groups Inside and Outside the Classroom illustrates that writing groups outside of the academy are worthy of study and serve as important sites of writing and literacy instruction Offering significant insights into the roles of writing groups in literacy and writing practice this volume is appropriate for scholars and teachers of writing rhetoric composition and literacy for writing center administrators and staff and for writing group participants Securing a Place for Reading in Composition Ellen C. Carillo, 2015-01-15 Securing a Place for Reading in Composition addresses the dissonance between the need to prepare students to read not just write complex texts and the lack of recent scholarship on reading writing connections Author Ellen C Carillo argues that including attention to reading practices is crucial for developing more comprehensive literacy pedagogies Students who can read actively and reflectively will be able to work successfully with the range of complex texts they will encounter throughout their post secondary academic careers and beyond Considering the role of reading within composition from both historical and contemporary perspectives Carillo makes recommendations for the productive integration of reading instruction into first year writing courses She details a mindful reading framework wherein instructors help students cultivate a repertoire of approaches upon which they consistently reflect as they apply them to various texts This metacognitive frame allows students to become knowledgeable and deliberate about how they read and gives them the opportunity to develop the skills useful for moving among reading approaches in mindful ways thus preparing them to actively and productively read in courses and contexts

outside first year composition Securing a Place for Reading in Composition also explores how the field of composition might begin to effectively address reading including conducting research on reading revising outcome statements and revisiting the core courses in graduate programs It will be of great interest to writing program administrators and other compositionists and their graduate students

Breaking Open the Box Nancy DaFoe,2013-02-21 What do David Foster Wallace s essay on wars over usage and Pico Iyer s comma personification have to do with improving students academic writing Everything For all of the attention supposedly paid to Bloom s Taxonomy with creativity at the top educators tend to shy away from encouraging students creative choices in areas where traditional analysis and the critic s style and tone have reigned While we do not want our students to write inane or empty verbiage we unintentionally set them up for this inevitability or worse The movement away from children s natural creative impulses in elementary school to a direction in which they literally fit their writing into preconfigured shapes is a gradual one Although purportedly taught to instill academic structures these boxes are also designed to facilitate the ease with which student product may be assessed We need a more creative approach to teaching writing A methodology incorporating creativity as modeled by students in this text demonstrates the kind of progress we are all seeking offering an exciting challenge for young writers and educators alike

The Promise and Perils of Writing Program Administration Theresa Enos,Shane Borrowman,2008-01-26 Combining formal quantitative research with narrative based scholarship THE PROMISE AND PERILS OF WRITING PROGRAM ADMINISTRATION represents multiple voices from faculty balancing between the demands

of teaching writing and administering writing programs in professional ethical ways often under circumstances that can be defined at best as difficult In these pages junior faculty tell their stories of triumph and trauma while more firmly established composition scholars reflect upon the changing and challenging profession we all share **I-writing** Karen Surman

Paley,2001 In this ethnographic study of the teaching of writing Karen Surman Paley reveals the social significance of first person writing and the limitations of a popular taxonomy of composition studies Paley looks critically at the way social constructionists have created an Other in the field of composition studies and named it expressivist Paley demonstrates the complexity of approaches to teaching writing through an ethnographic study of two composition faculty at Boston College a program that some would say is expressivist She prompts her colleagues to consider how family experiences shape the way students feel about and treat people of races religions genders and sexual preferences other than their own Finally she suggests to the field of composition that practitioners spend less time shoring up taxonomies of the field and more time sharing pedagogies **Reforming College Composition** Ray Wallace,Alan Jackson,Susan Lewis Wallace,2000-07-30 As

colleges and universities have responded to the demand of businesses and industries for graduates who can write effectively Composition Studies has gained significance However while new theories and approaches to the teaching of writing have been proposed and implemented many composition courses do not satisfactorily educate their students This volume includes essays by writing specialists who are concerned with their own failure to improve their students writing skills These contributors examine why entering college students still write poorly and why our various attempts to improve such poor writing skills have largely failed They compare the promise of previously touted new methods paradigm shifts and curricular innovations with the reality of little change or improvement they describe what their students can and cannot do in the writing classroom even after 12 years of primary and secondary education and they address what they see as needed reforms in the whole idea of college composition especially for the first year college student **Teaching Composition** James A.

Reinking,1998-08 **Chasing Literacy** Daniel Keller,2013-12-15 Arguing that composition should renew its interest in reading pedagogy and research Chasing Literacy offers writing instructors and literacy scholars a framework for understanding and responding to the challenges posed by the proliferation of interactive and multimodal communication technologies in the twenty first century Employing case study research of student reading practices Keller explores reading writing connections in new media contexts He identifies a culture of acceleration a gathering of social educational economic and technological forces that reinforce the values of speed efficiency and change and challenges educators to balance new faster literacies with traditional slower literacies In addition Keller details four significant features of contemporary literacy that emerged from his research accumulation and curricular choices literacy perceptions speeds of rhetoric and speeds of reading Chasing Literacy outlines a new reading pedagogy that will help students gain versatile dexterous approaches to both reading and writing and makes a significant contribution to this emerging area of interest in composition theory and
