structures that allow people to occupy social roles constitute economic value preserve bodily integrity and engage in meaningful daily practice have been blown apart After the Georgian war with Russia in 2008 Dunn spent sixteen months immersed in the everyday lives of the 28 000 people placed in thirty six resettlement camps by official and nongovernmental organizations acting in concert with the Georgian government She reached the conclusion that the humanitarian condition poses a survival problem that is not only biological but also existential In *No Path Home* she paints a moving picture of the ways in which humanitarianism leaves displaced people in limbo neither in a state of emergency nor able to act as normal citizens in the country where they reside

Writing at Russia's Borders Katya Hokanson, 2008-09-15 It is often assumed that cultural identity is determined in a country's metropolitan centres Given Russia's long tenure as a geographically and socially diverse empire however there is a certain distillation of peripheral experiences and ideas that contributes just as much to theories of national culture as do urban centred perspectives *Writing at Russia's Border* argues that Russian literature needs to be reexamined in light of the fact that many of its most important nineteenth century texts are peripheral not in significance but in provenance Katya Hokanson makes the case that the fluid and ever changing cultural and linguistic boundaries of Russia's border regions profoundly influenced the nation's literature posing challenges to stereotypical or territorially based conceptions of Russia's imperial military and cultural identity A highly canonical text such as Pushkin's *Eugene Onegin* 1831 which is set in European Russia is no less dependent on the perspectives of those living at the edges of the Russian Empire than is Tolstoy's *The Cossacks* 1863 which is explicitly set on Russia's border and has become central to the Russian canon Hokanson cites the influence of these and other peripheral texts as proof that Russia's national identity was dependent upon

the experiences of people living in the border areas of an expanding empire Produced at a cultural moment of contrast and exchange the literature of the periphery represented a negotiation of different views of Russian identity an ingredient that was ultimately essential even to literature produced in the major cities Writing at Russia's Border upends popular ideas of national cultural production and is a fascinating study of the social implications of nineteenth century Russian literature

Russian Bureaucracy and the State D. Rowney, E. Spies and Scholars Gregory Afinogenov, 2020-04-14 Gregory Afinogenov explores centuries of Russian spying and scholarship on the Far East He argues that the approaches the empire took are closely related to its leaders perception of Russia's place in the world Espionage gave way to public facing academic study as Russia sought to outdo Britain in a global contest for imperial prestige

Iran and the Challenge of Diversity Ailreza Asgharzadeh, 2007-06-11 This interrogates the racist construction of Aryanism in an Iranian context arguing that these concepts gave the Indo European speaking Persian ethnic group an advantage over Iran's non Persian nationalities and communities

Law and the Russian State William E. Pomeranz, 2018-12-27 Russia is often portrayed as a regressive even lawless country and yet the Russian state has played a major role in shaping and experimenting with law as an instrument of power In Law and the Russian State William E Pomeranz examines Russia's legal evolution from Peter the Great to Vladimir Putin addressing the continuities and disruptions of Russian law during the imperial Soviet and post Soviet The book covers key themes including Law and empire Law and modernization The politicization of law The role of intellectuals and dissidents in mobilizing the law The evolution of Russian legal institutions The struggle for human rights The rule of law The quest to establish the law based state It also analyzes legal culture and how Russians understand and use the law With a detailed bibliography this is an important text for anyone seeking a sophisticated understanding of how Russian society and the Russian state have developed in the last 350 years

The Heritage of Soviet Oriental Studies Michael Kemper, Stephan Conermann, 2011-02 The Western field of oriental studies and orientalism criticised by Edward Said among others for encouraging the orient to be viewed in a particular way has a counterpart in Russia and the Soviet Union

This book examines this Russian Soviet intellectual tradition of oriental scholarship covering Islamic history and Muslim literatures of the USSR republics of Central Asia and the Caucasus Antisemitism and Islamophobia in Europe James Renton, Ben Gidley, 2017-04-05 This is the first book to examine the relationship between European antisemitism and Islamophobia from the Crusades until the twenty first century in the principal flashpoints of the two racisms With case studies ranging from the Balkans to the UK the contributors take the debate away from politicised polemics about whether or not Muslims are the new Jews Much previous scholarship and public discussion has focused on comparing European ideas about Jews and Judaism in the past with contemporary attitudes towards Muslims and Islam This volume rejects this approach Instead it interrogates how the dynamic relationship between antisemitism and Islamophobia has evolved over time and space The result is the uncovering of a previously unknown story in which European ideas about Jews and Muslims were indeed connected but were also ripped apart Religion empire nation building and war all played their part in the complex evolution of this relationship As well as a study of prejudice this book also opens up a new area of inquiry how Muslims Jews and others have responded to these historically connected racisms The volume brings together leading scholars in the emerging field of antisemitism Islamophobia studies who work in a diverse range of disciplines anthropology history sociology critical theory and literature Together they help us to understand a Europe in which Jews and Arabs were once called Semites and today are widely thought to be on two different sides of the War on Terror **Peace Journeys** Ian S.
