

Found Poem:

There was a change
For the worse.
The air became humid
Beads of moisture ran down
The handle of his shovel
It was almost as if
The air itself was sweating
Thunder echoed across the empty lake
A storm beyond the mountains.
Thirty seconds between the flash
And the thunder
Sound travels a great distance
Across a barren wasteland

J. Pace, 2009-11-01 This unique book presents lessons a straight principal turned professor has learned through personal experience and research with gay and lesbian high school students It begins with a young principal acknowledging that he nor his administrative education program had given any thought to issues surrounding students sexual orientation However when a senior in his tiny rural high school came out the principal started down an unexpected path that would change his outlook on school leadership and transform his practice Presented in eight unique stories in students own words we experience their challenges fears and triumphs and see how their

schools and the people in them both helped and hurt Through their poignant honest familiar and often surprising stories we see how these eight students navigate what Unks 2003 p 323 calls the most homophobic institutions in American society Their stories also reveal an unexpected yet vital lesson for educators policy makers and all those concerned with meeting students needs that being gay or lesbian in high school does not automatically lead to bad outcomes The students firsthand accounts along with lessons learned by the once apprehensive principal show that there is a much more positive optimistic and seldom told story The book challenges practicing and aspiring school leaders to Move beyond what we think we know about gay and lesbian students and see them as unique people with strengths and struggles gifts and challenges Examine the unique context of their schools and see how one size solution doesn t fit all Understand agency agendas and how gay straight alliances can benefit all students Summon the courage to transform our mission statements from slogans and live them everyday

One Hundred Frogs Hiroaki Sato,1995-05-02 No other Asian poetic form has so intrigued and beguiled the English speaking world as the Japanese haiku Even before World War I such imagist poets as Ezra Pound Amy Lowell and John Gould Fletcher were experimenting with the form At that time Pound well described the haiku as an intellectual and emotional complex in an instant of time Indeed it is the haiku s sense of immediacy and its precision that continue to appeal to poets and poetry lovers today In recent decades there has been an upsurge of interest in the haiku leading to a number of critical studies of the form studies that have now culminated in the present book This insightful work not only considers the haiku itself but also the

extremely important yet often ignored renga or linked verse form out of which the haiku grew No deep understanding of the haiku is possible without familiarity with the renga One Hundred Frogs begins with a detailed history and description of the renga and haiku Many renowned Japanese poets most notably Basho are represented in the wealth of translated poetry that illustrates the text To bring this history up to date a discussion of modern Japanese and Western haiku is included Next the author discusses the craft of translating renga and haiku and explores recent developments in the two forms offering a representative selection of modern works To reveal the myriad choices open to translators of renga and haiku the author provides an in depth analysis of one of Japan s most famous haiku Basho s poem about a frog in a pond and presents a compilation of over one hundred translations and variations of the poem The book closes with short anthologies of English language renga and haiku by contemporary Western poets that offer a tantalizing glimpse of the diversity of expression possible with these two forms An instructive celebration of the renga and haiku this volume furnishes a new perspective on the work of some of Japan s outstanding poets of old and lays a foundation for the appreciation of the renga and haiku that are being written today

The Last of an Age Sooyong Kim, 2017-12-01 In *The Last of an Age* Sooyong Kim explores the relationship between social change and the development of an Ottoman literary canon in the course of the sixteenth century by examining the work and reception of a popular poet Zati 1471-1546 Kim argues that a newly emergent group of bureaucratic literati through the production of authoritative biographical dictionaries ultimately relegated Zati to a lesser literary age driven by a self-fashioning that privileged broad linguistic ability above all else with poetry serving as the main vehicle for demonstrating that This study is interdisciplinary in approach taking insights from literary studies cultural history and social theory It adds to the scholarship on the rise of early modern Ottoman canons in the fields of visual arts and music and complements recent work on court patronage Framed by ongoing critiques of canon formation among specialists of early modern Europe and late imperial China the study offers a comparative perspective on those issues
