**The Origin of the Chinese People (Classic Reprint)**  
Camille and Henry Dreyfus Professor of Chemistry John Ross, Sir, John Ross, 2017-09-12 Excerpt from The Origin of the Chinese People Of the condition called civilization there may be endless varieties Whatever raises a set of human beings above the life of the birds and beasts is a degree of civilization From the savage life there are many degrees before we arrive at the highest form of Christian life And these degrees may not inconceivably differ from each other Manners customs government literature religion are all involved in civilization These forms may differ in different countries Minds of a parochial type can perceive only one sort Of civilization that of their own parish One such mind whose civilization consists mainly in military order calls another a barbarian because it refuses to be ridden by him the other calls the military type barbarian because he seeks to ride on him Both are civilized but the civilization of each is incomplete The civilization of even the foremost nations Of the west has not yet attained the ideal It is not difficult to imagine a world every man and woman in which shall be the equal of the best who has ever appeared and possess talents as notable as the greatest of the past It is conceivable that the world shall rise to a civilization as superior to the present as the present at its best is above the Middle Ages Though the Chinese are denied the possession of a civilization on the same plane as that of the west yet their form of civilization manifested in their social institutions is worthy of serious attention An acquaintance with that civilization is all the more desirable when we consider that China has entered on a new phase of life which cannot fail to exert a profound influence on the future of humanity If her civilization differs little from that of her neighbours it is because neighbours have imperfectly borrowed hers who has borrowed from no one This independence adds a further element of interest to the study About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
