Moazami, 2013-11-07 Two basic assumptions have shaped understanding of recent Iranian history One is that Shi'ism is an integral part of Iran's religious and cultural landscape The other is that the ulama religious scholars have always played a crucial role This book challenges these assumptions and constructs a new synthesis of the history of state and religion in Iran from 1796 to the present while

challenging existing theories of large scale political transformation Arguing that the 1979 revolution has not ended Behrooz Moazami relates political and religious transformations in Iran to the larger instability of the Middle East region and concludes that turmoil will continue until a new regional configuration evolves

Literature of the Early Twentieth Century: From the Constitutional Period to Reza Shah A. A. Seyed-Gohrab, 2015-07-22 The eleventh volume in this ground breaking series pays special attention to politically engaged poetry written during a turbulent period which saw the Constitutional Revolution in Iran as well as the rise to power of Reza Shah and his attempts to implement reform Throughout this time poets began to turn their attention towards the country s ordinary people rather than concentrate on its elites This volume also examines the prose fiction of the period which saw the rise of the novel and short story Additionally Persian satire began to grow in importance especially with the increased popularity of poets and novelists such as Iraj Mirza and Sadeq Hedayat This wide ranging volume is an invaluable companion for anyone who wants to understand how the Persian literary scene changed at the beginning of the twentieth century reflecting the social and political contexts in which this literature was created
