Ornamental Ironwork Two Centuries Of Craftsmanship In Albany And Troy New York:

Ornamental Ironwork Diana S. Waite,1990-01-01 *Golden Age of Ironwork* Henry Jonas Magaziner,2000-10-13 Covers ironwork from roughly 1840 to 1930 Thus it includes cast iron which prevailed during the nineteenth century and hand wrought iron which triumphed from about 1900 to 1930 [The Maintenance and Repair of Architectural Cast Iron](#) John G. Waite,1991 *Ornamental Ironwork* Michael Southworth,Susan Southworth,1992 This book on the history and technology of architectural ironwork aims to impart an understanding of the myriad of forms and uses to which ironwork has been put In addition the book describes techniques for restoring and preserving ornamental ironwork Also shown are many of the traditional patterns and design motifs which can be used as tracings for contemporary design **Cast Iron Architecture In America** Margot Gayle,Carol Gayle,1998-01-06 The first book on the life and work of 19th century American inventor and entrepreneur James Bogardus known for his unique grinding mill and other patented devices However his enduring claim to fame is his cast iron structures forerunners of the modern skyscraper Modern interest in Bogardus stems from the historic preservation movement His four surviving buildings in New York are recognized landmarks Illustrated *Horsing Around* W. Douglas McCombs,2008-01-01 Overview of cast iron hitching posts designed and manufactured in the nineteenth century **A Neat Plain Modern Stile** Mary Raddant Tomlan,1993 *The Architecture of Downtown Troy* Diana S. Waite,2019-09-01 Tells the forgotten but surprising stories of the many handsome and significant buildings in downtown Troy New York Located about 150 miles north of Manhattan on the east bank of the Hudson River the city of Troy New York was once an industrial giant It led the nation in iron production throughout much of the nineteenth century and its factories turned out bells and cast iron stoves that were sold the world over Its population was both enterprising and civic minded Along with Troy s economic success came the public commercial educational residential and religious buildings to prove it Stores banks churches firehouses and schools both modest and sophisticated sprouted up in the latest architectural styles creating a lively and fashionable downtown Row houses and brownstones for the middle class and the wealthy rivaled those in Brooklyn and Manhattan By the mid twentieth century however Troy had dwindled in both prominence and population Downtown stagnated leaving building facades and interiors untouched often for decades A late blooming urban renewal program demolished many blocks of buildings but preservationists fought back Today reinvestment is accelerating and Troy now boasts what the New York Times has called one of the most perfectly preserved nineteenth century downtowns in the United States This book tells the stories behind the many handsome and significant buildings in downtown Troy and how they were designed and constructed stories that have never been pulled together before For the first time in generations scores of Troy buildings are again linked with their architects some local but others from out of town the starchitects of their day and even from Europe In addition to numerous historic images the book also includes contemporary photographs by local photographer Gary Gold This book will inform delight and surprise readers thereby helping to build an educated constituency

for the preservation of an important American city Diana Waite has labored long to bring us the architectural history of Troy which is said to have one of the most perfectly preserved downtowns in the United States Great architects designed some of the city's impressive buildings Richard Upjohn Leopold Eidlitz Marcus T Reynolds but so did architects fairly early in their careers such as George B Post who did the iconic Flatiron Hall building on First Street and the very visible Troy Savings Bank Music Hall The book is also a wistful tour of the lost past truly magnificent structures and sumptuous interiors that fell to the wrecking ball And here are the stories behind major landmarks such as the Approach staircase up to RPI or down to Troy the struggle to raise a monument at the center of the city to Troy's fallen soldiers from three wars and the complex installation of six major Tiffany windows in St Paul's Episcopal Church The book is abundantly illustrated with maps and written in lively narrative style Ms Waite often quotes newspaper accounts of construction as it was happening which vivifies her history William Kennedy Urban economist Edward L Glaeser proclaims cities the triumph of humanity both the ultimate expression of human culture and the engine that has propelled human progress In this insightful and beautifully illustrated book Diana Waite tells the story of one exceptional mostly nineteenth century example Troy New York Troy is a rare gem largely unspoiled by the forces that turned so many of America's towns into wastelands of asphalt As architects planners and policymakers struggle to define a twenty first century world that kicks the habits of our fossil fuel addicted modernity that rediscovers how to make places for people that builds strong communities studying places like Troy takes on entirely new relevance The Architecture of Downtown Troy paints a picture of the evolution of a historic town that provides valuable lessons for building the world of tomorrow Carl Elefante 2018 President The American Institute of Architects Diana Waite's history of Troy's downtown buildings describes the importance and diversity of this city's distinctive architecture Her clear narrative of Troy's nineteenth century growth fires early twentieth century expansion and its engagement of nationally recognized architects is excellent and supported by voluminous photographs Troy is fortunate that twentieth century urban renewal occurred in a corner of the central business district leaving intact so much of the city's well designed commercial educational and residential buildings This new book presents an accurate readable and cohesive history of Troy It is a must read Matthew Bender IV The pleasure of Troy isn't discovering a single old building but finding yourself lost among dozens of them You may feel as if it were 1880 and you were strolling home to Washington Park perhaps just for a change of collar New York Times *The Encyclopedia of New York State* Peter Eisenstadt, 2005-05-19 The Encyclopedia of New York State is one of the most complete works on the Empire State to be published in a half century In nearly 2 000 pages and 4 000 signed entries this single volume captures the impressive complexity of New York State as a historic crossroads of people and ideas as a cradle of abolitionism and feminism and as an apex of modern urban suburban and rural life The Encyclopedia is packed with fascinating details from fields ranging from sociology and geography to history Did you know that Manhattan's Lower East Side was once the most populated neighborhood in the world but Hamilton County in the Adirondacks is the least

densely populated county east of the Mississippi New York is the only state to border both the Great Lakes and the Atlantic Ocean the Erie Canal opened New York City to rich farmland upstate and to the west Entries by experts chronicle New York s varied areas politics and persuasions with a cornucopia of subjects from environmentalism to higher education to railroads weaving the state s diverse regions and peoples into one idea of New York State Lavishly illustrated with 500 photographs and figures 120 maps and 140 tables the Encyclopedia is key to understanding the state s past present and future It is a crucial reference for students teachers historians and business people for New Yorkers of all persuasions and for anyone interested in finding out more about New York State
