A. Schmidt, 2017-07 This voluminous work on Church History by Philip Schaff 1819 1893 was originally published between 1858 and 1893 in eight volumes in the USA and covers the period from the beginnings of Biblical Christianity in A D 1 to the History of the Reformation in Germany and Switzerland 1517 1648 Being still a popular text in North America this work had been out of print for over a century and has now been carefully edited and reformatted for republication in three volumes each of them containing the text of two volumes of the original edition Schaff's work unlike other works in the field covers a multitude of church history related aspects from church doctrine policy events and processes to aspects of social moral and family life arts and more It is a very comprehensive text extremely well written and readable rich in material and sources used and attests to the excellence of protestant German theological scholarship under the influence of emerging Historical Critical Biblical Exegesis at his time This second volume covers the period from the Nicene and Post Nicene Fathers to Medieval Christianity A D 311 1073 **Ghana's New Christianity, New Edition** Paul Gifford, 2004-07-15 A sober firsthand look at evangelical Christian churches in Accra Ghana *Deification in Eastern Orthodox Theology* Emil Bartos, 2007-01-01 In recent years Eastern Orthodox thought has had an increasing influence on key aspects of contemporary Western Christian thought particularly as regards the doctrine of the Trinity and mystical spirituality However the foundations and fundamental presuppositions of Eastern Christianity's theological system have remained largely unstudied and thus unknown in the West In this important study Emil Bartos examines the doctrine of

deification which provides the conceptual basis for the way Staniloae and other Orthodox theologians understand the major doctrines of the Christian faith. The idea that God became man that man might become God sounds almost heretical to many Western ears yet this affirmation is repeated countless times in the writings of the Eastern Fathers. Beginning with the apophaticism that lies at the heart of Eastern theology, Bartos examines each of the key doctrines of anthropology, christology, soteriology and ecclesiology as they relate to deification in Staniloae's thought. Bartos' study represents not merely a contribution to contemporary dialogue between Eastern and Western theologians but also a much needed introduction to an aspect of Christian thought down the centuries that is largely neglected in the Christian West.

The Condition and Prospects of the Greek Or Oriental Church ... New Edition, Revised George Waddington (Dean of Durham.), 1854

The Thought of Pope Benedict XVI new edition Aidan Nichols, 2007-07-26 Aidan Nichols' timely book is the first full scale investigation of Joseph Ratzinger's theology from the 1950s to the present day. It presents a chronological account of the development of Ratzinger's writing that reflects a wide range of historical and theoretical interests. A comprehensive introduction to a figure who is in his own right quite apart from his significance in the politics of the Church, a major German Catholic theologian of the twentieth century. This new edition amplifies existing chapters by reference to books by Ratzinger between 1986-1987 and his election as Pope in 2005 and includes two new chapters: Judaism, Islam and other religions and the secularization and future of Europe.

A History of the Orthodox Church of Cyprus from the Coming of the Apostles Paul and Barnabas to the Commencement of the British Occupation (A. D. 45-A. D. 1878) Together with Some Account of the Latin and Other Churches Existing in the Island John Hackett, 1901

Innovation in the Orthodox Christian Tradition? Trine Stauning Willert, Lina Molokotos-Liederman, 2016-05-23 The relationship between tradition and innovation in Orthodox Christianity has often been problematic, filled with tensions and contradictions starting from the Byzantine era and running through the 19th and 20th centuries. For a long period of time scholars have typically assumed Greek Orthodoxy to be a static religious tradition with little room for renewal or change. Although this public perception continues, the immutability of the Greek Orthodox tradition has been questioned by several scholars over the past few years. This book continues this line of reasoning but brings it into the centre of contemporary discussion. Presenting case studies from different periods of history up to the present day, the authors trace different aspects in the development of innovation and renewal in Orthodox Christianity in the Greek speaking world and among the Diaspora.

International Handbook of Inter-religious Education Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value. The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights, justice and peace. Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic

pursuit of economic and political gain and call their followers to compassion for every human being. It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding. An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community. Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893. This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity.

The Community of Believers Lucinda Mosher, David Marshall, 2015-05-06. The Community of Believers offers the proceedings of the 2013 Building Bridges seminar, a dialogue between leading Christian and Muslim scholars under the stewardship of Georgetown University. These essays consider such themes as the Church as mystical body of Christ versus the Church as proclamation, the roots and uses of the term *ummah* and its development over time, Christian desires for communion, experiences of division and approaches to unity, the history of Muslim disunity, twentieth-century Christian ecclesiology and its responses to a post-Christendom and post-Christian world, and the Arab Spring as a case study for contemplating accommodationism, conservatism, reformism, and fundamentalism, as Muslim strategies to address the pressures of modernism. The volume also includes texts and commentaries used in the seminar's discussions of each topic and a concluding essay summarizing the tone, content, and style of participant exchanges throughout the seminar.

Catholic Sexual Morality Robert L. Fastiggi, 2018-01-04. Many people today believe that the traditional Catholic view of sex is antiquated, unrealistic, and potentially harmful. In *Catholic Sexual Morality*, Dr. Robert Fastiggi asks whether the permissive sexual attitude of today's culture is really contributing to deeper love, better relationships, and true happiness for men, women, children, and families. He begins with the example of St. Augustine, who recognized he was a slave to lust and in need of true freedom. Fastiggi then examines the foundations for Catholic sexual morality in Scripture, reason, and human experience. The hope is that people will realize that the Catholic Church is not against sex but sees sexual intimacy as something so beautiful and life-giving that it requires the stability of marriage for its true and rightful expression. Catholic Sexual Morality is grounded in the belief that the church's teachings on sex correspond to God's plan for human happiness. These teachings are challenging, and the church understands how easy it is to fail in sexual matters. God's mercy, however, is more powerful than human weakness and sin. This book explains the reasons why the Catholic Church teaches as she does on matters such as pornography, masturbation, fornication, adultery, contraception, divorce, and homosexual acts. It presents these teachings in a realistic way with full recognition of the reasons why people reject them. The ultimate desire is to help people understand that Catholic sexual morality is not a creation of church leaders but a response to what God has made known to

us in Sacred Scripture and the natural law In a world filled with infidelity divorce wounded children and broken hearts the wisdom of traditional Catholic sexual morality deserves a more sympathetic view not just because it is Catholic but because it is true

Re-Writing Jesus: Christ in 20th-Century Fiction and Film Graham Holderness,2014-11-20 At the heart of Christian theology lies a paradox unintelligible to other religions and to secular humanism that in the person of Jesus God became man and suffered on the cross to effect humanity s salvation In his dual nature as mortal and divinity and unlike the impassable God of other monotheisms Christ thus became accessible to artistic representation Hence the figure of Jesus has haunted and compelled the imagination of artists and writers for 2 000 years This was never more so than in the 20th Century in a supposedly secular age when the Jesus of popular fiction and film became perhaps more familiar than the Christ of the New Testament In *Re Writing Jesus Christ in 20th Century Fiction and Film* Graham Holderness explores how writers and film makers have sought to recreate Christ in work as diverse as Anthony Burgess s *Man of Nazareth* and Jim Crace s *Quarantine* to Martin Scorsese s *The Last Temptation of Christ* and Mel Gibson s *Passion of the Christ* These works are set within a longer and broader history of Jesus novels and Jesus films a lineage traced back to Ernest Renan and George Moore and explored both for their reflections of contemporary Christological debates and their positive contributions to Christian theology In its final chapter the book draws on the insights of this tradition of Christological representation to creatively construct a new life of Christ an original work of theological fiction that both subsumes the history of the form and offers a startlingly new perspective on the biography of Christ
