analyzes how American painters sculptors and writers active between 1800 and 1865 depicted their response to a democratic society that failed to adequately support them financially and intellectually Without the traditional European forms of patronage from the church or the crown American artists faced unsympathetic countrymen who were unaccustomed to playing the role of patron and less than generous in rewarding creativity It was in this unrewarding landscape that American artists in the first half of the nineteenth century employed the struggling or starving artist image to satirize the country s lack of patronage and immortalize their own struggles Through an examination of artists journals letters and biographies as well as the development of art academies and exhibition venues this study traces the evolution of a young nation that went from considering artists as mere craftsmen to recognizing them as important members of a civilized society Porter's Curious World Laura Fecych Sprague, Justin Wolff, 2019 An examination of Rufus Porter an enigmatic but astonishingly productive American artist inventor and publisher Presents his life and work in the context of the cultural social and technological networks that shaped innovation and democracy during the antebellum era **American Painting and** Its Tradition John C. A History of American Painting Matthew Baigell,1974 **Painting America's Portrait** James C. Thompson,2017-10-07 Painting America's Portrait How Illustrators Created America is the second book in the Painting

America s Portrait series In the first James Thompson uses over 300 illustrations to show how America s artist admen and storytellers capitalized on three decades of advances in corporate advertising and image reproduction technology to create highly dramatic and colorful images Their business during these notorious decades was to sell products with pictures By 1914 they were better and more successful than ever Their success notwithstanding their Golden Age ended with the Great War Mr Thompson begins his sequel with an account of the war prior to America's entry in April 1917 Among the first acts of America's wartime President was to create a Committee of Public Information to manage public opinion and build public support for the nation s new mission The committee s chairman George Creel recruited the most celebrated illustrator of the day Charles Dana Gibson to draw his colleagues into the enterprise With Gibson's help hundreds of illustrators became producers of propaganda art Thompson explains that America's artist pitchmen had three tasks 1 recruit young men and women in the service of their country 2 build public support for the war effort and 3 record the heroism of our boys over there Thompson uses dozens of wartime posters to show how Gibson's legionnaires accomplished their first two assignments He uses a gripping collection of works from the National Archives and other repositories to show how the artists of the American Expeditionary Force completed their difficult mission Uncle Sam's talented artists were instrumental in winning the war to end all wars While doing their unique jobs they created an enduring image They showed the peoples who lived in the land of the free and the home of the brave that they were Americans Painting America's Portrait How Illustrators Created America is planned for release on the 100th anniversary of the declaration of war on Germany 6 April 1917 It will be a uniquely fitting tribute to the American men and women who won it The History of American Painting Samuel Isham, 1914 A Short History of Painting in America Edgar Preston Richardson, 1963
