1967 Annual Supplement John B. Simeone, Alfred de Grazia, Carl E. Martinson, 2013-12-01 **People Get Ready!** Christine Berry, Joe Guinan, 2019-05-01 Jeremy Corbyn's Labour stands on the brink of power promising a fundamental reordering of British politics But what in practice will this entail How can a radical government stand up to an establishment that is hostile to any significant redistribution of wealth and power **People Get Ready** dives into the nitty gritty of what's needed to bring about transformative change Unlike a decade ago the left's problem is no longer a shortage of big ideas Inside and outside the Labour Party an agenda for new forms of public and community ownership is taking shape Today the biggest danger facing the left is lack of preparedness the absence of strategies that can make these ideas a reality **People Get Ready** draws on previous attempts at radical change from the election of Labour at the end of the Second World War and the progressive early days of Mitterrand's presidency in France to Tony Benn's battles with Harold Wilson and Margaret Thatcher's icy insistence that there was no alternative to free markets These stories highlight the importance of knowing your allies and even more your enemies of being ready to deal with sabotage and resistance from the highest levels of being bold enough to transform the structures of government and of having a mass movement that can both support the leadership and hold it to its radical programme when the going gets tough Remarkably democratic socialism in Britain is closer to government than in any other European country The responsibilities this brings for those supporting the Corbyn project are as great as the opportunities it presents But there isn't much time to get ready **Critical Review of the Abe**
