Domestic Democracy Jennifer Fish, 2005-11-16 This study examines the dialectic relationship between social inequality and change in the newly democratic South Africa through the lens of paid domestic labor The complexities of this institution provide an in depth analysis of the tension between the race and gender priorities of South Africa's new democracy and the lived realities of the majority of its population Because paid domestic work remains the largest sector of employment for women in South Africa it

is critical to situating the scope of social change in this emergent democracy This book presents the first comprehensive study of paid domestic labor since South Africa's 1994 post apartheid transition Drawing upon 85 interviews with domestic workers employers Parliamentarians community activists and organizational leaders this research offers diverse perspectives on the race class and gender divides that remain integral to social relations in the context of national transition In contrast this study also details women's collective agency through the exploration of a critical social policy change shaped by the activism of a new union of domestic workers Drawing upon extensive fieldwork this book demonstrates that transformation of social relations remains one of the greatest obstacles to engendering democracy in South Africa **Generation X**

Professors Speak Elwood Watson, 2013-03-22 While the Baby Boomer generation has consistently commanded widespread attention both scholarly and popular little has been written about Generation X the 46 million Americans born between the mid 1960s and late 1970s But with Baby Boomers now moving into retirement members of Generation X have come to the forefront of American society Consequently understanding Generation X and the potential impact of the independent sometimes rebellious spirit that characterizes it is critical In *Generation X Professors Speak* Voices from Academia Elwood Watson has assembled a unique collection of thematically arranged essays by academics that offers insights into the issues conflicts and triumphs that epitomize this often overlooked generation One essayist writes about her determination to achieve her career goals without sacrificing time with her family while another speaks about being a stay at home dad and teaching part time at a university Another essay covers disabilities depression and mental illness pointing to the sympathetic approach Gen Xers tend to take toward individuals often marginalized by society The acceptance of interracial marriage on the part of members of Generation X is engagingly presented by an ivy league educated white man married to a woman of African descent And the role religion plays in the lives of Gen Xers is movingly expressed by an essayist whose commitment to his spiritual faith have allowed him to combat racial social family personal and academic issues These and the other essays in this collection passionately and sometime provocatively cover topics ranging from career class family life health music and physical disabilities to race religion and sexuality Together the essays define the characteristics and demonstrate the diversity of Generation X and will appeal to scholars students and others interested in social history psychology gender studies and popular culture **Lillian Carter** Grant Hayter-Menzies, 2014-12-15
