*A Brief History of an English Literature: An Augustan Age* Rakesh Rathod (MA English), 2019-01-01 The eighteenth century in English literature has been called the Augustan Age the Neoclassical Age and the Age of Reason The term the Augustan Age comes from the self conscious imitation of the original Augustan writers Virgil and Horace by many of the writers of the period Specifically the Augustan Age was the period after the Restoration era to the death of Alexander Pope 1690 1744 The major writers of the age were Pope and John Dryden in poetry and Jonathan Swift and Joseph Addison in prose Dryden forms the link between Restoration and Augustan literature although he wrote ribald comedies in the Restoration vein his verse satires were highly admired by the generation of poets who followed him and his writings on literature were very much in a neoclassical spirit I particularly aimed at interpretation of sociopolitical milieu of Augustan Age of social change of literary tendencies of the age and of prose novel poetry and drama of the Augustan Age

**Ancient Urban Planning in the Mediterranean** Samantha L. Martin-McAuliffe, Daniel M. Millette, 2017-12-06 New Directions in Urban Planning in the Ancient Mediterranean assembles the most up to date research on the design and construction of ancient cities in the wider Mediterranean In particular this edited collection reappraises and sheds light on lost Classical plans Whether intentional or not each ancient plan has the capacity to embody specific messages linked to such notions as heritage and identity Over millennia cities may be divested of their buildings and monuments and can experience periods of dramatic rebuilding but their plans often have the capacity to endure As such this volume focuses on Greek and Roman grid traces both literal and figurative This rich selection of innovative studies explores the ways that urban plans can assimilate into the collective memory of cities and smaller settlements In doing so it also highlights how collective memory adapts to or is altered by the introduction of re aligned plans and newly constructed monuments

*Western Historiography in Asia* Q. Edward Wang, Okamoto Michihiro, Longguo Li, 2022-02-21 This volume provides a unique and critical perspective on how Chinese Japanese and Korean scholars engage

and critique the West in their historical thinking It showcases the dialogue between Asian experts and their Euro American counterparts and offers valuable insights on how to challenge and overcome Eurocentrism in historical writing Gentile Christian Identity from Cornelius to Constantine Terence L. Donaldson,2020-11-05 Originally an ascribed identity that cast non Jewish Christ believers as an ethnic other gentile soon evolved into a much more complex aspect of early Christian identity Gentile Christian Identity from Cornelius to Constantine is a full historical account of this trajectory showing how in the context of the parting of the ways the early church increasingly identified itself as a distinctly gentile and anti Judaic entity even as it also crafted itself as an alternative to the cosmopolitan project of the Roman Empire This process of identity construction shaped Christianity s legacy paradoxically establishing it as both a counter empire and a mimicker of Rome s imperial ideology Drawing on social identity theory and ethnography Terence Donaldson offers an analysis of gentile Christianity that is thorough and highly relevant to today s discourses surrounding identity ethnicity and Christian Jewish relations As Donaldson shows a full understanding of the term gentile is key to understanding the modern Western world and the church as we know it **Advances in the History of Rhetoric** Richard Leo Enos,David Beard,2007-12-15 Advances in the History of Rhetoric The First Six Years is a comprehensive collection of 29 scholarly essays published during the first phase of the journal s history Research from prominent and developing scholars that was once difficult to acquire is now offered in a coherent and comprehensive collection that is complemented by a detailed index and unified bibliography This collection covers a range of periods and topics in the history of rhetoric including Greek and Roman rhetoric rhetoric and religion women in the history of rhetoric rhetoric and science Renaissance and British rhetorical theory rhetoric and culture and the development of American rhetoric and composition The editors Richard Leo Enos and David E Beard provide a preface and afterword that synthesize the mission and meaning of this work for students and scholars of the history of rhetoric **Contested Ethnicities and Images** David L. Balch,2015-04-28 Ethnic values changed as Imperial Rome expanded challenging ethnocentric values in Rome itself as well as in Greece and Judea Rhetorically Roman Greek and Judean writers who eulogized their cities all claimed they would receive foreigners Further Greco Roman narratives of urban tensions between rich and poor proud and humble promoted reconciliation and fellowship between social classes Luke wrote Acts in this ethnic economic political context narrating Jesus as a founder who changed laws to encourage receiving foreigners which promoted civic missionary growth and legitimated interests of the poor and humble David L Balch relates Roman art to early Christianity and introduces famous pre Roman Corinthian artists He shows women visually represented as priests compares Dionysian and Corinthian charismatic speech and argues that larger assemblies of the earliest Pauline believers sat 1 Cor 14 30 in taverns Also the author demonstrates that the image of a pregnant woman in Revelation 12 subverts imperial claims to the divine origin of the emperor before finally suggesting that visual representations by Roman domestic artists of a category of women who upset expected forms of conduct Bergmann encouraged early Christian women

like Thecla Perpetua and Felicitas to move beyond gender stereotypes of being victims Balch concludes with two book reviews one of Nicolas Wiaters book on the Greek biographer and historian Dionysius who was a model for both Josephus and Luke Acts the second of a book by Frederick Brenk on Hellenistic philosophy and mystery religion in relation to earliest Christianity

**The Oxford History of Western Art** Martin Kemp, 2000 The Oxford History of Western Art is the new authority on the development of visual culture in the West over the last 2700 years from the classical period to the end of the twentieth century OHWA is an innovative and challenging reappraisal of how the history of art can be presented and understood None of the currently available general histories of art offers the wealth of perspectives and cross media references of this book Through a carefully devised modular structure readers are given insights not only into how and why works of art were created but also how works in different media relate to each other across time Here uniquely is not the simple linear story of art but a rich series of stories told from varying viewpoints The founding principle of the book has been to use carefully selected groupings of pictures to give readers a sense of the visual texture of the various periods and episodes covered The 167 illustration groups supported by explanatory text and picture captions create a sequence of visual tours not merely a procession of individually great works viewed in isolation but juxtapositions of significant images that powerfully convey a sense of the visual environments in which works of art need to be viewed in order to be understood and appreciated The aim throughout has been to make the shape and nature of these visual presentations a stimulating and rewarding experience allowing readers to become active participants in the process of interpretation and synthesis Another key feature of the narrative is the redefinition of traditional period boundaries Rather than relying on conventional labels such as Medieval Renaissance Baroque etc five major phases of significant historical change are established that unlock longer and more meaningful continuities The art of classical antiquity from c 600 BC to the fall of Rome in AD 410 The establishment of visual culture in Europe from 410 to 1527 the sack of papal Rome European visual regimes from 1527 to 1770 The era of revolutions 1770 to 1914 Modernism and after 1914 to 2000 This new framework shows how the major religious and secular functions of art have been forged sustained transformed revived and revolutionized over the ages how the institutions of Church and State have consistently aspired to make art in their own image and how the rise of art history itself has come to provide the dominant conceptual framework within which artists create patrons patronize collectors collect galleries exhibit dealers deal and art historians write The text has been written by a team of 50 specialist authors

working under the direction of Professor Martin Kemp one of the UK's most distinguished art historians. Whilst bringing their own expertise and vision to their sections each author was also asked to relate their text to a number of unifying themes and issues including written evidence physical contexts patronage viewing and reception techniques gender and racial issues centres and peripheries media and condition the notion of art and current presentations. Though the coverage of topics focuses on European notions of art and their transplantation and transformation in North America space is also given to cross fertilizations with other traditions including the art of Latin America the Soviet Union India Africa and Afro Caribbean Australia and Canada. Professor Kemp and his team similarly deal generously with the applied arts and reproductive media such as photography and prints. The result is a vibrant vigorous and revolutionary account of Western art serving both as an inspirational introduction for the general reader and an authoritative source of reference and guidance for students.

**Common Property, the Golden Age, and Empire in Acts 2:42-47 and 4:32-35** Joshua Noble, 2020-10-15 Joshua Noble focuses on the rapid appearance and disappearance in Acts 2 and 4 of the motif that early believers hold all their property in common and argues that these descriptions function as allusions to the Golden Age myth. Noble suggests Luke's claims that the believers had all things in common and that no one claimed private ownership of any possessions a motif that does not appear in any biblical source rather calls to mind Greek and Roman traditions that the earliest humans lived in utopian conditions when no one possessed any private property but all things were common. By analyzing sources from Greek Latin Jewish and Christian traditions and reading Acts 2:42-47 and 4:32-35 as Golden Age allusions Noble illustrates how Luke's use of the motif of common property is significant for understanding his attitude toward the Roman Empire. Noble suggests that Luke's appeal to this myth accomplishes two things: it characterizes the coming of the Spirit as marking the beginning of a new age the start of a universal restoration that will find its completion at the Second Coming of Christ and it creates a contrast between Christ who has actually brought about this restoration and the emperors of Rome who were serially credited with inaugurating a new Golden Age.

**Women in the Classical World** Elaine Fantham, Helene Peet Foley, Natalie Boymel Kampen, Sarah B. Pomeroy, H. A. Shapiro, 1995-03-30 Information about women is scattered throughout the fragmented mosaic of ancient history: the vivid poetry of Sappho survived antiquity on remnants of damaged papyrus; the inscription on a beautiful fourth century B.C.E. grave praises the virtues of Mnesarete an Athenian woman who died young; a great number of Roman wives were found guilty of poisoning their husbands but was it accidental food poisoning or disease or something more sinister? Apart from the legends of Cleopatra Dido and Lucretia and images of graceful maidens dancing on urns the evidence about the lives of women of the classical world visual archaeological and written has remained uncollected and uninterpreted. Now the lavishly illustrated and meticulously researched *Women in the Classical World* lifts the curtain on the women of ancient Greece and Rome exploring the lives of slaves and prostitutes Athenian housewives and Rome's imperial family. The first book on classical women to give equal weight to written texts and artistic representations it

brings together a great wealth of materials poetry vase painting legislation medical treatises architecture religious and funerary art women's ornaments historical epics political speeches even ancient coins to present women in the historical and cultural context of their time Written by leading experts in the fields of ancient history and art history women's studies and Greek and Roman literature the book's chronological arrangement allows the changing roles of women to unfold over a thousand year period beginning in the eighth century B C E Both the art and the literature highlight women's creativity sexuality and coming of age marriage and childrearing religious and public roles and other themes Fascinating chapters report on the wild behavior of Spartan and Etruscan women and the mythical Amazons the changing views of the female body presented in male authored gynecological treatises the new woman represented by the love poetry of the late Republic and Augustan Age and the traces of upper and lower class life in Pompeii miraculously preserved by the eruption of Mount Vesuvius in 79 C E Provocative and surprising *Women in the Classical World* is a masterly foray into the past and a definitive statement on the lives of women in ancient Greece and Rome

**Power, Image, and Memory** Peter J. Holliday, 2024 Power Image and Memory examines how leaders and societies have used works of art commemorating historical events to shape collective memory Through iconic artworks over centuries and across the globe it explores the power of art to affirm cultural identities and thereby mold social groups and nations

*Ritual, Women, and Philippi* Jason T. Lamoreaux, 2013-10-30 As one surveys the scholarship on the canonical letter to the Philippians one notices the lack of attention to women within many scholars analyses To a certain extent this lack of attention

exists because ancient texts often leave out information about women Using ritual studies archaeology and textual evidence this work brings life to the ritual lives of ancient Philippiian women in their own cultural context The discipline of ritual studies provides new questions that shed more specific light on the lives of women in this fledgling Jesus group Therefore ritual studies brings clarity to early Philippiian women s reception of the letter Furthermore this ritual background helps modern readers visualize a more diverse community of Jesus followers in Philippi and provides a clearer picture of the struggles this nascent Jesus community was experiencing

**The Alternative Augustan Age** Josiah Osgood,Kit Morrell,Kathryn Welch,2019-09-02 The princeps Augustus 63 BCE 14 CE recognized as the first of the Roman emperors looms large in the teaching and writing of Roman history Major political literary and artistic developments alike are attributed to him This book deliberately and provocatively shifts the focus off Augustus while still looking at events of his time Contributors uncover the perspectives and contributions of a range of individuals other than the princeps Not all thought they were living in the Augustan Age Not all took their cues from Augustus In their self display or ideas for reform some anticipated Augustus Others found ways to oppose him that also helped to shape the future of their community The volume challenges the very idea of an Augustan Age by breaking down traditional turning points and showing the continuous experimentation and development of these years to be in continuity with earlier Roman culture In showcasing absences of Augustus and giving other figures their due the papers here make a seemingly familiar period startlingly new [The Roman Empire](#) Colin Michael Wells,1995 This sweeping history of the Roman Empire from 44 BC to AD 235 has three purposes to describe what was happening in the central administration and in the entourage of the emperor to indicate how life went on in Italy and the provinces in the towns in the countryside and in the army camps and to show how these two different worlds impinged on each other Colin Wells s vivid account is now available in an up to date second edition **The Romans and**

**Their World** Brian Campbell,2020-10-07 A concise and accessible account of one of the largest longest lasting and most influential empires in world history ancient Rome This one volume history of the Roman world begins with the early years of the republic and carries the story nearly a thousand years forward to 476 when Romulus Augustus the last Western Roman emperor was deposed Brian Campbell respected scholar and teacher presents a fascinating and wide ranging introduction to Rome drawing on an array of ancient sources and covering topics of interest to readers with little prior background in Roman history as well as those already familiar with the great civilization Campbell explores several themes including the fall of the republic the impact of colorful and diverse emperors on imperial politics the administrative structure of empire and the Roman army and how warfare affected the Roman world He also surveys cultural and social life including religion and the rise of Christianity Generously enhanced with maps and illustrations this book is a rich and inspiring account of a mighty civilization and the citizens who made it so A lucid survey of Roman history Adam Kirsch New Yorker One of the great joys of Campbell s unfailingly readable account is the readiness with which it returns to the Roman record drawing on ancient

sources to give a lively and immediate feel for Roman life and culture Michael Kerrigan Scotsman Campbell masterfully discusses military affairs as expected from this scholar Excellent translations of ancient sources enliven the text Rare will be the scholar who also does not learn from Campbell P B Harvey Jr Choice     *Behold the Man* Colleen Conway, 2008-05-07 In this book Colleen Conway looks at the construction of masculinity in New Testament depictions of Jesus She argues that the New Testament writers necessarily engaged the predominant gender ideology of the Roman Empire whether consciously or unconsciously Although the notion of what constituted ideal masculinity in Greek and Roman cultures certainly pre dated the Roman Empire the emergence of the Principate concentrated this gender ideology on the figure of the emperor Indeed critical to the success of the empire was the portrayal of the emperor as the ideal man and the Roman citizen as one who aspired to be the same Any person who was held up alongside the emperor as another source of authority would be assessed in terms of the cultural values represented in this Roman image of the manly man Conway examines a variety of ancient ideas of masculinity as found in philosophical discourses medical treatises imperial documents and ancient inscriptions Manliness in these accounts was achieved through self control over passions such as lust anger and greed It was also gained through manly displays of courage the endurance of pain and death on behalf of others With these texts as a starting point Conway shows how the New Testament writings approach Jesus gender identity From Paul s early letters to the Gospels and Acts to the book of Revelation Christian writings in the Bible confront the potentially emasculating scandal of the cross and affirm Jesus as ideally masculine Conway s study touches on such themes as the relationship between divinity and masculinity the role of the body in relation to gender identity and belief in Jesus as a means of achieving a more ideal form of masculinity This impeccably researched and highly readable book reveals the importance of ancient gender ideology for the interpretation of Christian texts
