AN INTRODUCTION TO
CHRISTIAN ARCHITECTURE AND WORSHIP

JEANNE HALGREN KILDE

Power Of Sacred Space

Keith Anderson

Power Of Sacred Space:

Sacred Power, Sacred Space Jeanne Halgren Kilde, 2008-07-21 Jeanne Halgren Kilde's survey of church architecture is unlike any other. Her main concern is not the buildings themselves but rather the dynamic character of Christianity and how church buildings shape and influence the religion. Kilde argues that a primary function of church buildings is to represent and reify three different types of power: divine power or ideas about God, personal empowerment as manifested in the individual's perceived relationship to the divine, and social power meaning the relationships between groups such as clergy and laity. Each type intersects with notions of Christian creed, cult, and code and is represented spatially and materially in church buildings. Kilde explores these categories chronologically from the early church to the twentieth century. She considers the form, organization, and use of worship rooms, the location of churches, and the interaction between churches and the wider culture. Church buildings have been integral to Christianity, and Kilde's important study sheds new light on the way they impact all aspects of the religion. Neither mere witnesses to transformations of religious thought or nor simple backgrounds for religious practice, church buildings are in Kilde's view dynamic participants in religious change and goldmines of information on Christianity itself.

Cinema and Secularism Mark Cauchi, 2023-12-14 Cinema and Secularism is the first collection to make the relationship between cinema and secularism thematic utilizing a number of different methodological approaches to examine their identification and differentiation across film theory film aesthetics film history and throughout global cinema The emergence of moving images and the history of cinema historically coincide with the emergence of secularism as a concept and discourse More than historically coinciding however cinema and secularism would seem to have and many contemporary theorists and critics seem to assume a more intrinsic almost ontological connection to each other While early film theorists and critics explicitly addressed questions about secularism religion and cinema once the study of film was professionalized and secularized in the Western academy in both film studies and religious studies explicit and critical attention to the relationship between cinema and secularism rapidly declined Indeed if one canvases film scholarship today one will find barely any works dedicated to thinking critically about the relationship between cinema and secularism Extending the recent secular turn in the humanities and social sciences Cinema and Secularism provokes critical reflection on its titular concepts Making contributions to theory philosophy criticism and history the chapters in this pioneering volume collectively interrogate the assumption that cinema is secular how secularism is conceived and related to cinema differently in different film cultures and whether the world is disenchanted or enchanted in cinema Coming from intellectually diverse backgrounds in film studies religious studies and philosophy the interdisciplinary contributors to this book cover films and traditions of thought from America Europe Africa the Middle East South Asia and East Asia In these ways Cinema and Secularism opens new areas of inquiry in the study of film and contributes to the ongoing interrogation of secularism more broadly

Uncertain Refuge Elizabeth Allen,2021-10-22 To seek sanctuary from persecution by entering a sacred space is an act of desperation but also a symbolic endeavor fugitives invoke divine presence to reach a precarious safe haven that imbues their lives with religious social or political significance In medieval England sanctuary was upheld under both canon and common law and up to five hundred people sought sanctuary every year What they found however was not so much a static refuge as a temporary respite from further action confession and exile or from further violence jurisdictional conflict harrying or starvation a breaching of the sanctuary While sanctuary has usually been analyzed as part of legal history in *Uncertain Refuge* Elizabeth Allen explores the symbolic consequences of sanctuary seeking in English literary works miracle collections chronicles romances and drama She ponders the miracle of a stag s escape from the hunt into a churchyard as well as the account of a fallen political favorite who gains a sort of charisma as he takes sanctuary three times in succession the figure of Sir Gawain seeking refuge in a stark land far from the court and Robin Hood hiding in his local forest refuge among his Merry Men Her consideration of medieval sanctuary extends to its resonances in a seventeenth century play about the early Tudor usurper Perkin Warbeck and even into modern America with the case of a breach of sanctuary in southwest Georgia in 1963 when sheriffs took over a voter registration meeting in a local church *Uncertain Refuge* illuminates a fantasy of protection and its impermanence that animated late medieval literary culture and one that remains poignantly alive if no longer written into law in today s troubled political world

Medellín:
environment urbanism society Michel Hermelin Arboux,Alejandro Echeverri Restrepo,Jorge Giraldo,2012-01-01 In recent

times what has become known as the case of Medellín has generated a growing interest in the international community. These urban transformations that Medellín has experimented have become a focus of attention and reference for experts in many fields around the world. The book *Medellin Environment Urbanism and Society* that now published the Center for Urban and Environmental Studies of EAFIT University is a testimony of the value given by our culture to the accomplishments of the city to the idea of the public sphere and the growing relationship between the technical sphere and the political sphere understood in the broad sense as a form of disciplinary knowledge and construction of civil society. This book brings together a knowledge of the city from multiple perspectives, knowledge that is without any doubt impressive for its extension and profundity as well as for its capacity to combine objective data with conceptual reflections about the scope and impact of the different perspectives concerning the theme of urban transformation and the different actors that have participated in such processes. The book weaves a broad net over the city its history and development adopting a multidisciplinary vision. I think that this will be the first step in creating a speech that might finally liberate itself from the strict disciplinary boundaries building a transdisciplinary perspective that can amplify the urban dimension of the city. This is the beginning of a profound and complex reflection that is at the same time a project of knowledge and an instrument of action and participation.

Finding Sanctuary in Nature Jim PathFinder Ewing, 2007-05-01. These spiritual lessons are based on Native American shamanism but fit a wide range of interests from yoga and alternative medicine to Bible study and nature hiking. Hands on exercises step by step instructions for ceremonies and sketches by the author's wife explain how to clear spaces of unwanted energy, create simple ceremonies, connect with spirit guides and angels and interpret symbols. An extended discussion tells how to make a medicine wheel that resembles a labyrinth and use it as an engine for distance healing. Additional ceremonies for daily living, healing the earth and soul retrieval are also described and the spiritual quest itself is shown to follow the process of choosing a sacred place in nature, finding a sacred place within oneself and connecting to the inner and outer worlds. Readers are encouraged to keep a notebook about their spiritual growth and refer to the key words and suggestions for internet research that are included.
