Power Or Authority The Entelechy Of Power:

Power Or Authority? A. Khoshkish, 1991-09-12 Recent studies of power have become increasingly quantitative and normative and have shifted the focus of inquiry away from the examination of power itself Without discarding those studies this book reinjects the phenomenological dimension into them It explores the realities of power beyond measuring rods and emphasizes the distinctiveness of power in relation to law and authority Contents Introduction Domination Drive Types of Power Relationships The Nature of the Product of Power Relationships Sources of Power Coefficients of Power Spheres of Power Resistants of Power From Power to Law and Authority Conclusion Selected Bibliography Index *The Philosophical Review* Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 1924 An international journal of general philosophy **Whitaker's Books in Print**, 1998 **The return of Christ**, International Philosophical Quarterly, 1961 □□□□□□□□, 1992 **Subject Guide to Books in Print**, 1997 **Spiritual Authority and Temporal Power in the Indian Theory of Government** Ananda Kentish Coomaraswamy, 1993 A literary work built up with parallel citations is apt to grow in the compass of the author himself from his encyclopaedic scholarship This revised edition of one of Coomaraswamy's most significant writings is now being issued by incorporating his own additions to the printed first edition of 1942 The Indian theory of government is expounded on the basis of the textual sources mainly of the Brahmanas and the Rgveda The mantra in the Aitareya Brahmana viii 27 by which the Priest addresses the King spells out the relation between the spiritual and the temporal power This marriage formula has its analogous applications in the cosmic political family and individual spheres of operation in each by the conjunction of complementary agencies The welfare of the community in each case depends upon a succession of obediences and loyalties that of the subjects to the dual control of King and Priest that of the King to the Priest and that of all to the principle of an External Law Dharma as King of Kings The King is such by Divine Right but by no means an absolute monarch He may do only what is correct under the Law Self control is the sine qua non for the successful government of others the primary victory is that of the Inner Man The application is to the King the man of action and artist in any domain whatever There is nothing that can be truly and well done or made except by the man in whom the marriage of the Sacerdotium brahma and the Regnum ksatra has been consummated nor can any peace be made except by those who have made their peace with themselves This is the fifth volume in the series of Indira Gandhi National Centre for the Arts programme of reprinting the Collected Works of A K Coomaraswamy *Myth and Archive* Roberto González Echevarría, 1998 Discusses the theory of the origin and evolution of the Latin American narrative and the emergence of the modern novel **What Is Life? Scientific Approaches And Philosophical Positions** Hans-peter Durr, Fritz Albert Popp, Wolfram Schommers, 2002-08-15 The book of Erwin Schrödinger about life evokes a variety of basic questions concerning the understanding of life in terms of modern physics rather than biochemistry Problems of organization and regulation of biological systems cannot be understood by revealing only the chemical processes of the living state A

group of reputable physicists among them the followers of Heisenberg and Fr hlich and biologists came to this same conclusion through several workshops on this topic This book contains their contributions written from different viewpoints of theoretical physics and modern biology These articles are valuable not only for understanding life but also for creating new and non invasive diagnostic and therapeutic tools in medicine they also contribute importantly to a deeper understanding of evolutionary processes including the development of consciousness

Shari'a Councils and Muslim Women in Britain Tanya Walker,2016-10-11 The public debate on Shari a councils in Britain has been heavily influenced by the assumption that the councils exist as religious authorities and that those who use them exercise their right to religious freedom In Shari a Councils and Muslim Women in Britain Tanya Walker draws on extensive fieldwork from over 100 cases to argue for a radically different understanding of the setting and dynamics of the Shari a councils The analysis highlights the pragmatic manoeuvrings of Muslim women in pursuit of defined objectives within limited space holding in tension both the constraints of particular frameworks of power and the realities of women s agency Despite this needed nuance in a polarised debate however important questions about the rights of Muslim women remain

Pentagonism, a Substitute for Imperialism Juan Bosch,1968 Dr Juan Bosch former President of the Dominican Republic documents the frightening and potentially disastrous new phase that American imperialism has entered a phase which he calls pentagonism The old imperialism exploitation of raw materials and of colonies has been replaced by a new kind of imperialism the pentagonist mother country exploits her own people in order to insure the aims of an economy permanently geared to war The people are exploited as a source of labor and of taxes which in turn assure that men and war material will be wasted in an endless cycle which profits only the military industrial complex Dr Bosch ruthlessly examines United States policy in Vietnam Cuba and the Dominican Republic he discusses pentagonism s methods of justifying its actions to the American people and he documents the takeover of American industry by military interests

Aquinas as Authority Harm J. M. J. Goris,2002 There is no doubt that Thomas Aquinas together with Augustine is among the most influential authorities in the history of

Western Christian theology Through the centuries theologians and philosophers have interpreted Aquinas and re constructed his thought in various ways As a result of this a very rich variety of theological and philosophical positions have appeared that claim to be inspired by the thought of Thomas Aquinas Positions like these are often labelled as a form of Thomism Although this can be helpful in bringing some order into the history of thought there is also a deceptive side to it Any classification runs the risk of obscuring the multiplicity of interests that have inspired the use of Aquinas as authority On closer investigation many questions arise What aims did Aquinas recipients have in mind and how did an appeal to Aquinas function in their attempts to reach these aims To what extent has their adoption of Aquinas ideas and approaches been successful or unsuccessful in answering new questions and in meeting the problems of their times And finally what can we learn from these divergent forms of Thomism To these questions the Thomas Institute at Utrecht devoted its second conference which was held from Thursday December 14 to Saturday December 16 2000 This book collects a selection of the studies that were presented

Forthcoming Books Rose Arny,1992-10 **Philosophical Essays** Gottfried Wilhelm Freiherr von Leibniz,1989-01-01 Features Leibniz s writings including letters published papers and fragments on a variety of philosophical religious mathematical and scientific questions *Cultural Centrality and Political Change in Chinese History* Roger V. Des Forges,2003 The Ming period of Chinese history is often depicted as one of cultural aridity political despotism and social stasis Recent studies have shown that the arts continued to flourish government remained effective people enjoyed considerable mobility and China served as a center of the global economy This study goes further to argue that China s perennial quest for cultural centrality resulted in periodic political changes that permitted the Chinese people to retain control over social and economic developments The study focuses on two and a half million people in three prefectures of northeast Henan the central province in the heart of the central plain a common synecdoche for China The author argues that this population may have been more representative of the Chinese people at large than were the residents of more prosperous regions Many diverse individuals in northeast Henan invoked historical models to deal with the present and shape the future Though they differed in the lessons they drew they shared the view that the Han dynasty was particularly relevant to their own time Han and Ming politics were integral parts of a pattern of Chinese historical development that has lasted to the present

GLOBALIZATION AT THE BEGINNING OF THE 21st CENTURY José María Franquet Bernis,2021-04-23 Globalization as the dominant force that it is in the last decade of the 20th century and the beginning of the 21st has shaped a new era in the interaction between nations economies and peoples But it has also fragmented production processes labor markets political entities and societies At the supranational level there is no political and regulatory counterweight to monitor this process and correct in a fair and equitable way the dangerous abuses that may derive from it The logic of the global economy is deeply contradictory It is based on the bases of speed risk

creativity but also on impunity in the international order since there are no mechanisms to regulate and control the collective interests of humanity But above all this logic is installed on the principle of the insecurity of people particularly those in poor countries and sectors Production is transferred from high wage countries to those with low wages without entailing benefits for those countries speculation is carried out in the financial market without considering the dangerous consequences except for capital itself cultural and consumption patterns are disrupted and irreversible damage occurs to the ecological base of the planet without concern for future generations
