describe the sometimes haphazard piece by piece construction of the nation's health care system from the early efforts of Franklin Roosevelt and Harry Truman to the later additions of Ronald Reagan and George W Bush. In each case they examine the factors that led to success or failure often by illuminating little known political maneuvers that brought about immense shifts in policy or thwarted herculean efforts at reform. The authors look at key moments in health care history: the Hill Burton Act in 1946 in which one determined poverty lawyer secured the rights of the uninsured poor to get hospital care; the three layer cake strategy of powerful House Ways and Means Committee Chairman Wilbur Mills to enact Medicare and Medicaid under Lyndon Johnson in 1965; the odd story of how Medicare catastrophic insurance was passed by Ronald Reagan in 1988 and then repealed because of public anger in 1989; and the fact that the largest and most expensive expansion of Medicare was enacted by George W Bush in 2003. President Barack Obama is the protagonist in the climactic chapter learning from the successes and failures chronicled throughout the narrative. The authors relate how in the midst of a worldwide financial meltdown Obama overcame seemingly impossible obstacles to accomplish what other presidents had tried and failed to achieve for nearly one hundred years.

Health Care System Transformation for Nursing and Health Care Leaders Anne Boykin, Savina O'Bryan Schoenhofer, Kathleen Louise Valentine, 2013-09-10

The authors approach to creating a transforming culture through use of foundations laid in the theoretical development of Nursing As Caring offers a solid foundation upon which to recalibrate and reconfigure toward a caring organizational health system. Tim Porter O Grady DM EdD APRN FAAN FACCWS Associate Professor Leadership Scholar College of Nursing and Healthcare Innovation Arizona State University Clinical Professor Leadership Scholar College of Nursing The Ohio State University. This is a time tested practical guide for nurses and other healthcare professionals who wish to transform their healthcare systems based on caring values and the promotion of intra and inter professional dialogue among stakeholders. It describes a theoretically grounded model created by nurses for transforming the culture of healthcare systems at all levels and features tested strategies that facilitate accessibility, efficiency, effectiveness and enhanced outcomes. At its most basic level, this model, the Dance of Caring Persons, expresses the fundamental beliefs and attitudes that each person in the healthcare system lives caring meaningfully in unique and valuable ways and the contributions of each person to the whole of the enterprise have a significant place within it. The book features successful examples of how various units of the healthcare system can apply specific strategies to their inter and intra professional work and how to engage and sustain authentic dialogue among and between stakeholders. Chapters feature information from a great variety of health professionals that represent a broad range of participants in healthcare. Detailed information is presented in a variety of formats ranging from formal written responses to chapter contents to transcriptions of small group conversations relating to the topic at hand. The book reflects the interests of such major stakeholders as patients and families, nurses, physicians and other primary and adjunctive care providers, ancillary service providers, administrators and managers and all other individuals involved in the many aspects of organizational

models and delivery of health care and human resource functions and outcomes Each chapter includes questions to consider and suggested resources to help with implementation of strategies The text incorporates professional standards and essentials from the Joint Commission ANCC and AACN DNP Key Features Presents a theoretically grounded proven caring based model for healthcare system change for all stakeholders across the continuum of care Provides practical strategies for transformation in all aspects of a healthcare system applicable across the range of health services Describes how healthcare system change happens who initiates it and how to sustain it through caring science Includes success stories from patients and their families nurses physicians ancillary service providers healthcare administrators and others Promotes inter and intra professional dialogue and collaboration

Politics, Power and Policy Making Mark E. Rushefsky, Kant Patel, 1998-03-24 Tracking the issue of healthcare reform through the tumultuous 1990s Politics Power and Policy Making opens a window on the changing dynamics of American politics from the Clinton inauguration in January 1993 through the Republican revolution of 1995 and the 1996 elections The book brings the legislative process to life by following a single controversial issue through the system effectively linking public policy studies with the study of American political institutions In the classroom this book transcends the limitations of a bill becomes a law affording students a more complex perspective on the domestic policy making process in action power politics and the role of interest groups the media and public opinion the impact of elections and the apparent shift of policy initiative from the executive to congress in November 1994 the dynamics of federalism and the devolution revolution how real is it the persistence of divided government and gridlock is this what Americans really want
