*The Future of Asian Feminisms* Nursyahbani Katjasungkana, Saskia E. Wieringa, 2011-10-18 This book on the future of Asian feminisms confronting fundamentalisms conflicts and neo liberalism is a critical contribution to the rising voices of Asian women's studies scholars and activists It is based on the ongoing research and advocacy work of the Kartini Asia Network founded in 2003 in Manila The five overlapping themes of the network are women gender studies fundamentalisms conflicts livelihood and sexuality Considering that the economic and political weight of the region is growing fast and that the 21st century has been named the Asian century Asia is increasingly recognised as the continent to which economic if not political power will shift in the coming decades The chapters brought together in this volume demonstrate the great diversity of the transversal cultural flow that women's movements within Asia provide Members of the Kartini network stimulate the articulation of a particular Asian voice in women's studies and in the global women's movement Considering the existing patriarchal structures all over the continent a continuum of oppressions unfolds from the global sphere of market exchange to emerging fundamentalisms and to bitter conflicts and struggles around sexualities The present volume provides elements for the critical dialogues that are needed between women in the region between women and men between people in all sorts of strategic positions and between theoreticians in the Global South and the Global North to create a world in which human dignity is not eroded by predatory economic processes and in which democracy diversity pluralism and inclusivity are the

guiding principles of governance      **Manhood Acts** Michael Schwalbe, 2015-11-17 In *Manhood Acts* Michael Schwalbe offers a new perspective on the social construction of manhood and its relationship to male domination. Schwalbe argues that study of masculinity has lost touch with its feminist roots and has been seduced by the politically safe notion of multiple masculinities. *Manhood Acts* delineates the practices males use to construct women and men as unequal categories. Schwalbe reclaims the radical feminist insights that gender is a field of domination not a field of play and that manhood is fundamentally about exerting or resisting control. *Manhood Acts* arrives at the conclusion that abolishing gender as a system of oppression will require more than transgressive self presentation. It will be necessary to end the exploitive economic relationships that necessitate manhood itself      **Marxist Humanism and Communication Theory** Christian Fuchs, 2021-03-16 This book outlines and contributes to the foundations of Marxist humanist communication theory. It analyses the role of communication in capitalist society. Engaging with the works of critical thinkers such as Erich Fromm, E. P. Thompson, Raymond Williams, Henri Lefebvre, Georg Lukács, Lucien Goldmann, G. N. Anders, M. N. Roy, Angela Davis, C. L. R. James, Rosa Luxemburg, Eve Mitchell, and Cedric J. Robinson, the book provides readings of works that inform our understanding of how to critically theorise communication in society. The topics covered include the relationship of capitalism, racism, and patriarchy; communication and alienation; the base superstructure problem; the question of how one should best define communication; the political economy of communication; ideology critique; the connection of communication and struggles for alternatives. Written for a broad audience of students and scholars interested in contemporary critical theory, this book will be useful for courses in media and communication studies, cultural studies, Internet research, sociology, philosophy, political science, and economics. This is the first of five *Communication and Society* volumes, each one outlining a particular aspect of the foundations of a critical theory of communication in society      **Ludic Feminism and After** Teresa L. Ebert, 1996 A provocative and controversial challenge to postmodern academic feminism      **Black Convicts** Santilla Chingaipe, 2024-10-30 Longlisted for the 2025 Stella Prize Readings Best Books of 2024 Non Fiction The story of Australia's Black convicts has been all but erased from our history. In recovering their lives, Santilla Chingaipe offers a fresh understanding of this fatal shore, showing how empire, slavery, race, and memory have shaped our nation. The defining read of the decade. This is a work of global significance. Meanjin On the First Fleet of 1788 at least 15 convicts were of African descent. By 1840 the number had risen to almost 500. Among them were David Stuurman, a revered South African chief transported for anti colonial insurrection; John Caesar, who became Australia's first bushranger; Billy Blue, the stylishly dressed ferryman who gave his name to Sydney's Blues Point; and William Cuffay, a prominent London Chartist who led the development of Australia's labour movement. Two of the youngest were cousins from Mauritius, girls aged just 9 and 12, sentenced over a failed attempt to poison their mistress. But although some of these lives were documented and their likenesses hang in places like the National Portrait Gallery, even their descendants are often unaware of their existence. By

uncovering lives whitewashed out of our history in stories spanning Africa the Americas and Europe Black Convicts also traces Australia's hidden links to slavery which both powered the British Empire and inspired the convict system itself Situating European settlement in its global context Chingaipe shows that the injustice of dispossession was driven by the engine of labour exploitation Black Convicts will change the way we think about who we are

**The Struggle for Freedom from Fear**

Alison Brysk, 2018-08-01 How can we understand and contest the global wave of violence against women In this book Alison Brysk shows that gender violence across countries tends to change as countries develop and liberalize but not in the ways that we might predict She shows how liberalizing authoritarian countries and transitional democracies may experience more shifting patterns and greater levels of violence than less developed and democratic countries due to changes and uncertainties in economic and political structures Accordingly Brysk analyzes the experience of semi liberal developing countries at the frontiers of globalization Brazil India South Africa Mexico the Philippines and Turkey to map out

patterns of gender violence and what can be done to change those patterns As the book shows gender violence is not static nor can it be attributed to culture or individual pathology rather it varies across a continuum that tracks economic political and social change While a combination of international action law public policy civil society mobilization and changes in social values work to decrease gender violence Brysk assesses the potential limits and balance of these measures Brysk shows that a human rights approach is necessary but not sufficient to address gender violence and that insights from feminist and development approaches are essential *Feminist Interpretations of Mary Astell* Alice Sowaal, Penny A.
