A Medieval Songbook Elizabeth Eva Leach, Joseph W. Mason, Matthew P. Thomson, 2022 Detailed exploration of an enigmatic manuscript containing the texts to hundreds of songs but no musical notation The medieval songbook known variously as *trouv re* manuscript C or the Bern Chansonnier Bern Burgerbibliothek Cod 389 is one of the most important witnesses to musical life in thirteenth century France Almost certainly copied in Metz it provides the texts to over five hundred Old French songs and is a unique insight into cultures of song making and copying on the linguistic and political borders between French and German speaking lands in the Middle Ages Notably the names of *trouv res* including several female poet musicians are found in its margins names which would be unknown today without this evidence However the manuscript has received relatively little scholarly attention partly because the songs musical staves remained empty for reasons now unknown and partly because of where it was copied This collection of essays is the first to consider C on its own terms and from a range of disciplinary perspectives including philology art history literary studies and musicology The contributors explore the process of creating the complex object that is a music manuscript examining the work of the scribes and artists who worked on C and questioning how scribes acquired and organised exemplars for copying The peculiarly Messine flavour of the repertoire and authors is also discussed with contributors showing that C frames the tradition of Old French song from a unique perspective As a whole the volume demonstrates how in this eastern hub of music and poetry poet composers readers and scribes interacted with the courtly song tradition in fascinating and unusual ways
