Power To The People The Politics And Progreb Of Decentralisation:

Power to the People? Kallidaikurichi Chidambarakrishnan Sivaramakrishnan, 2000 With reference to India **Politics on a Human Scale** Jeff Taylor, 2013-09-27 Featuring a foreword by Congressman Glen Browder Politics on a Human Scale examines political decentralization in the United States from the founding of the republic to the present Part of the desirable equilibrium is a sense of proportionality Some sizes some amounts some levels are more appropriate than others Decentralism is the best political tool to ensure equilibrium to promote proportionality and to obtain appropriate scale Power distribution should be as wide as possible Government functions should be as close to the people as practicable In this way individual human beings are not swallowed by a monstrous Leviathan Persons are not at the mercy of an impersonal bureaucracy led by the far away few Decentralism gives us politics on a human scale It gives us more democracy within the framework of a republic The longest chapters in the book deal with crucial turning points in U S history specifically when decentralists lost the upper hand in the two major political parties Decentralism in our nation runs deep both intellectually and historically It also has considerable popular support Yet today it is a virtual political orphan In Washington neither major political party is serious about dispersing power to lower levels of government or to the people themselves Still there are dissident politicians and political movements that remain committed to the decentralist principle Power needs to be held in check partly through decentralization because power holds a great and dangerous attraction for humans Recognition of this human tendency is the first step in guarding against it and getting back on a better path **Decentralisation, Local Governance and Development: An Aspect of Development** Akampurira Abraham, 2013-09 Communities need a holistic approach to address the problems that affect the people at the grass root The planning of the direct beneficiaries involves decentralization in order to allow the lower power centers to widely take part in the development of society Concerns of the grass root people form the need for decentralization and local governance People s involvement in the planning on the village level and all local government units makes the identification and solving of the problem easier High participatory levels of all the people especially the marginalized encourages innovation to source for the appropriate solutions to the common problems that face society It therefore calls a decentralized system that caters for the voters preferences while providing for their services The people s concerns call for local planning and the transfer of power to the public so that services are brought nearer to the people This study will cover the aspects of local government and decentralization such as good governance democratization civil society deconcentration devolution and delegation and its relation to the development of societies **Decentralisation, Local Governance and Development** Akampurira Abraham, 2013-02-26 Lecture Notes from the year 2013 in the subject Politics International Politics Topic Development Politics grade A Atlantic International University BUSINESS MANAGEMENT AND ECONOMICS course REGIONAL DEVELOPMENT Development issues language English comment Join Grin and enjoy the academic world abstract Communities need a holistic approach to address problems

that affect the people at the grass root Planning from the direct beneficiaries involves decentralization to allow the lower power centers to widely take part in the development of society Concerns of the grass root people form the need for decentralization and of local governance People s involvement in planning at various levels from the village level and all local government units makes problem identification and problem solving easier High participatory levels of all the people especially the marginalized encourages innovation to source for the appropriate solutions to the common problems that face society It therefore calls a decentralized system that caters for the voters preferences while providing for their services The concerns of the people call for local planning transfer of power to the public so that services are brought nearer to the people This research paper will cover the aspects of local government and decentralization such as good governance democratization civil society deconcentration devolution and delegation and how these link to development of societies Purpose of the Study The course will aid people and managers to Empower the population so that they are able to manage the public affairs themselves Develop skills for good governance and involving the people in making decisions that affect their wellbeing in their respective communities

Taking Power Back Simon Parker,2015-10-01 Faith in the UK s political system has reached new lows Politicians and commentators are lining up to offer answers but what if the problem goes beyond left and right trust and bureaucracy What if the system puts too much power in the hands of politicians in London and not enough in the hands of ordinary people This important book addresses a key issue of our time where should power and governance lie in our democracy Simon Parker a leading expert on public services and government claims the answer is to give power away Indeed across the country communities and cities are already starting to take matters into their own hands reinventing citizenship for the 21st century Including fascinating interviews with former ministers and officials about their experience of managing the central state as well as illuminating international case studies Parker offers policy recommendations and practical ideas for giving power away and creating a new kind of politics focused on unleashing society s creative potential In so doing he provides a route map for change showing how decentralisation can make us happier healthier and more equal

The Politics of Decentralisation Danny Burns,Robin Hambleton,Paul Hoggett,1994-05-31 This wide ranging book sets discussion of the various approaches to local government decentralisation in the context of the changing nature of public service management and the possibilities for new kinds of public involvement in government decision making It draws on a wide range of experiences throughout the UK as well as the findings of an in depth study of the impact of radical decentralisation strategies in two inner London boroughs to provide an authoritative assessment of the politics of decentralisation

Power to the People? The Impact of Decentralization on Governance Axel Dreher,2006

The Architecture of Government Daniel Treisman,2007-07-02 Since the days of Montesquieu and Jefferson political decentralization has been seen as a force for better government and economic performance It is thought to bring government closer to the people nurture civic virtue protect liberty exploit local information stimulate policy innovation and alleviate

ethnic tensions Inspired by such arguments and generously funded by the major development agencies countries across the globe have been racing to devolve power to local governments This book re examines the arguments that underlie the modern faith in decentralization Using logical analysis and formal modeling and appealing to numerous examples it shows that most are based on vague intuitions or partial views that do not withstand scrutiny A review of empirical studies of decentralization finds these as inconclusive and mutually contradictory as the theories they set out to test Federal Britain: The Case for Decentralisation Philip Booth, 2015-11-06 The UK has the most centralised system of government amongst major economies This results in poorer services lower economic growth and higher taxes We have also developed an approach to devolution that is incoherent and unstable This short book proposes an entirely new set of constitutional arrangements It proposes that the UK should develop a federal structure of government with only a small number of functions such as defence and border control being determined at the UK level All other functions would be the ultimate responsibility of individual nations within the UK though Wales Northern Ireland and England could combine together if they wished The author also proposes further radical decentralisation of government Local government should become responsible for a much wider range of functions and raise the revenue to finance them In areas such as health and education the government role would be diminished further as parents families and civil society institutions are provided with finance to directly procure their own services Overall this is a radical plan to completely change the nature of government in the UK It would return power to the people and reverse the long trend of centralisation that has happened since World War I

Achieving Political Decentralisation Tom Gash (Writer on government), Joe Randall (Writer on government), Sam Sims (Writer on government), 2014 *Power Diffusion and Democracy* Julian Bernauer, Adrian Vatter, 2019-05-16 Presents a theoretically and methodologically sophisticated remapping and analysis of political institutional power diffusion in democracies *Basic Principles of Political Decentralisation to Local Authorities* Robert L. Bish, 1983 The Bureau for Economic Policy and Analysis BEPA has been engaged in research on various aspects of constitutional reform in particular decentralisation of power to local and regional authorities since at least 1977 This publication is meant to set out basic principles of political decentralisation to local authorities **Decentralization and Local Politics** S N Jha, P C Mathur, 1999-08-30 This volume contains thirteen seminal essays which focus on the dialectic between the policies and institutions of decentralization and local politics in India Evocative of tensions between matters of local autonomy and the demands of development the volume urges a concern for an understanding of the complex nature of decentralization particularly in view of the enormous diversity of Indian society **Decentralizing Power** Stoehr Taylor Stoehr, 2020-07-19 In this new collection of his most acute and durable political writing readers will recognize the spirit of indignation and hope Goodman first roused in the 1960s with *Growing Up Absurd* e Stoehr tells his Goodman s story well This is the genuine kind of decentralism e The Nation **Decentralization and the Provision of Public Services** Aehyung Kim, **Going Local**

Merilee S. Grindle, 2009-03-09 Many developing countries have a history of highly centralized governments. Since the late 1980s a large number of these governments have introduced decentralization to increase democracy and improve services especially in small communities far from capital cities. In *Going Local* an unprecedented study of the effects of decentralization on thirty Mexican municipalities Merilee Grindle describes how local governments respond when they are assigned new responsibilities and resources under decentralization policies. She explains why decentralization leads to better local governments in some cases and why it fails to in others. Combining quantitative and qualitative methods Grindle examines data based on a random sample of Mexican municipalities and ventures into town halls to follow public officials as they seek to manage a variety of tasks amid conflicting pressures and new expectations. Decentralization she discovers is a double edged sword. While it allows public leaders to make significant reforms quickly institutional weaknesses undermine the durability of change and legacies of the past continue to affect how public problems are addressed. Citizens participate but they are more successful at extracting resources from government than in holding local officials and agencies accountable for their actions. The benefits of decentralization regularly predicted by economists political scientists and management specialists are not inevitable she argues. Rather they are strongly influenced by the quality of local leadership and politics.

Decentralized Democratic Governance in New Millennium U. B. Singh, 2009 [The Theories of Decentralization and Local Government](#) Kwame Badu Antwi-Boasiako, Peter Csanyi, 2014 Theories of Decentralization and Local Government brings fresh perspective to the debate and comparative analysis of vertical division of power i.e. processes of decentralization and relations between central and local self governments. The multiple author book is not just one of many similar around the globe as it encompasses contributions from many different academics from not only different countries but also different continents and even more importantly very different political traditions and cultures. This way the book deepens and strengthens knowledge of the role of local governments in the contemporary world and brings new value to discussions on the relationship between decentralization and development. [The Political Economy of Democratic Decentralization](#) James Manor, 1999 Nearly all countries worldwide are now experimenting with decentralization. Their motivation are diverse. Many countries are decentralizing because they believe this can help stimulate economic growth or reduce rural poverty goals central government interventions have failed to achieve. Some countries see it as a way to strengthen civil society and deepen democracy. Some perceive it as a way to off load expensive responsibilities onto lower level governments. Thus decentralization is seen as a solution to many different kinds of problems. This report examines the origins and implications decentralization from a political economy perspective with a focus on its promise and limitations. It explores why countries have often chosen not to decentralize even when evidence suggests that doing so would be in the interests of the government.

It seeks to explain why since the early 1980s many countries have undertaken some form of decentralization This report also evaluates the evidence to understand where decentralization has considerable promise and where it does not It identifies conditions needed for decentralization to succeed It identifies the ways in which decentralization can promote rural development And it names the goals which decentralization will probably not help achieve *Achieving Political Decentralisation* Tom Gash (Writer on government), Joe Randall (Writer on government), Sam Sims (Writer on government), 2014
