The Power of Thought Thomas Henry Hamblin, 2007 The power of thought, as Emerson says, is a spiritual power. It is the greatest power that man has at his disposal. The world today is in its present state simply as a result of mankind's collective thinking; each nation is in its present state of either peace and prosperity or poverty, murder, and anarchy simply as a result of its thinking as a nation, and each individual is what he is and his life is what it is and his circumstances are what they are simply as results of his thoughts.
