Power Of The Warships:

Power of the Warships John Vaughan,2005-08-01 **Steamship and Other Power Vessels** ,1893 *Power in Concert* Jennifer Mitzen,2024-05-31 How states cooperate in the absence of a sovereign power is a perennial question in international relations With *Power in Concert* Jennifer Mitzen argues that global governance is more than just the cooperation of states under anarchy it is the formation and maintenance of collective intentions or joint commitments among states to address problems together The key mechanism through which these intentions are sustained is face to face diplomacy which keeps states obligations to one another salient and helps them solve problems on a day to day basis Mitzen argues that the origins of this practice lie in the Concert of Europe an informal agreement among five European states in the wake of the Napoleonic wars to reduce the possibility of recurrence which first institutionalized the practice of jointly managing the balance of power Through the Concert s many successes she shows that the words and actions of state leaders in public forums contributed to collective self restraint and a commitment to problem solving and at a time when communication was considerably more difficult than it is today Despite the Concert s eventual breakdown the practice it introduced of face to face diplomacy as a mode of joint problem solving survived and is the basis of global governance today
