Power Of The Weak Studies On Medieval Women:

Power of the Weak Jennifer Carpenter, Sally-Beth MacLean, 1995 Covering the eleventh through sixteenth centuries these essays suggest that influence and power may have paradoxically been available to women despite and sometimes precisely because of their subordinate position in society Striking for its range of scholarship this collection explores the power and independence relationships and influence of medieval queens holy women mothers widows Jewish conversas and others Latin and Anglo Norman hagiography confessors manuals coronation rituals responsa literature and legal theory are represented An intriguing exploration of a basic paradox of medieval society and an excellent blend of theory and gender studies with detailed work relevant for social and political history Joel Rosenthal author of Patriarchy and Families of Privilege in Fifteenth Century England JENNIFER CARPENTER is a lecturer in history at the University of Otago Dunedin New Zealand

Power of the Weak Jennifer Carpenter, Sally-Beth MacLean, 1995 *Women and Gender in Medieval Europe* Margaret Schaus, 2006 Publisher description **Imprisoning Medieval Women** Dr Gwen Seabourne, 2013-07-28 The non judicial confinement of women is a common event in medieval European literature and hagiography The literary image of the imprisoned woman usually a noblewoman has carried through into the quasi medieval world of the fairy and folk tale in which the maiden in the tower is one of the archetypes Yet the confinement of women outside of the judicial system was not simply a fiction in the medieval period Men too were imprisoned without trial and sometimes on mere suspicion of an offence yet evidence suggests that there were important differences in the circumstances under which men and women were incarcerated and in their roles in relation to non judicial captivity This study of the confinement of women highlights the disparity in regulation concerning male and female imprisonment in the middle ages and gives a useful perspective on the nature of medieval law its scope and limitations and its interaction with royal power and prerogative Looking at England from 1170 to 1509 the book discusses the situations in which women might be imprisoned without formal accusation of trial how social status national allegiance and stage of life affected the chances of imprisonment the relevant legal rules and norms the extent to which legal and constitutional developments in medieval England affected women s amenability to confinement what can be known of the experiences of women so incarcerated and how women were involved in situations of non judicial imprisonment aside from themselves being prisoners

Reassessing the Roles of Women as 'Makers' of Medieval Art and Architecture (2 Vol. Set) Therese Martin, 2012 The twenty four studies in this volume propose a new approach to framing the debate around the history of medieval art and architecture to highlight the multiple roles played by women moving beyond today s standard division of artist from patron *Women's Genealogies in the Medieval Literary Imagination* Emma O. Bérat, 2024-03-21 Uncovering the many striking female alternatives to patrilineal narratives in medieval texts Emma O B rat explores strategies of writing and illustration that creatively and purposefully depict women s legacies Genealogy used to justify a character s present power and project it onto the future was crucial to medieval political

literary and historical thought While patrilineage often limited women to exceptional or passive roles other genealogical forms that represent and promote women's claims are widespread in medieval texts Female characters transmit power through book patronage and reading enduring landmarks and international travel as well as childbearing and succession These flexible if messy genealogies reflect the web of political biological and spiritual relations that frequently characterized elite women's lives Examining hagiography chronicles genealogical rolls and French English and Latin romances as well as associated codices and images Barrow highlights the centrality of female characters and historical women to this fundamental aspect of medieval consciousness

A Cultural History of Women in the Middle Ages Kim M. Phillips, 2015-04-02 The medieval era has been described as the Age of Chivalry and the Age of Faith but also as the Dark Ages Medieval women have often been viewed as subject to a punishing misogyny which limited their legal rights and economic activities but some scholars have claimed they enjoyed a rough and ready equality with men The contrasting figures of Eve and the Virgin Mary loom over historians' interpretations of the period 1000-1500 Yet a wealth of recent historiography goes behind these conventional motifs showing how medieval women's lives were shaped by status age life stage geography and religion as well as by gender A Cultural History of Women in the Middle Ages presents essays on medieval women's life cycle bodies and sexuality religion and popular beliefs medicine and disease public and private realms education and work power and artistic representation to illustrate the diversity of medieval women's lives and constructions of femininity

Late-Medieval German Women's Poetry, 2004 Although there were a number of women writers of the late Middle Ages it was not thought that women composed lyric poetry Classen s investigation however proves this to be a misconception and presents a selection of secular love songs and religious hymns composed by 15th and 16th century German women poets

Women in Early Medieval Europe, 400-1100 Lisa M. Bitel, 2002-10-24 This is a history of the early European middle ages through the eyes of women combining the rich literature of women s history with original research in the context of mainstream history and traditional chronology The book begins at the end of the Roman empire and ends with the start of the long eleventh century when women and men set out to test the old frontiers of Europe The book recreates the lives of ordinary women but also tells personal stories of individuals Each chapter also questions an assumption of medieval historiography and uses the few documents produced by women themselves along with archaeological evidence art and the written records of medieval men to tell of women their experiences and ideas and their relations with men It covers the continent and its exotic edges such as Iceland Ireland and Iberia looking at women Christian and non Christian alike

Edwards, 2019 *Superior Women* examines the claims of abbesses of the abbey of Sainte Croix in medieval Poitiers to authority from the abbey's foundation to its 1520 reform These women claimed to hold authority over their own community over dependent chapters of male canons and over extensive properties in Poitou male officials such as the king of France and the pope repeatedly supported these claims To secure this support the abbesses relied on two strategies that the abbey's founder the sixth century Saint Radegund established they documented support from a network of allies made up of powerful secular and ecclesiastical officials and they used artefacts left from Radegund's life to shape her cult and win new patrons and allies Abbesses across the 900 years of this study routinely turned to these strategies successfully when faced with conflict from dependents or more local officials such as the bishop of Poitiers Sainte Croix's nuns proved adept at tailoring these strategies to shifting historical contexts turning from Frankish bishops to the kings of Frankia then to the Pope and finally to the King of France as former allies became unavailable to them The book demonstrates respectful cooperation between men and monastic women and more extensive respect for female monastic authority than scholars typically recognize Chapters focus on the cult's manuscripts church decoration procession jurisdictions between cult institutions reform and rebellion
