**Helen Lackner**

## **Power Reproduction And Gender The Intergenerational Transfer Of Knowledge:**

**Power, Reproduction And, Gender** Wendy Harcourt,1997 Drawing on material from a wide variety of societies all immersed in deep change the contributors investigate when and why people change their reproductive and sexual behaviour and how knowledge is transferred within and between the generations

**Power, Reproduction And, Gender** Wendy Harcourt,1997 Drawing on material from a wide variety of societies all immersed in deep change the contributors investigate when and why people change their reproductive and sexual behaviour and how knowledge is transferred within and between the generations

Labour Migration and Social Development in Contemporary China Rachel Murphy,2008-10-08 This book examines labour migration in China focusing in particular on the social dimensions exploring important issues including poverty alleviation inequality social insurance health and education and the role of NGOs It considers the impact of changing government policy which has made social issues more central to national development policies

**Gender, Development and Health** Caroline Sweetman,2001 Articles included here focus on understandings of reproductive health integrating gender issues into infectious disease prevention the impact of HIV AIDS on women working with communities to promote health and on the monitoring and evaluation of health projects from a gender perspective

**Body Parts on Planet Slum** Lisa Beljuli Brown,2011-10-01 Based on a year s research from within a Brazilian slum this study follows a series of unemployed women who watch up to six hours of telenovelas a day often in the midst of arduous physical labour in the home The women suffer in relation to their bodies but simultaneously invest in a masochistic glorification of suffering that links their lives to the soap operas revealing disturbing valuations of the female body that traverse reality and fiction Through its exploration of this daily integration of real suffering and fictional glamour and wealth Body Parts on Planet Slum reveals how fantasy and social exclusion can together induce a form of psychological survivalism enabling these women to reconfigure the central features of their existence their suffering pleasure sexuality and embodiment

*AIDS Sexuality and Gender in Africa* Carolyn Baylies,Janet Bujra,2002-09-11 While there is a growing list of publications devoted to the AIDS epidemic Africa with two thirds of the world s cases still receives scant attention This book may change the way we think about AIDS and how it is being addressed in Africa and the rest of the world The book draws on first hand research and in depth investigations carried out by a team of researchers from Britain Zambia and Tanzania and focuses on the gendered aspect of the struggle against AIDS The authors study the severity of the epidemic and the threat it poses to the population and society in Tanzania and Zambia They argue that the success of strategies against the spread of AIDS in Africa rests on their recognition of existing gendered power relations and that this success might be enhanced if the strategies are built on existing organisational skills and practices especially among women Their conclusions have repercussions for all countries around the world and especially the rest of Africa

**Why Yemen Matters** Helen Lackner,2014-06-26 In November 2011 an agreement brokered by the GCC brought an end to Yemen s tumultuous uprising The National Dialogue Conference has

opened a window of opportunity for change bringing Yemen's main political forces together with groups that were politically marginalized. Yet the risk of collapse is serious and if Yemen is to remain a viable state it must address numerous political, social and economic challenges. In this invaluable volume experts with extensive Yemen experience provide innovative analysis of the country's major crises: centralized governance, the role of the military, ethnic conflict, separatism, Islamism, foreign intervention, water scarcity and economic development. This is essential reading for academics, journalists, development workers, diplomats, politicians and students alike.

*Contraception across Cultures* Andrew Russell, Mary Thompson, Elisa J. Sobo, 2020-06-04. Contraception is an issue of considerable concern to a great many heterosexually active people. Yet the impact of contraceptive technologies in the world today, in particular their implications for kinship, gender relations and other aspects of social life, receives relatively little scholarly attention. This book brings a new perspective to the study of contraception by collecting together in one volume leading experts in the fields of contraception, family planning and reproductive health. Contributors look at the social, economic, political and cultural contexts in which contraceptive providers and recipients make decisions about whether and what forms of contraception to use. User perspectives, whether those of recipients or providers of contraceptive services, are taken seriously, as are the perspectives of policy makers and development experts. With its in-depth case study approach, this challenging book will appeal to practitioners and planners in the fields of family planning and reproductive health, as well as to students and academics of applied and medical anthropology, health studies, gender and development studies, or anyone interested in the social, cultural and ethical issues raised by contraceptive technologies.

**Birth Control, Sex, and Marriage in Britain 1918-1960** Kate Fisher, 2006-07-13. The first half of the twentieth century witnessed a revolution in contraceptive behaviour as the large Victorian family disappeared. This book offers a new perspective on the gender relations, sexual attitudes and contraceptive practices that accompanied the emergence of the smaller family in modern Britain. Kate Fisher draws on a range of first-hand evidence, including over 190 oral history interviews in which individuals born between 1900 and 1930 described their marriages and sexual relationships. By using individual testimony, she challenges many of the key conditions that have long been envisaged by demographic and historical scholars as necessary for any significant reduction in average family size to take place. Dr Fisher demonstrates that a massive expansion in birth control took place in a society in which sexual ignorance was widespread, that effective family limitation was achieved without the mass adoption of new contraceptive technologies, that traditional methods such as withdrawal, abstinence and abortion were often seen as preferable to modern appliances such as condoms and caps, that communication between spouses was not key to the systematic adoption of contraception, and above all that women were not necessarily the driving force behind the attempt to avoid pregnancy. Women frequently avoided involvement in family planning decisions and practices, whereas the vast majority of men in Britain from the interwar period onward viewed the regular use of birth control as a masculine duty and obligation. By allowing this generation to speak for

themselves Kate Fisher produces a richer understanding of the often startling social attitudes and complex conjugal dynamics that lay behind the vast changes in contraceptive behaviour and family size in the twentieth century *The Traffic in Women* Siriphōn Sakhrōbanēk, Nataya Boonpakdee, Chutimā Čhanthathīrō, 1997-11 Changes in the family Sexual Decision-making and AIDS in Africa Muthoni A. Mathai, 2006 **The Land is Dying** Wenzel Geissler, Ruth Jane Prince, 2010 This series in medical anthropology publishes monographs and edited volumes on indigenous so called traditional medical knowledge and practice alternative and complementary medicine and ethnobiological studies that relate to health and illness The emphasis of the series is on the way indigenous epistemologies inform healing against a background of comparison with other practices and in recognition of the fluidity between them *Resilience and Transformation for Global Restructuring* Manju Singh, Nupur Tandon, 2023-11-25 The themes covered in Resilience and Transformation for Global Restructuring will include Technology Creativity and Innovation Post COVID 19 opportunities and challenges Development for a Sustainable World Cross Cultural Dimensions of well being Gender Inequality and Intersectionality This Edited Collection draws from selected papers from the 2022 International Conference on Resilience and Transformation for Global Restructuring which addresses many of the challenges in a post pandemic world *Population Politics and Development* L. Richey, 2008-01-21 This book uses political and socio anthropological theory to examine the relationship between power interest and agency within population and family planning discourse across Africa with particular emphasis on case studies from Tanzania Latin America Transformed Robert N Gwynne, Kay Cristobal, 2014-04-23 Praise for the first edition Accomplishes its task to provide readers with a broad multi disciplinary view on globalization s many impacts on Latin America the organization of the collection is logical and thoughtful and the structural perspectives offered are convincing and powerful I recommend it to other Latin American social scientists Growth and Change An impressive timely and lively volume which is especially valuable for teaching purposes Journal of Latin American Studies Authoritatively written by leading scholars in their respective fields Area Latin America Transformed 2nd Edition explains the region s economic political social and cultural transformations its association with globalization and the search for modernity and contributes to a greater understanding of how these transformations are affecting the people of Latin America Using a political economy approach to unravel the concepts of globalization and modernity within Latin America emphasis is placed on interpreting the macro level structures that frame the transformations taking place The book also investigates the dynamics of people s livelihoods as they make sense of rework and live out these structural transformations The international team of authors involved with the successful first edition have updated their focus and substantially rewritten their material to examine the challenges facing Latin America in the twenty first century Three completely new chapters have also been added Latin America Transformed 2nd Edition is now even more useful for undergraduate and postgraduate courses that examine economic political social and cultural change in Latin America *Struggling for Health in the City* Brigit Obrist, 2006 For international experts health is a

comprehensive concept closely linked to bodily material spiritual and social well being But what does health mean to women living in a poor neighborhood of an African city Women in Dar es Salaam see health as primarily related to livelihood hygiene and care To stay healthy one has to fulfill basic needs for food water and shelter to keep the body and home clean and to take good care of the family Since the state and newly privatized services hardly reach them and husbands often fail in their role as breadwinners women bear a growing burden in daily health practice They become increasingly vulnerable unless they manage to create a new balance by improving their knowledge becoming economically more independent and raising support within the household in social networks and organizations By shifting the focus from illness to local meanings of health and vulnerability anthropology can make a unique contribution to the rapidly expanding field of urban health research Such an actor centered approach provides fascinating insights and fosters innovative theoretical debates for both scholars and practitioners With regard to medical anthropology this study opens new lines of inquiry which may eventually lead to an anthropology of health *JASO*, 2000 Gender in Latin America Sylvia H. Chant, Nikki Craske, 2003 A comprehensive state of the art review of gender in one of the world's most diverse and dynamic regions The authors draw on a wide range of sources including their own field research to explore changes and continuities in gender roles relations and identities during the late twentieth century into the twenty first Debunking traditional universalizing stereotypes diversity in gender is highlighted in relation to the cross cutting influences of age class sexuality ethnicity rural urban residence and migrant status *Women's Minds, Women's Bodies* G. Boswell, F. Poland, 2002-12-02 The most positive approaches to women's health frequently emerge from women's own endeavours to achieve physical and mental balance in their lives Abandoning the artificiality of subject divides this book engages with that ethos Drawing on the experience of an interdisciplinary women's health initiative Gwyneth Boswell and Fiona Poland have assembled a formidable range of academic and professional experts in this highly accessible collection Concepts of health are explored across disciplines which include psychology law history health economics nursing counselling social work and sociology *Journal of the Anthropological Society of Oxford* Anthropological Society of Oxford, 2000
