Précis d'histoire de la philosophie chinoise Youlan Feng, 1985 Précis d'histoire de la philosophie chinoise Youlan Feng, 1952
Feng, Yeou-Ian Fong Yeou Ian, 1952 **Précis d'histoire de la philosophie chinoise** Youlan Feng, Guillaume Dunstheimer, 1952 **Philosophie asiatique/Asian philosophy** Guttorm Fløistad, 2012-12-06 The present publication is a continuation of two earlier series of chronicles Philosophy in the Mid Century Firenze 1958 59 and Contemporary Philosophy Firenze 1968 edited by Raymond Klibansky As with the earlier series the present surveys purport to give a survey of significant trends in contemporary philosophical discussion The need for such surveys has I believe increased rather than decreased over the last years The philosophical scene appears for various reasons rather more complex than ever before The continuing process of specialization in most branches the emergence of new schools of thought particularly in philosophical logic in the philosophy of language and in social and political philosophy the increasing attention being paid to the history of philosophy in discussions of contemporary problems as well as the increasing interest in cross cultural philosophical discussion are the most important contributory factors Surveys of the present kind are a valuable source of knowledge about this complexity and may as such be of assistance in renewing the understanding of one's own philosophical problems The surveys it is to be hoped may help to strengthen the Socratic element of modern philosophy the world wide dialogue or Kommunikationsgemeinschaft So far six volumes have been prepared for the new series The present surveys in Asian Philosophy Vol 7 follow the surveys in the Philosophy of Language and Philosophical Logic Vol I Philosophy of Science Vol 2 Philosophy of Action Vol 3 Philosophy of Mind Vol 4 African Philosophy Vol 5 and Medieval Philosophy Part 1 2 Vol 6 *A Question of Interest* André Bruneau, 1997
La philosophie chinoise Yu-Jung Sun, 2023-06-13 La philosophie chinoise est perçue par les lecteurs européens comme une pensée profondément différente de la philosophie occidentale Cette différence découle notamment du style de raisonnement que l'on y rencontre qui paraît complètement étranger celui qui s'est imposé dans le monde moderne Le présent ouvrage se veut une introduction la philosophie chinoise en partant de l'origine de ce raisonnement infiniment différent les idéogrammes L'écriture idéographique a exercé une influence profonde et durable sur la pensée chinoise En effet contrairement à ce qui se produit avec une écriture alphabétique la signification des idéogrammes provient d'un montage et non d'une correspondance Ce livre invite ainsi le lecteur remonter aux origines de la philosophie chinoise en montrant comment les idéogrammes ont orienté la façon dont les intellectuels des temps anciens percevaient la réalité et formulaient leurs enquêtes sur la vérité avec comme principe central la notion de la Voie le chemin qui mène toute chose son terme Le Yijing d'abord crit pour la divination puis largement commenté au fil des siècles est considéré comme la racine de toute la pensée chinoise Son exploration constitue donc la première étape de ce voyage et nous plonge dans la toute première constitution philosophique Cette première tentative philosophique donne le ton pour l'ensemble de la philosophie chinoise ultérieure posée comme une recherche de la Voie Le

voyage se poursuit avec une introduction aux principales écoles de la pensée chinoise que sont le confucianisme le taoïsme le bouddhisme Han et le néoconfucianisme le long d'un même fil rouge tenter de décoder comment l'interrogation sur la Voie a structuré ces écoles philosophiques et rendre compte des débats qu'elles ont menés tant sur la nature de cette Voie que sur les principes éthiques que l'on peut chercher à construire en l'imitant Yu-jung Sun est docteur en philosophie et enseigne actuellement en tant que chargé de cours au département de philosophie de l'Université Paris 1 Panthéon-Sorbonne

What is Ancient Philosophy? Pierre Hadot, 2002 A magisterial mappa mundi of the terrain that Pierre Hadot has so productively worked for decades this ambitious work revises our view of ancient philosophy and in doing so proposes that we change the way we see philosophy itself Hadot takes ancient philosophy out of its customary realm of names dates and arid abstractions and plants it squarely in the thick of life Through a meticulous historical reading he shows how the various schools trends and ideas of ancient Greek and Roman philosophy all tended toward one goal to provide a means for achieving happiness in this life by transforming the individual's mode of perceiving and being in the world Most pressing for Hadot is the question of how the ancients conceived of philosophy He argues in great detail systematically covering the ideas of the earliest Greek thinkers Hellenistic philosophy and late antiquity that ancient philosophers were concerned not just to develop philosophical theories but to practice philosophy as a way of life a way of life to be suggested illuminated and justified by their philosophical discourse For the ancients philosophical theory and the philosophical way of life were inseparably linked What Is Ancient Philosophy also explains why this connection broke down most conspicuously in the case of academic professional philosophers especially under the influence of Christianity Finally Hadot turns to the question of whether and how this connection might be reestablished Even as it brings ancient thoughts and thinkers to life this invigorating work provides direction for those who wish to improve their lives by means of genuine philosophical thought
