**More Than Words** Richard Fox, 2018-09-15 Grounded in ethnographic and archival research on the Indonesian island of Bali *More Than Words* challenges conventional understandings of textuality and writing as they pertain to the religious traditions of Southeast Asia Through a nuanced study of Balinese script as employed in rites of healing sorcery and self defense Richard Fox explores the aims and desires embodied in the production and use of palm leaf manuscripts amulets and other inscribed objects Balinese often attribute both life and independent volition to manuscripts and copperplate inscriptions presenting them with elaborate offerings Commonly addressed with personal honorifics these script bearing objects may become partners with humans and other sentient beings in relations of exchange and mutual obligation The question is how such practices of the living letter may be related to more recently emergent conceptions of writing linked to academic philology reform Hinduism and local politics which take Balinese letters to be a symbol of cultural heritage and a neutral medium for the transmission of textual meaning *More than Words* shows how Balinese practices of apotropaic writing on palm leaves amulets and bodies challenge these notions and yet coexist alongside them Reflecting on this coexistence Fox develops a theoretical approach to writing centered on the premise that such contradictory sensibilities hold wider significance than previously recognized for the history and practice of religion in Southeast Asia and beyond

Natural Potency and Political Power Sarinda Singh, 2012-01-31 Forests as physical entities have received considerable scholarly attention in political studies of Asia and beyond Much less notice has been paid to the significance of forests as symbols that enable commentary on identity aspirations and authority *Natural Potency and Political Power* an innovative exploration of the social and political importance of forests in contemporary Laos challenges common views of the rural countryside as isolated and disconnected from national social debates and politics under an authoritarian regime It offers instead a novel understanding of local perspectives under authoritarianism demonstrating that Lao people make implicit political statements in their commentary on forests and wildlife and showing that in addition to being vital material resources forests and their natural potency are linked in the minds of many Lao to the social and political power of the state Sarinda Singh explores the intertwining of symbolic and material concerns in local debates over conservation and development the popularity of wildlife consumption the particular importance of elephants and forest loss and mismanagement In doing so she draws on ethnographic fieldwork around Vientiane the capital and Nakai site of the contentious Nam Theun 2 hydropower project places that are broadly reflective of the divide between urban prosperity and rural poverty Nam Theun 2 supported by the World Bank highlights the local regional and global dynamics that influence discussions of forest resources in Laos Government officials rural villagers and foreign consultants all contribute to competing ideas about forests and wildlife Singh advances research on forest politics by rethinking how ideas about nature influence social life Her work refutes the tendency to see modern social life as independent of historical

influences and her attention to viewpoints both inside and outside the state prompts an understanding of authoritarian regimes as not only sources of repression but also sites of negotiation engagement and debate about the legitimacy of social inequalities

**Environmental and Climate Change in South and Southeast Asia**, 2014-08-07 Based on pioneering research this volume on South and Southeast Asia offers a cultural studies perspective on the vast and largely uncharted domain of how local cultures are coping with climate changes and environmental crises The primary focus is on three countries that have high emission rates India Indonesia and Thailand Whereas the dominant discourse on climate largely reflects the view of Western cultures this volume adds indigenous views and practices that provide insight into Hindu Buddhist and Islamic responses Making use of textual materials fieldwork and analyses it highlights the close links between climate solutions forms of knowledge and the various socio cultural and political practices and agencies within societies The volume demonstrates that climate is global and plural Contributors are Monika Arnez Somnath Batabyal Joachim Betz Susan M Darlington Dennis Eucker R diger Haum Albertina Nugteren Marcus N sser Ravi Baghel Martin Seeger and Janice Stargardt

**Myths and Realities** Yoshifumi Tamada, 2009 This study now in paperback traces the root of Thailand's current political instability back to the 1990s It challenges the prevailing view that the nation's democratization process during the decade was led by the active middle class The book argues that the key role played by the middle class was moderation rather than promotion of democracy The middle class achieved discursive power after the May 1992 incident and prevented the numerical majority of the population rural residents and urban lower class people from gaining the hegemony With competing forces in Thai politics under the microscope and with a particular focus on passive political actors Myths and Realities shows that the appeasement of the opponents of democratization is no less crucial than the emergence or empowerment of its proponents The Japanese original of Myths and Realities won an Ohira Masayoshi Memorial Prize in 2003

**Buddhist Warfare** Michael Jerryson, Mark Juergensmeyer, 2010-01-08 Though traditionally regarded as a peaceful religion Buddhism has a dark side On multiple occasions over the past fifteen centuries Buddhist leaders have sanctioned violence and even war The eight essays in this book focus on a variety of Buddhist traditions from antiquity to the present and show that Buddhist organizations have used religious images and rhetoric to support military conquest throughout history Buddhist soldiers in sixth century China were given the illustrious status of Bodhisattva after killing their adversaries In seventeenth century Tibet the Fifth Dalai Lama endorsed a Mongol ruler's killing of his rivals And in modern day Thailand Buddhist soldiers carry out their duties undercover as fully ordained monks armed with guns Buddhist Warfare demonstrates that the discourse on religion and violence usually applied to Judaism Islam and Christianity can no longer exclude Buddhist traditions The book examines Buddhist military action in Tibet China Korea

Japan Mongolia Sri Lanka and Thailand and shows that even the most unlikely and allegedly pacifist religious traditions are susceptible to the violent tendencies of man

**The Traffic in Hierarchy** Ward Keeler, 2017-09-30 Until its recent political thaw Burma was closed to most foreign researchers and fieldwork based research was rare In *The Traffic in Hierarchy* one of the few such works to appear in recent years author Ward Keeler combines close ethnographic attention to life in a Buddhist monastery with a broad analysis of Burman gender ideology The result is a thought provoking analysis of Burmese social relations both within and beyond a monastery's walls Keeler shows that the roles individuals choose in Burman society entail inevitable trade offs in privileges and prestige A man who becomes a monk gives up some social opportunities but takes on others and gains great respect Alternatively a man can become a head of household Or he can choose to take on a feminine gender identity to the derision of many but not necessarily his social exclusion A woman by contrast is expected to concern herself with her relations with family and kin Any interest she might show in becoming a nun arouses ambivalent reactions although it fulfills Buddhist teachings it contravenes assumptions about a woman's proper role In Burma hierarchical understandings condition all relationships but hierarchy implies relations of exchange not simply inequality and everyone takes on subordinate roles in their bonds with some and superordinate ones with others Knowing where power lies and how to relate to it appropriately is key It may mean choosing at times to resist power but more often it involves exercising care as to whom one wishes to subordinate oneself in what ways and on what terms Melding reflections on the work of theorists such as Dumont Anderson Warner and Kapferer with close attention to the details of Burman social interaction Keeler balances theoretical insights and ethnographic observation to produce a rich and challenging read The conundrum at the heart of this book whether to opt for autonomy the Buddhist seeking of detachment or for attachment the desire for close bonds with others is one that all humans not just Burmans must confront and it is one that admits of no final resolution

*Engaging the Spirit World* Kirsten W. Endres, Andrea Lauser, 2012-03-01 In many parts of the contemporary world spirit beliefs and practices have taken on a pivotal role in addressing the discontinuities and uncertainties of modern life The myriad ways in which devotees engage the spirit world show the tremendous creative potential of these practices and their innate adaptability to changing times and circumstances Through in depth anthropological case studies from Indonesia Malaysia Thailand Myanmar Laos and Vietnam the contributors to this book investigate the role and impact of different social political and economic dynamics in the reconfiguration of local spirit worlds in modern Southeast Asia Their findings contribute to the re enchantment debate by revealing that the spirited modernities that have emerged in the process not only embody a distinct feature of the contemporary moment but also invite a critical rethinking of the concept of modernity itself

**The Oxford Handbook of Lived Buddhism** Courtney Bruntz, Brooke

Schedneck, 2025-11-10 Attention to lived religion has significantly shaped religious studies and has only recently impacted the field of Buddhism Rather than asserting a separation between real religion happening within official organizations on the one hand and folk traditions practiced by everyday adherents on the other the lived religion model understands the religious experience as an ongoing negotiation of personal practice and belief Given the relative fluidity of Buddhism a lived religion approach decenters the most significant authorities while valuing the varied perspectives of ordinary practitioners As the field develops The Oxford Handbook of Lived Buddhism fills a major gap in the scholarship offering insight into the practices social interactions sacred spaces and outward expressions of the religion As such the Handbook will be a timely contribution opening new possibilities for study alongside texts and institutions
