Logic Primer Allen Colin Hand Michael, Colin Allen, Michael Hand, 2001-01-16 Logic Primer presents a rigorous introduction to natural deduction systems of sentential and first order logic The text is designed to foster the student instructor relationship The key concepts are laid out in concise definitions and comments with the expectation that the instructor will elaborate upon them New to the second edition is the addition of material on the logic of identity in chapters 3 and 4 An innovative interactive Web site consisting of a Logic Daemon and a Quizmaster encourages students to formulate their own proofs and links them to appropriate explanations in the book *Logic Primer, second edition* Colin Allen, Michael Hand, 2001-01-16 Logic Primer presents a rigorous introduction to natural deduction systems of sentential and first order logic Logic Primer presents a rigorous introduction to natural deduction systems of sentential and first order logic The text is designed to foster the student instructor relationship The key concepts are laid out in concise definitions and comments with the expectation that the instructor will elaborate upon them New to the second edition is the addition of material on the logic of identity in chapters 3 and 4 An innovative interactive Web site consisting of a Logic Daemon and a Quizmaster encourages students to formulate their own proofs and links them to appropriate explanations in the book A Primer of Logic Henry Bradford Smith, 1917 A Primer of Logic Emily Elizabeth Constance Jones, 2014-03-29 This Is A New Release Of The Original 1905 Edition *Logic Primer, third edition* Colin Allen, Michael Hand, 2022-02-15 The new edition of a comprehensive and rigorous but concise introduction to symbolic logic Logic Primer offers a comprehensive and rigorous introduction to symbolic logic providing concise definitions of key concepts illustrative examples and exercises After presenting the definitions of validity and soundness the book goes on to introduce a formal language proof theory and formal semantics for sentential logic chapters 1 3 and for first order predicate logic chapters 4 6 with identity chapter 7 For this third edition the material has been reorganized from four chapters into seven increasing the modularity of the text and enabling teachers to choose alternative paths through the book New exercises have been added and all exercises are now arranged to support students moving from easier to harder problems Its spare and elegant treatment makes Logic Primer unique among textbooks It presents the material with minimal chattiness allowing students to proceed more directly from topic to topic and leaving instructors free to cover the subject matter in the way that best suits their students The book includes more than thirty exercise sets with answers to many of them provided in an appendix The book s website allows students to enter and check proofs truth tables and other exercises interactively Primer of Logic Henry Bradford Smith, 2015-06-25 Excerpt from Primer of Logic In the pages which follow will be found the outlines of the logic of a set of categorical forms which are not Aristotle s own It is only the fragment of a general theory but the content of all the chapters of the old logic which are commonly regarded as essential except that one which deals with the calculus of classes will be found included In the first appendix the relation of these new forms to the traditional ones has been pointed out in detail I

have at least one debt which calls for a definite acknowledgement It is to my friend and teacher Mr Edgar A Singer Jr that I owe what training I have had in the science He has never failed through hints thrown out in conversation to correct my misapprehensions But my indebtedness is more specific than this I have so far employed his own method a method developed in his academic lectures that I could scarcely have ventured upon the publication of these outlines of a theory without his express permission About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
