The atoms of Science are the vibrations of Occultism Helena Petrovna Blavatsky,2020-07-21 For that the Light of Logos shapes the atoms from crude material which is as yet invisible to us Since sound and rhythm are closely related to the Four Elements of the Ancients the potency of the spoken word awakens their corresponding powers with good or bad results As the differentiation of the Divine Monas precedes the evolution of the Dhyanis Chohans of the Third Hierarchy of Being in the primary creation before those Devas can occupy their first ethereal form so animal creation has to precede the evolution of man on earth Then

the Great Breath vibrates and differentiates the primordial first manifested Atom How could you make yourself understood by those semi intelligent Forces whose means of communication with us are not through spoken words but through sounds and colours in correlated vibrations between the two By employing sound light and colours which are understood by these grades of intelligence Light and heat are ghosts of matter in motion Natural born magicians are those whose inner selves are connected by reason of their direct descent with that group of Dhyani Chohans who are the first born of Ether No substance possesses any inherent gustatory or olfactory property Taste and odour are mere sensations caused by vibrations hence illusionary perceptions We taste and smell in our dreams and visions Akasha is primordial substance the vehicle of Divine Thought Knowledge of Akasha and other mysteries can alone lead to knowledge of the Forces of Nature Could air exist if there were no etheric medium in Space to buoy up its molecules The waves and undulations of Science are all produced by atoms propelling their molecules into activity from within Atoms fill the immensity of Space and by their continuous vibration are Eternal Motion Atman cyclic and spiral which keeps the wheels of Life rolling *The Secret Doctrine, Vol. 1* H.
