## **Seeking The Soul Guildhall Research Studies:**

**Landscapes of the Mind: The Music of John McCabe** George Odam, 2017-10-03 Liverpool born composer and pianist John McCabe established himself as one of Britain's most recorded contemporary composers as well as a celebrated performer and recording artist. This book covers every aspect of his compositions and will help guide both general and specialist listeners and performers through the so-called landscapes of the mind that his music evokes. The title was suggested by McCabe himself and his composing and performing life took him on journeys all over the world through a variety of landscapes many of which are to be found in essence in his music. The detailed discography will help readers to find recordings of many of the works described in the series of articles written by a collection of experienced critics, performers, broadcasters and reviewers, and the copious illustrations and full pages of musical score provide a variety of insights into McCabe's life and work.

**The Musician's Body** Jaume Rosset i Llobet, George Odam, 2017-10-03 Musicians suffer greatly from industry-related injury and illness and many of these problems are established during student days or even before. This affects all forms of music making from classical through jazz and rock to traditional folk. Hearing damage is of serious concern in most forms of music making but the most stressful situations and the most physical damage is recorded in the practice of classical music. The long hours of practice at the beginning of a musician's career are the main source of problems that sometimes only reveal themselves in later life. This book is aimed equally at student musicians, practising musicians and instrumental and vocal teachers and it aims to help them to begin to understand how and why their bodies function as they do when they perform and also how they may avoid professionally related illness or injury and achieve the highest standards of performance. The principal author, Dr Jaume Rosset i Llobet, is a medical expert and an internationally acclaimed researcher on the subject. He is the Director of a Centre for the Physiology of The Arts in Terrassa, Catalonia, one of the few clinics in the world to which musicians, dancers and performing artists can go for assessment and treatment. The book provides examples and references to the health of musicians covering a wide range of musical genres based on current research, practice and treatment. As well as physiological exposition, copiously illustrated with medical and humorous diagrams, the book covers ergonomics, risk factors, posture, breathing matters of diet and accommodation of professional needs in daily life.

**Sonic Overload** Peter J. Schmelz, 2021-01-01 Composers Alfred Schnittke and Valentin Silvestrov brought us some of the most memorable music of the late Soviet Union. *Sonic Overload* traces these composers' attempts to embrace all aspects of the contemporary soundscape including influences of popular music, rock and jazz before they ultimately retreated to more refined sonic structures.

**Performing Pain** Maria Cizmiciu, 2012-01-12 Time after time people turn to music when coping with traumatic life events. Music can help process emotions, interpret memories and create a sense of collective identity. In *Performing Pain*, author Maria Cizmiciu focuses on the late 20th century in Eastern Europe as she

uncovers music's relationships to trauma and grief. The 1970s and 1980s witnessed a cultural preoccupation in this region with the meanings of historical suffering particularly surrounding the Second World War and the Stalinist era. Journalists, historians, writers, artists, and filmmakers frequently negotiated themes related to pain and memory, truth and history, morality and spirituality during glasnost and the years leading up to it. *Performing Pain* considers how works by composers Alfred Schnittke, Galina Ustvolskaya, Arvo Pärt, and Henryk Gorecki musically address contemporary concerns regarding history and suffering through composition, performance, and reception. Taking theoretical cues from psychology, sociology, and literary and cultural studies, Cizmic offers a set of hermeneutic essays that demonstrate the ways in which people employ music in order to make sense of historical traumas and losses. Seemingly postmodern compositional choices such as quotation, fragmentation, and stasis create musical analogies to psychological and emotional responses to trauma and grief, and the physical realities of their embodied performance focus attention on the ethics of pain and representation. Furthermore, as film music, these works participate in contemporary debates regarding memory and trauma. A comprehensive and innovative study, *Performing Pain* will fascinate scholars interested in the music of Eastern Europe and in aesthetic articulations of suffering. *The Routledge Handbook to the Music of Alfred Schnittke* Gavin Dixon, 2022-01-31 The Routledge Handbook to the Music of Alfred Schnittke is a comprehensive study of the work of one of the most important Russian composers of the late 20th century. Each piece is discussed in detail with particular attention to the composer's groundbreaking polystylism as well as his unique approach to musical symbolism and his deep engagement with Christian themes. This is the first publication to look at Schnittke's output in its entirety and for most works it represents either the first ever published analysis or the first in a language other than Russian. The volume presents new research from the Ivashkin Schnittke Archive at Goldsmiths University of London and the collection of Schnittke's compositional sketches at the Julliard Library in New York. It also draws on the substantial research on Schnittke's music published in the Russian language. Including a work list and bibliography of primary and secondary sources, this is an essential reference for all those interested in Russian music, 20th-century music, and performance studies.

**The Cambridge Companion to Mahler** Jeremy Barham, 2007-12-13 In the years approaching the centenary of Mahler's death, this book provides both summation of and starting point for an assessment and reassessment of the composer's output and creative activity. Authored by a collection of leading specialists in Mahler scholarship, its opening chapters place the composer in socio-political and cultural contexts and discuss his work in light of developments in the aesthetics of musical meaning. Part II examines from a variety of analytical, interpretative, and critical standpoints the complete range of his output from early student works and unfinished fragments to the sketches and performing versions of the Tenth Symphony. Part III evaluates Mahler's role as interpreter of his own and other composers' works during his lifelong career as operatic and orchestral conductor. Part IV addresses Mahler's fluctuating reception history from scholarly

journalistic creative public and commercial perspectives with special attention being paid to his compositional legacy **Im**
