Aftermath Tim Houghton, 2016-03-23. Focusing on three of the defining moments of the twentieth century: the end of the two World Wars and the collapse of the Iron Curtain, this volume presents a rich collection of authoritative essays covering a wide range of thematic, regional, temporal and methodological perspectives. By re-examining the traumatic legacies of the century's three major conflicts, the volume illuminates a number of recurrent yet differentiated ideas concerning memorialisation, mythologisation, mobilisation, commemoration and confrontation, reconstruction and representation in the aftermath of conflict. The post-conflict relationship between the living and the dead, the contestation of memories and legacies of war in cultural and political discourses, and the significance of generations are key threads binding the collection together. While not claiming to be the definitive study of so vast a subject, the collection nevertheless presents a series of enlightening historical and cultural perspectives from leading scholars in the field and it pushes back the boundaries of the burgeoning field of the study of legacies and memories of war. Bringing together historians, literary scholars, political scientists and cultural studies experts to discuss the legacies and memories of war in Europe, 1918-1945-1989, the collection makes an important contribution to the ongoing interdisciplinary conversation regarding the interwoven legacies of twentieth-century Europe's three major conflicts.

The Politics of Prison Crowding Simone Santorso, 2023-02-14 *The Politics of Prison Crowding* investigates recent transformations in Italy's penal system to make the key analytical observation that conditions of overcrowding have become the new normal under which the modern prison system continues to operate and deliver punishment Engaging with the politics of crowding thus entails a direct and pertinent engagement with the modern state's politics of criminal justice and social control Worldwide over the last decades a growing number of jurisdictions have prison systems operating above or to the limit of their capacity yet little attention has been paid to these elements in the analysis of prison politics and day to day functions By exploring the crowding issue this book offers an original and interesting insight into the politics and dynamics characterising contemporary prison systems The hypothesis of this book is that the politics of prison crowding have become the template for the daily administration of the prison system which incorporates not just policy and rules but day to day functions and practices regulating life behind bars Through interviews in modern Italian prisons the book brings to light a radical redefinition of a carceral system that harshens the delivery of punishment while justifying this exacerbation of pain by adding new bureaucratic logic to the administration of the penal system within a narrative of compliance to human rights standards By shedding new light on prison politics to open new critical perspectives and research paths *The Politics of Prison Crowding* offers a fundamental tool to scholars students and all professional policymakers and practitioners dealing with prison policies and the politics of justice Toward the Visualization of History Mark Howard Moss, 2008-01-01 This book discusses the impact of visuals on the study of history by examining visual culture and the future of print providing an analysis of photography film television and computer culture The author shows how the visualization of history can become a driving social and cultural force for change **Mapping Feminist Anthropology in the Twenty-First Century** Ellen

Lewin, Leni M. Silverstein, 2016-07-07 Feminist anthropology emerged in the 1970s as a much needed corrective to the discipline's androcentric biases. Far from being a marginalized subfield, it has been at the forefront of developments that have revolutionized not only anthropology but also a host of other disciplines. This landmark collection of essays provides a contemporary overview of feminist anthropology's historical and theoretical origins, the transformations it has undergone, and the vital contributions it continues to make to cutting edge scholarship. *Mapping Feminist Anthropology in the Twenty First Century* brings together a variety of contributors giving a voice to both younger researchers and pioneering scholars who offer insider perspectives on the field's foundational moments. Some chapters reveal how the rise of feminist anthropology shaped and was shaped by the emergence of fields like women's studies, black and Latina studies, and LGBTQ studies. Others consider how feminist anthropologists are helping to frame the direction of developing disciplines like masculinity studies, affect theory, and science and technology studies. Spanning the globe from India to Canada, from Vietnam to Peru, *Mapping Feminist Anthropology in the Twenty First Century* reveals the important role that feminist anthropologists have played in worldwide campaigns against human rights abuses, domestic violence, and environmental degradation. It also celebrates the work they have done closer to home, helping to explode the developed world's preconceptions about sex, gender, and sexuality.

Political Ecologies of Meat Jody Emel, Harvey Neo, 2015-05-15 Livestock production worldwide is increasing rapidly in part due to economic growth and demand for meat in industrializing countries. Yet there are many concerns about the sustainability of increased meat production and consumption from perspectives including human health, animal welfare, climate change, and environmental pollution. This book tackles the key issues of contemporary meat production and consumption through a lens of political ecology, which emphasizes the power relations producing particular social, economic, and cultural interactions with non-human nature. Three main topics are addressed: the political ecology of global livestock production, trends, changes in production systems around the world, and their implications for environmental justice; and existing and emerging governance strategies for meat production and consumption systems and their implications. Case studies of different systems at varying scales are included, drawn from Asia, Africa, the Americas, and Europe. The book includes an editorial introduction to set the context and synthesize key messages for the reader. Radical Political Economy Victor Lippit, 2015-03-04 Radical political economy is built upon the formal analysis of neoclassical economics and the tradition of Marxian radical analysis. The essays presented in this book offer a representative sampling of the issues and methodologies involved in the study of radical political economy.
