Longneck And Thunderfoot:

Long Neck and Thunder Foot Helen Piers, 2012 3 yrs

On the Subject of Values ... and the Value of Subjects:

New thinking to guide schools through the curriculum Bridget Knight, 2022-12-02 Education is a values based experience. Consciously or not we are highly attuned to one another's values. We see time and again that the best schools are compelled and propelled by strong values which inspire and guide the creation of a meaningful context for learning and an aspirational ethos. However, values can often be submerged, overlooked or ignored. By infusing our teaching with values, both explicit and implicit learning can serve a greater purpose, nourishing us as humans and deepening our experience. Drawing on the views and inspired teaching practice of a range of contributors, this book offers both the theoretical underpinning and practical examples to bring values to life in the classroom. It shows how each subject has a unique and valuable role and how a values based culture generates a powerful climate for successful learning in every subject discipline. It is a bedside book that will bring joy and practical support to the many professionals who work from the heart and wish to touch the future. It offers validation to those teachers who deeply care about the subject disciplines they teach, ultimately making a difference to children, their lives and their world. In our current educational context, this work is unashamedly people orientated, futures thinking and forward facing.

Children's Books

Children's Book Council (New York, N.Y.), 1992 *Children's Book Prizes*

Ruth Allen, 2019-01-22 First published in 1998, this book is the first comprehensive survey of the awards made to children's books in the English speaking world. The Volume covers nearly forty different prizes, including well known and established ones such as the Newbery Award, prizes instigated by the commercial sector such as the Smarties Prize, as well as nationally sponsored awards and prizes for illustrators. Detailed lists are provided of the winning titles and where appropriate the runners up in each year that the award has been given. Ruth Allen also presents some fascinating and often entertaining insights into the motivations behind awards and how they are viewed by authors, illustrators, publishers, librarians, booksellers and potential purchasers. The various criteria applied by judges of these awards are also examined with an assessment of whether they have always achieved the right result. This Volume is both a useful guide for adults wishing to buy good books for children and an important tool for those researching the history of the children's book industry.

Michael Foreman: A Life in Pictures Michael Foreman, 2015-11-26 One of my earliest memories is lying on the floor in front of the kitchen fire, drawing Michael Foreman. During the war, paper was in short supply, but the large biscuit tins delivered to his Mum's shop were lined with white paper. The tins were about twelve inches square, so unfolded the paper would be four feet long. Perfect for drawings of marching soldiers and convoys of tanks, the village traffic of his childhood. This is a celebration of Michael's life as a master storyteller and illustrator, told through his own autobiographical tales, diary extracts, original sketches and illustrations from his award winning publications. Beginning with his childhood in wartime Suffolk and his early career as a young artist, and culminating with his collaborations with world famous authors Terry Jones, Michael Morpurgo and Quentin
