Inside/Outside Islamic Art and Architecture Saygin Salgirli, 2021-07-29 When we walk into a gallery we have a fairly good idea where the building begins and ends and inside while observing a painting we are equally confident in distinguishing between the painting proper and its frame and borders Yet things are often more complicated A building defines an exterior space just as much as an interior and what we perceive to be ornamental and marginal to a given painting may in fact be central to what it represents In this volume a simple question is presented instead of dichotomous separations between inside and outside or exterior and interior what other relationships can we think of The first book of its kind to grapple with this question Inside Outside Islamic Art and Architecture focuses on a wide spectrum of mediums and topics including painted manuscripts objects architectural decoration architecture and urban planning and photography Bringing together scholars with diverse methodologies who work on a geographical span stretching from India to Spain and Nigeria and across a temporal spectrum from the thirteenth to the twenty first century this original book also poses engaging questions about the boundaries of the field
