**Domesticating Drink** Catherine Gilbert Murdock,2003-03-04 Selected by Choice Magazine as an Outstanding Academic Title The period of prohibition from 1919 to 1933 marks the fault line between the cultures of Victorian and modern America In Domesticating Drink Murdock argues that the debates surrounding alcohol also marked a divide along gender lines For much of early American history men generally did the drinking and women and children were frequently the victims of alcohol associated violence and abuse As a result women stood at the fore of the temperance and prohibition movements and as Murdock explains effectively used the fight against drunkenness as a route toward political empowerment and participation At the same time respectable women drank at home in a pattern of moderation at odds with contemporaneous male alcohol abuse During the 1920s with federal prohibition a reality many women began to assert their hard won sense of freedom by becoming social drinkers in places other than the home Murdock s study of how this development took place broadens our understanding of the social and cultural history of alcohol and the various issues that surround it As alcohol continues to spark debate about behaviors attitudes and gender roles Domesticating Drink provides valuable historical context and important lessons for understanding and responding to the evolving use and abuse of drink     **A Guide for Physician Training in Substance Abuse** United States. counselor examines the disruption many families endure when addiction impacts their lives Based in part on her own family's journey Ellen Van Vechten explains the science of addiction the theory of treatment and the Twelve Step model of recovery providing sensible information and tips for reasoned action in support of a loved one while fostering personal growth and recovery Powerlessness over another's addiction has a caustic effect on the family Too often parents and partners equate letting go with giving up While acceptance of a lack of control is essential to coping with the disease within the family system there is nothing passive about supporting a partner or child on their journey to recovery This concept is the foundation of Van Vechten's original approach to empower individuals with knowledge which when coupled with acceptance allows any family dealing with active addiction to make thoughtful and reasoned decisions to facilitate the recovery of both their loved ones and themselves

Schutt, Gerald R. Garrett, 2013-11-21 Responding to the Homeless Policy and Practice is largely a product of a unique

collaboration between Russell K Schutt and Gerald R Garrett and their Boston community As such it offers a rich perspective on the problem of homelessness that is derived from the authors shared experience with researchers academics students providers policymakers and homeless persons themselves Schutt and Garrett take the reader into the shelters and acquaint him or her with the philosophical and practical dilemmas facing line workers as well as policymakers They also take the reader into the community to better understand the housing market and the dysfunctional continuities among shelter housing treatment and social supports There are sensitive discussions of the salient health problems that too commonly touch the lives of homeless individuals such as substance abuse and AIDS The volume also includes clear descriptions of the sometimes elusive processes of counseling and case management for homeless individuals The sidebars of what to do and what not to do contain useful information that will both inform and empower individuals who are working on the front lines and inspire and prepare future caregivers While the eminently readable organization and style of the book are suggestive of a highly practical handbook on the basics of homelessness the authors and their contributors have also produced a scholarly volume that is replete with current research findings programs descriptions case studies and vignettes     *Understanding People in Context* Ellen P.
