WE HAVE A JOB FOR YOU Just a routine day in lunar orbit That s all Lieutenant Commander Colin MacIntyre USN expected Only a simple training mission to test a new survey instrument intended for the first manned American Russian interstellar flight What he got was just a bit different First there was the fact that Earth didn t actually have a Moon Then there was the three thousand kilometer diameter alien starship pretending it was the Moon And the millennia old cybernetic intelligence

that shanghaied him to serve as its crew Colin might have been forgiven for thinking that those were enough surprises for any one man but there were a few other small problems Like the deadly mutiny which had been raging longer than the human race had existed on Earth and still wasn't over Or like the millions of other starships crewed by genocidal aliens dedicated to the extermination of all possible competing life forms which just happened to be headed straight towards Earth Or like the interstellar empire whose aid offered humanity's only hope for survival except for the minor fact that its last emperor and all of his subjects had died forty five thousand years ago Add in the occasional homicidal terrorist religious fanatics convinced that the only good MacIntyre was a dead MacIntyre a big weapon capable of killing every living thing on any planet a super bomb which could take out whole worlds a starship drive which could destroy complete solar systems and the need to organize the entire planet Earth and all of its warring mutually murderous factions for a probably hopeless last ditch defense and Colin was convinced that things were just about as bad as they could possibly get Until he found out whose job it had just become to fix all those problems of course At the publisher's request this title is sold without DRM Digital Rights Management
