Sullivan, 1996 Louis Henry Sullivan traces his life and oeuvre It addresses his most famous buildings including the Auditorium Building in Chicago the Wainwright Building in Saint Louis the Guaranty Building in Buffalo and the National Farmers Bank in Owatonna Minnesota and reveals many of his lesser known projects to be underappreciated masterpieces For the first time Sullivan's work which has often been misappropriated is explored in its historical and theoretical context *Louis Henry Sullivan* Hans Frei, Louis H. Sullivan, 1992 **Louis Sullivan** Patrick F. Cannon, 2024 Long considered the father of the skyscraper Louis Henry Sullivan 1856-1924 first came to wide attention in 1889 with the completion of the Auditorium Building in Chicago Louis Sullivan presents for the first time every remaining structure designed by the architect accompanied by striking color photographs and highlights of his life and accomplishments **Louis Henry Sullivan, 1856-1924** Mario Manieri-Elia, Louis H. Sullivan, 1995 Louis Sullivan Robert C. Twombly, Narciso G. Menocal, Narciso G. Menocal, 2000-11-14 Louis Sullivan believed that art should reveal the creative method of nature The greatest artist was the poet whose understanding of nature spurred social change This volume is both a tribute to Sullivan's poetic genius and a catalogue of all his graphic work The authors discuss the social implications of Sullivan's theories of architecture with visual proof of his vision in illustrations of his work on paper and in three dimensions A translation of *Etude sur l'inspiration* Sullivan's seminal and heretofore unpublished credo in verse is further testimony to his vision Included is an illustrated catalogue of all extant Sullivan drawings some never before published **Louis Sullivan as He Lived** Willard Connely, 1960 **Sullivan's City** Zanten David Van, 2000-07-04 Finally the brilliant pencil execution of ornament in his old age became a surrogate for the great architectural projects realized earlier David Van Zanten's essay on how Sullivan's ornament shaped the city is illuminated by archival views and new color photographs by

Patrick F. Cannon, Louis H. Sullivan, 2011 On the eve of the twentieth century Chicago was rapidly outgrowing its borders
Architect Louis Henry Sullivan answered the demand for more office space theaters department stores and financial centers
by pioneering what would become an essential model for city life the skyscraper Louis Sullivan s designs stand today as
leading exemplars of Chicago School architecture Frank Lloyd Wright who worked as an assistant to Sullivan liked to refer to
him as his lieber Meister or beloved master Having spent much of his career in a late Victorian world that bristled with busy
fussy ornament for ornament s sake Sullivan tossed all that bric a brac into the fire with the now famous dictum Form follows
function He honored this ideal in his skyscrapers and his residential commissions as well as in the small town banks so
important to the second half of his career In Louis Sullivan Creating a New American Architecture nearly two hundred
photographs with descriptive captions document Sullivan s genius for modern design Patrick Cannon introduces each
chapter with key biographical information and discusses the influences that shaped Sullivan s illustrious career Rare
historical photographs chronicle those buildings that sadly have since been destroyed while James Caulfield s contemporary
photography captures Sullivan s existing Chicago buildings and many other structures in Eastern and Midwestern cities

SULLIVAN AND HIS MENTOR, JOHN HERMAN EDELMANN, ARCHITECT Charles E. Gregersen Aia Ncarb, 2013 Although the world famous architect Louis Sullivan praised John Edelmänn at length as a friend philosopher gifted draftsman and above all as his benefactor in his The Autobiography of an Idea he avoided any mention of having worked for two years as an apprentice in Edelmänn's architectural office and the influence that experience obviously had on his future work This book corrects that deficiency in Sullivan's narrative Through a comparison of their buildings and ornamental designs the differences in the approaches of these two men to architectural planning and the debt Sullivan owed to Edelmänn's unique ornamental style in the development of his own world renowned ornament is demonstrated Edelmänn is also revealed as the young architect who not only took Sullivan on as an apprentice but in time introduced him to his future partner Dankmar Adler only to be betrayed in the end by Sullivan for having done so **Louis Henry Sullivan** Mario Manieri-Elia, 1996

Louis H. Sullivan and a 19th-Century Poetics of Naturalized Architecture Lauren S. Weingarden, 2017-07-05 For most of the twentieth century modernist viewers dismissed the architectural ornament of Louis H Sullivan 1856 1924 and the majority of his theoretical writings as emotional outbursts of an outmoded romanticism In this study Lauren Weingarden reveals Sullivan's eloquent articulation of nineteenth century romantic practices literary linguistic aesthetic spiritual and nationalistic and thus rescues Sullivan and his legacy from the narrow role imposed on him as a pioneer of twentieth century modernism Using three interpretive models discourse theory poststructural semiotic analysis and a pragmatic concept of sign functions she restores the integrity of Sullivan's artistic choices and his historical position as a culminating figure within nineteenth century romanticism By giving equal weight to Louis Sullivan's writings and designs Weingarden shows how he translated both Ruskin's tenets of Gothic naturalism and Whitman's poetry of the American landscape into elemental structural forms and organic ornamentation Viewed as a site where various romantic discourses converged Sullivan's oeuvre demands a cross disciplinary exploration of each discursive practice and its rules of accumulation exclusion reactivation The overarching theme of this study is the interrogation and restitution of those Foucauldian rules that enabled Sullivan to articulate architecture as a pictorial mode of landscape art which he considered co equal with the spiritual and didactic functions of landscape poetry **Autobiography of an Idea** Louis Sullivan, 1979 A System of Architectural Ornament, 1967 System of Architectural Ornament Louis Sullivan, 1968-01-01 **The Idea of Louis Sullivan** John Szarkowski, Louis H. influences on his thought that have not been considered before With the help of Narciso G Menocal s new work both scholars and students of architectural and art history as well as American cultural and intellectual history will gain new insights into Sullivan and his work
