Africa in Europe: Interdependencies, relocations, and globalization Stefan Goodwin,2009-01-01 Africa in

Europe in two volumes is an interdisciplinary work about Europeans that demonstrates fluid boundaries and connections between them and Africans from antiquity until the present. Written by a scholar with expertise that includes anthropology, social history, and international relations, the subject matter of this fascinating work ranges from science to art and invites much new thinking about racism, territoriality, citizenship, and frontiers in a world that is increasingly globalized. "The Transformation of European Politics, 1763-1848" Peter Krüger, Paul W. Schroeder (Eds.), in cooperation with Katja Wüstenbecker, This book takes up a question raised about the nature of the European international system in the late eighteenth and early nineteenth centuries by Paul W. Schroeder's pathbreaking and controversial work *The Transformation of European Politics, 1763-1848* (1994). Schroeder's central claim was that the European states system underwent a fundamental transformation in the revolutionary, Napoleonic, and Vienna eras from a system of competitive, conflictual power politics based purely on a shifting balance of power to a more consensual, stable, and peaceful set of relations based on legality, acknowledged rights and obligations, and shared norms. The contributors to this volume, while examining this claim, primarily extend the debate to the entire history of European and world international politics from the early seventeenth century to the present. If this transformation was real, they ask, was it only a temporary episode or does it represent an example of other transformations or structural changes in international politics over the centuries down to the present day and a possible model for change in the future.
